Millennium Falcon: Star Wars Legends James Luceno,2009-03-31 Two years have passed since Jacen Solo, seduced by the dark side and reanointed as the brutal Sith Lord Darth Caedus, died at the hands of his twin sister, Jaina, Sword of the Jedi. For a grieving Han and Leia, the shadow of their son's tragic downfall still looms large. But Jacen's own bright and loving daughter, Allana, offers a ray of hope for the future as she thrives in her grandparents' care. And when the eager, inquisitive girl, in whom the Force grows ever stronger, makes a curious discovery aboard her grandfather's beloved spacecraft--the much-overhauled but ever-dependable Millennium Falcon--the Solo family finds itself at a new turning point, about to set out on an odyssey into uncertain territory, untold adventure, and unexpected rewards. To Han, who knows every bolt, weld, and sensor of the Falcon as if they were parts of himself, the strange device Allana shows him is utterly alien. But its confounding presence--and Allana's infectious desire to unravel its mystery--are impossible to dismiss. The only answer lies in backtracking into the past on a fact-finding expedition to retrace the people, places, and events in the checkered history of the vessel that's done everything from making the Kessel Run "in less than twelve parsecs" to helping topple an evil empire. From the moment the Falcon broke loose from a Corellian assembly line like an untamed creature with a will of its own, it seemed destined to seek out trouble. It wasn't long before the feisty YT-1300 freighter went from shuttling cargo to smuggling contraband. But it's a fateful rendezvous on Coruscant, at the explosive height of the Republic/Separatist uprising, that launches a galaxywide cat-and-mouse game whose newest players are Han, Leia, Allana, and C-3PO. And they're not alone: Crime lords, galactic pirates, rogue politicians, and fortune hunters alike loom at every turn of the quest--each with his or her own desperate stake in the Millennium Falcon's most momentous mission. Through the years and across the stars, from the Rim worlds to unknown points beyond, the race will lead them all to a final standoff for a prize some will risk everything to find--and pay any cost to possess. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

**My Affair with the Falcon** James A. B. Mahaffey Jr.,2019-10-28 This book describes my on-again, off-again affair with a studio scale special effects filming model the Millennium Falcon(R). When I first saw it on the big screen in 1977 in a new movie called Star Wars (R). I was completely captivated by it. Over the next 42 years I would draw it, draft it, build models of it and when possible purchase collectibles. This is my story of discovery and my pursuit to have a perfect replica of this now iconic space ship of the future.I include photos of a T-shirt that I had made over the holidays in 1977, with a bow view sketch of the Millennium Falcon® on the front and a stern view sketch on the back of the shirt. I then present my process for drafting and producing, what might have been a bestselling old school blue print poster of the Falcon in 1983 with an interesting back story if I had only had the time and money to obtain licenses and then market it. Who knows my back story for this poster might have impacted the Star Wars (R) Universe... I then have photos and descriptions of my efforts to make one accurate Falcon model by using two plastic model kits after I completed my blue print poster project in August of 1983. I have comparison sketches and descriptions of my observations of the differences between the 5 foot studio scale special effects model made for the first movie and the second 32 inch studio scale model made for the second movie.I also include scale dimensions for a full size Falcon based on measurements of a well-designed scale model using the current accepted length of the vehicle.The print version of this book has 150 pages that contain: 53 color plates, 17 color diagrams, 3 color comparison sketches, 1 color graph, 2 black and white plates and 2 tables. The Appendix also contains an additional 18 color plates, 2 black and white plates and 12 black and white drawings.Qi PressFirst Printing November 2019

Though Han Solo has thrilled Star Wars fans for decades, the notorious wisecracking scoundrel was chasing adventure and dodging trouble long before he walked into the cantina at Mos Eisley spaceport. Young Han dreams of someday soaring into space at the helm of his own starship and leaving his home, the gritty industrial planet Corellia, far behind. But as long as he's trapped in a life of poverty and crime-and under the thumb of the sinister Lady Proxima and her brutal street gang-reaching the distant stars seems impossible. When Han tries to escape with his girlfriend and partner-in-crime, Qi'ra, he makes it out-but she doesn't. Desperate for a way to find his own offworld vessel and free her, Han enlists in the Imperial Navy-the last place for a rebellious loner who doesn't play well with others. When the Empire clips his wings, Han goes rogue and plunges into the shady world of smugglers, gamblers, and con artists. There he meets the charming and cunning high roller Lando Calrissian, makes an unlikely friend in a cantankerous Wookiee called Chewbacca, and first lays eyes on the Millennium Falcon. To snag his piece of the outlaw pie, Han joins a crew of pirates to pull off a risky heist. The stakes are high, the danger is great, and the odds are slim. But never tell Han Solo the odds.

**Whatever Happened to Pudding Pops?** Gael Fashingbauer Cooper, Brian Bellmont, 2011-06-07 If you owe a couple cavities to Marathon candy bars, learned your adverbs from Schoolhouse Rock!, and can still imitate the slo-mo bionic running sound of The Six Million Dollar Man, this book is for you. Whatever Happened to Pudding Pops? takes you back in time to the tastes, smells, and sounds of childhood in the '70s and '80s, when the Mystery Date board game didn't seem sexist, and exploding Pop Rocks was the epitome of candy science. But what happened to the toys, tastes, and trends of our youth? Some vanished totally, like Freakies cereal. Some stayed around, but faded from the spotlight, like Sea-Monkeys and Shrinky Dinks. Some were yanked from the market, revised, and reintroduced...but you'll have to read the book to find out which ones. So flip up the collar of that polo shirt and revisit with us the glory and the shame of those goofy decades only a native could love.
