**#ChurchToo** Emily Joy Allison,2021-03-09 When Emily Joy Allison outed her abuser on Twitter, she launched #ChurchToo, a movement to expose the culture of sexual abuse and assault utterly rampant in Christian churches in America. Not a single denomination is unaffected. And the reasons are somewhat different than those you might find

in the #MeToo stories coming out of Hollywood or Washington. While patriarchy and misogyny are problems everywhere, they take on a particularly pernicious form in Christian churches where those with power have been insisting, since many decades before #MeToo, that this sexually dysfunctional environment is, in fact, exactly how God wants it to be. #ChurchToo turns over the rocks of the church's sexual dysfunction, revealing just what makes sexualized violence in religious contexts both ubiquitous and uniquely traumatizing. It also lays the groundwork for not one but many paths of healing from a religious culture of sexual shame, secrecy, and control, and for survivors of abuse to live full, free, healthy lives.

**A Return to Modesty** Wendy Shalit, 2014-05-20 Updated with a new introduction, this fifteenth anniversary edition of *A Return to Modesty* reignites Wendy Shalit's controversial claim that we have lost our respect for an essential virtue: modesty. When *A Return to Modesty* was first published in 1999, its argument launched a worldwide discussion about the possibility of innocence and romantic idealism. Wendy Shalit was the first to systematically critique the hook-up scene and outline the harms of making sexuality so public. Today, with social media increasingly blurring the line between public and private life, and with child exploitation on the rise, the concept of modesty is more relevant than ever. Updated with a new preface that addresses the unique problems facing society now, *A Return to Modesty* shows why the lost virtue of modesty is not a hang-up that we should set out to cure, but rather a wonderful instinct to be celebrated. *A Return to Modesty* is a deeply personal account as well as a fascinating intellectual exploration into everything from seventeenth-century manners to the 1948 tune *Baby, It's Cold Outside*. Beholden neither to social conservatives nor to feminists, Shalit reminds us that modesty is not prudery, but a natural instinct—and one that may be able to save us from ourselves.

The Modesty Wrap Barry Webster,2002

**The Beauty Suit** Lauren Shields,2018-05-15 A young feminist finds herself questioning why "hotness" has become

necessary for female empowerment—and looks for alternatives. Looking good feels good. But in a society where looking good is posited as being strong, while negotiating for better pay is statistically proven to damage our careers, is it fair to say that wicked eyeliner, weekly blowouts, and a polished Instagram feed are the keys to our liberation? If so—if “hot” really is a good enough synonym for “empowered”—why do so many of us feel, deep in our bones, that the sexy-as-strong model is a distraction? Is “pretty” still the closest to power women can get? Why is looking fierce an acceptable substitute for living in a world where women are safe? Inspired in seminary by American Muslimahs who wear the hijab for feminist reasons, Lauren Shields took off what she calls the Beauty Suit—the “done” hair, the tasteful and carefully applied makeup, the tight clothes and foot-binding shoes—for nine months. She’d really only wanted to do an experiment. Instead, her life—especially her views on what constitutes “liberation”—changed forever. Rooted in feminist theory and religious history, and guided by a snappy personal narrative, *The Beauty Suit* unpacks modern American womanhood: a landscape where the female body is still so often the battleground for male ideals, and where we struggle with our rights as human beings to define and exercise our freedom.

**Challenging Gender Stereotypes in the Early Years** Susie Heywood, Barbara Adzajlic, 2022-09-14 What does gender equity mean for early years practitioners? What are early years settings already doing to promote gender equality, and why is this so important? How can we provide children with a solid basis from which they can grow into people who are not limited by society’s expectations of their gender? This is a manual for every early years practitioner who wishes to expand their knowledge and improve their practice around gender stereotyping in the early years. Drawing from the authors’ experience developing a public health programme tackling gender stereotypes, it explores the reasons why gender inequality is still an issue, identifies the ways it is perpetuated and provides a framework and practical tools to drive change. The framework includes an audit process to celebrate areas of success and to identify areas for development, alongside a host of suggestions on how to navigate tricky situations in creative, respectful and effective ways. With the voices and experiences of experts and practitioners woven throughout, alongside key reflections and scenarios to critically engage with, *Challenging Gender Stereotypes in the Early Years* challenges readers to consider their own practice, drive staff awareness and make a difference to their setting.

*Anthropometric Survey (ANSUR) II Pilot Study* Steve Paquette, 2009 Virtually every Army materiel system in use was designed and/or sized using a database of anthropometric information that is 20 years old. It was based on the Army Anthropometric Survey (ANSUR), which was conducted in 1988 on only Active Duty Soldiers. However, more than one-half of today's fighting forces are National Guard and Reserve component troops. A pilot study (ANSUR II) was recently undertaken to (1) assess anthropometric change since 1988 within the Active Army; (2) to assess anthropometric differences among Army Active, Reserve, and National Guard components; and (3) to provide guidance on whether a further, more comprehensive survey and an update of the current ANSUR database are needed. This report provides measurement methods and summary statistics for 25 body measurements made on 2811 male and 651

female soldiers in the pilot study. The anthropometric change since 1988 and tests of component differences are presented in a separate technical report. The subjects were weighted by component, sex, age, and racial/ethnic group to match Total Army demographics as of March 2007 in order to provide interim design guidance on Total Army body size distributions as of March 2007. --- (report documentation page).

**Encyclopedia of French Film Directors** Philippe Rège,2009-12-11 Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi\_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli\_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi\_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age\_Jean Renoir and RenZ Clair\_to French New Wave artists such as Fran\_ois Truffaut and Jean-Luc Godard.
