Kant and Milton Sanford Budick, 2010-04 Kant and Milton brings to bear new evidence and long-neglected materials to show the importance of Kant's encounter with Milton's poetry to the formation of Kant's moral and aesthetic thought. Sanford Budick reveals the relation between a poetic vision and a philosophy that theorized what that poetry was doing. As Plato and Aristotle contemplate Homer, so Kant contemplates Milton. In all these cases philosophy and poetry allow us to better understand each other. Milton gave voice to the transformation of human understanding effected by the Protestant Revolt, making poetry of the idea that human reason is created self-sufficient. Kant turned that religiously inflected poetry into the richest modern philosophy. Milton's bold self-reliance is Kant's as well. Using lectures of Kant that have been published only in the past decade, Budick develops an account of Kant based on his lifelong absorption in the poetry of Milton, especially *Paradise Lost*. By bringing to bear the immense power of his reflections on aesthetic and moral form, Kant produced one of the most penetrating interpretations of Milton's achievement that has ever been offered and, at the same time, reached new peaks in the development of aesthetics and moral reason.

How Milton Works Stanley Eugene Fish, 2001 Stanley Fish's *Surprised by Sin*, first published in 1967, set a new standard for Milton criticism and established its author as one of the world's preeminent Milton scholars. The lifelong engagement begun in that work culminates in this book, the magnum opus of a formidable critic and the definitive statement on Milton for our time. How Milton works from the inside out is the foremost concern of Fish's book, which explores the radical effect of Milton's theological convictions on his poetry and prose. For Milton the value of a poem or of any other production derives from the inner worth of its author and not from any external measure of excellence or heroism. Milton's aesthetic, says Fish, is an aesthetic of testimony: every action, whether verbal or physical, is or should be the action of holding fast to a single saving commitment against the allure of plot, narrative, representation, signs, drama--anything that might be construed as an illegitimate supplement to divine truth. Much of the energy of Milton's writing, according to Fish, comes from the effort to maintain his faith against these temptations, temptations which in any other aesthetic would be seen as the very essence of poetic value. Encountering the great poet on his own terms, engaging his equally distinguished admirers and detractors, this book moves a 300-year debate about the significance of Milton's verse to a new level.
