🔍 Marine Physiology Down East: The Story of the Mt. Desert Island Biological Laboratory David H. Evans,2015-08-13 This volume offers a comprehensive history of the Mount Desert Island Biological Laboratory (MDIBL), one of the major marine laboratories in the United States and a leader in using marine organisms to study fundamental physiological concepts. Beginning with its founding as the Harpswell Laboratory of Tufts University in 1898, David H. Evans follows its evolution from a teaching facility to a research center for distinguished renal and epithelial physiologists. He also describes how it became the site of major advances in cytokinesis, regeneration, cardiac and vascular physiology, hepatic physiology, endocrinology and toxicology, as well as studies of the comparative physiology of marine organisms. Fundamental physiological concepts in the context of the discoveries made at the MDIBL are explained and the social and administrative history of this renowned facility is described.

🔍 The Fragrance of Sweet-Grass Elizabeth Rollins Epperly,2014-05-01 When it originally appeared, Elizabeth Rollins Epperly’s The Fragrance of Sweet-Grass was one of the first challenges to the idea that L.M. Montgomery’s books were unworthy of serious study. Examining all of Montgomery’s fiction, Epperly argues that Montgomery was much more than a master of the romance genre and that, through her use of literary allusions, repetitions, irony, and comic inversions, she deftly manipulated the normal conventions of romance novels. Focusing on Montgomery’s memorable heroines, from Anne Shirley to Emily Byrd Starr, Valancy Stirling, and Pat Gardiner, Epperly demonstrates that Montgomery deserves a place in the literary canon not just as the creator of Anne of Green Gables but as an artist in her chosen profession. Since its publication more than twenty years ago, The Fragrance of Sweet-Grass has become a favourite of scholars, writers, and Montgomery fans. This new edition adds a preface in which Epperly discusses the book’s contribution to the ongoing research on the life and writing of L.M. Montgomery, reflects on how Montgomery studies have flourished over the past two decades, and suggests new ways to approach and explore the Canadian writer’s work.

🔍 Weekly Weather and Crop Bulletin ,1974 Final yearly issue includes index of special articles. December through March issues contain reports of snow and ice conditions.

🔍 Irish Writers and the Thirties Katrina Goldstone,2020-12-29 This original study focusing on four Irish writers – Leslie Daiken, Charles Donnelly, Ewart Milne and Michael Sayers – retrieves a hitherto neglected episode of Thirties literary history which highlights the local and global aspects of Popular Front cultural movements. From interwar London to the Spanish Civil War and the USSR, the book examines the lives and work of Irish writers through their writings, their witness texts and their political activism. The relationships of these writers to George Orwell, Samuel Beckett, T.S. Eliot, Nancy Cunard, William Carlos Williams and other figures of cultural significance within the interwar period sheds new light on the internationalist aspects of a leftist cultural history. The book also explores how Irish literary women on the left defied marginalization. The impetus of the book is not merely to perform an act of literary salvage but to find new ways of re-imagining what might be said to constitute Irish literature mid-twentieth century; and to illustrate how Irish writers played a role in a transforming political moment of the twentieth century. It will be of interest to scholars and students of cultural history and literature, Irish diaspora studies, Jewish studies, and the social and literary history of the Thirties.
