Women and Men Joseph McElroy,2023-01-17 Beginning in childbirth and entered like a multiple dwelling in motion, Women and Men embraces and anatomizes the 1970s in New York - from experiments in the chaotic relations between the sexes to the flux of the city itself. Yet through an intricate overlay of scenes, voices, fact, and myth, this expanding fiction finds its way also across continents and into earlier and future times and indeed the Earth, to reveal connections between the most disparate lives and systems of feeling and power. At its breathing heart, it plots the fuguelike and fieldlike densities of late-twentieth-century life. McElroy rests a global vision on two people, apartment-house neighbors who never quite meet. Except, that is, in the population of others whose histories cross theirs believers and skeptics; lovers, friends, and hermits; children, parents, grandparents, avatars, and, apparently, angels. For Women and Men shows how the families through which we pass let one person's experience belong to that of many, so that we throw light on each other as if these kinships were refracted lives so real as to be reincarnate. A mirror of manners, the book is also a meditation on the

languages, rich, ludicrous, exact, and also American, in which we try to grasp the world we're in. Along the kindred axes of separation and intimacy Women and Men extends the great line of twentieth-century innovative fiction.

Wild Beauty Ntozake Shange,2017-11-14 NAACP Image Award Finalist for Outstanding Literary Work From the poet, novelist, and cultural icon behind the award-winning and extraordinary Broadway play, for colored girls who have considered suicide/when the rainbow is enuf, comes "a kaleidoscopic journey through black womanhood" (Publishers Weekly, starred review) and a moving bilingual collection of new and beloved poems. In this stirring collection of more than sixty original and selected poems in both English and Spanish, Ntozake Shange shares her utterly unique, unapologetic, and deeply emotional writing that has made her one of the most iconic literary figures of our time. With a clear, raw, and affecting voice, Shange draws from her experience as a feminist black woman in American to craft groundbreaking poetry about pain, beauty, and color. In the bestselling tradition of Rupi Kaur's Milk and Honey, Wild Beauty is more than a poetry collection; it is an exquisite call to action for a new generation of women, people of color, feminists, and activists to follow in the author's footsteps in the pursuit of equality and understanding. Evaluation of Earthquake Damaged Concrete and Masonry Wall Buildings Federal Emergency Agency,2013-04-02 Following the two damaging California earthquakes in 1989 (Loma Prieta) and 1994 (Northridge), many concrete wall and masonry wall buildings were repaired using federal disaster assistance funding. The repairs were based on inconsistent criteria, giving rise to controversy regarding criteria for the repair of cracked concrete and masonry wall buildings. To help resolve this controversy, the Federal Emergency Management Agency (FEMA) initiated a project on evaluation and repair of earthquake damaged concrete and masonry wall buildings in 1996. The ATC-43 project addresses the investigation and evaluation of

earthquake damage and discusses policy issues related to the repair and upgrade of earthquake damaged buildings. The project deals with buildings whose primary lateral-force-resisting systems consist of concrete or masonry bearing walls with flexible or rigid diaphragms, or whose vertical-load-bearing systems consist of concrete or steel frames with concrete or masonry infill panels. The intended audience is design engineers, building owners, building regulatory officials, and government agencies. The project results are reported in three documents. The FEMA 306 report, Evaluation of Earthquake Damaged Concrete and Masonry Wall Buildings, Basic Procedures Manual, provides guidance on evaluating damage and analyzing future performance. Included in the document are component damage classification guides, and test and inspection guides. FEMA 307, Evaluation of Earthquake Damaged Concrete and Masonry Wall Buildings, Technical Resources, contains supplemental information including results from a theoretical analysis of the effects of prior damage on single-degree-of-freedom mathematical models, additional background information on the component guides, and an example of the application of the basic procedures. FEMA 308, The Repair of Earthquake Damaged Concrete and Masonry Wall Buildings, discusses the policy issues pertaining to the repair of earthquake damaged buildings and illustrates how the procedures developed for the project can be used to provide a technically sound basis for policy decisions. It also provides guidance for the repair of damaged components.

Selected by Extraterrestrials William Mills Tompkins,2015-12-09 Bill Tompkins was embedded in the world of secrecy as a teenager, when the Navy took his personal ship models out of a Hollywood department store because they showed the classified locations of the radars and gun emplacements. He was personally present at the Battle of L.A. when a thousand rounds of ammo were fired at UFOs, and one of the Nordic craft may have selected him to be their rep in the evolving aerospace race. This book is a partial autobiography about his life to the beginning of the 1970s including some of his early work for TRW. Selected by the Navy prior to completing high school to be authorized for research work, he regularly visited classified Naval facilities during WWII until he was discharged in 1946. After working at North American Aviation and Northrop, he was hired by Douglas Aircraft Company in 1950, and when they found out about his involvement in classified work, he was given a job to create design solutions as a draftsman with a peripheral assignment to work in a think tank. This work was partly controlled by the Navy personnel who used to work for James Forrestal, who was allegedly assassinated because he was going to publicly reveal what he knew about UFOs. Bill Tompkins was asked to conceive sketches of mile-long Naval interplanetary craft designs. Later, as he became involved in the conventional aspects of the Saturn Program that later became the Apollo launch

vehicle, his insight to system engineering resulted in his offering some critical suggestions personally to Dr. Wernher von Braun about ensuring more reliable checkout using the missiles in their vertical position and also some very efficient launch control concepts adopted by both NASA and the Air Force. This story is peppered with very personal interactions with his co-workers and secretaries, some of whom the author believes to be Nordic aliens helping the good guys here on Earth. Towards the end of this volume of his autobiography, he sketches what he personally saw on TV when Armstrong was landing on the moon. Born in May 1923 but passing in October 2017, Bill Tompkins was one of the few survivors of the big war, married to the same girl Mary, and was willing to tell his story about what he really did during his aerospace life in the 40s, 50s and 60s that relate to aliens, NASA and secrets that now can be told. This recent printing adds captions to the figures, making them self-explanatory, and includes an index. Selected by Extraterrestrials, Volume 2 is now available and includes Bill Tompkins later and other memories beyond the scope of this volume.
