He reveals why momentum was the real driver of the global financial crisis and how this mysterious force is also at work in spheres as diverse as the media, politics and the environment.This provocative examination of the force that is reshaping our world is essential reading for anyone who wants to understand the dangers of 'going with the flow' and harness the power of positive momentum.

The Book of Master Mo Mo Zi,2013-11-07 A key work of ancient Chinese philosophy is brought back to life in Ian Johnston's compelling and definitive translation, new to Penguin Classics. Very little is known about Master Mo, or the school he founded. However, the book containing his philosophical ideas has survived centuries of neglect and is today recognised as a fundamental work of ancient Chinese philosophy. The book contains sections explaining the ten key doctrines of Mohism; lively dialogues between Master Mo and his followers; discussion of ancient warfare; and an extraordinary series of chapters that include the first examples of logic, dialectics and epistemology in Chinese philosophy. The ideas discussed in The Book of Master Mo - ethics, anti-imperialism, and a political hierarchy based on merit - remain as relevant as ever, and the work is vital to understanding ancient Chinese philosophy. Translator Ian Johnston has an MA in Latin, a PhD in Greek and a PhD in Chinese, and was Associate Professor of Neurosurgery at Sydney University until his retirement. He has published translations of Galen's medical writings, early Chinese poetry (Singing of Scented Grass and Waiting for the Owl), and early Chinese philosophical works (the Mozi and - with Wang Ping - the Daxue and Zhongyong). In 2011 he was awarded the NSW Premier's Prize and the PEN medallion for translation. Unlike previous translations, this version includes the complete text. It also includes an introduction and explanatory end notes. 'A landmark endeavour' Asia Times 'A magnificent and valuable achievement' Journal of Chinese Studies 'Eminently readable and at the same time remarkably accurate...Johnston's work will be the standard for a long time' China Review International 'Compelling and engaging reading...while at the same time preserving the diction and rhetorical style of the original Chinese' New Zealand Journal of Asian Studies

Scary Smart Mo Gawdat,2022-12-08 A Sunday Times Business Book of the Year. Scary Smart will teach you how to navigate the scary and inevitable intrusion of Artificial Intelligence, with an accessible blueprint for creating a harmonious future alongside AI. From Mo Gawdat, the former Chief Business Officer at Google [X] and bestselling author of Solve for Happy. Technology is putting our humanity at risk to an unprecedented degree. This book is not for engineers who write the code or the policy makers who claim they can regulate it. This is a book for you. Because, believe it or not, you are the only one that can fix it. - Mo Gawdat Artificial intelligence is smarter than humans. It can process information at lightning speed and remain focused on specific tasks without distraction. AI can see into the future, predict outcomes and even use sensors to see around physical and virtual corners. So why does AI frequently get it so wrong and cause harm? The answer is us: the human beings who write the code and teach AI to mimic our behaviour. Scary Smart explains how to fix the current trajectory now, to make sure that the AI of the future can preserve our species. This book offers a blueprint, pointing the way to what we can do to safeguard ourselves, those we love, and the planet itself. 'No one ever regrets reading anything Mo Gawdat has written.' - Emma Gannon, author of The Multi-Hyphen Method and host of the podcast Ctrl Alt Delete
