Featuring 365 days of recipes, crafts, gardening tips, remedies, and more, this special volume is a personal calendar of the legends and lore of herbs and also features brand-new essays from the author, clues from China's mysteries, and some special contributions by the irrepressible members of the Myra Merryweather Herb Guild, Pecan Springs's oldest civic organization.

Dog Flowers Danielle Geller,2022-04-12 A daughter returns home to the Navajo reservation to retrace her mother's life in a memoir that is both a narrative and an archive of one family's troubled history. "A candid and achingly fractured memoir of [Geller's] mother, her family, her Navajo heritage and her own journey to self-discovery and acceptance."—Ms. SHORTLISTED FOR: The Hubert Evans Non-Fiction Prize, The Jim Deva Prize for Writing That Provokes • ONE OF THE BEST BOOKS OF THE YEAR: Esquire, She Reads When Danielle Geller's mother dies of alcohol withdrawal during an attempt to get sober, Geller returns to Florida and finds her mother's life packed into eight suitcases. Most were filled with clothes, except for the last one, which contained diaries, photos, and letters, a few undeveloped disposable cameras, dried sage, jewelry, and the bandana her mother wore on days she skipped a hair wash. Geller, an archivist and a writer, uses these pieces of her mother's life to try and understand her mother's relationship to home, and their shared need to leave it. Geller embarks on a journey where she confronts her family's history and the decisions that she herself had been forced to make while growing up, a journey that will end at her mother's home: the Navajo reservation. Dog Flowers is an arresting, photo-lingual memoir that masterfully weaves together images and text to examine mothers and mothering, sisters and caretaking, and colonized bodies. Exploring loss and inheritance, beauty and balance, Danielle Geller pays homage to our pasts, traditions, and heritage, to the families we are given and the families we choose.

American Women Short Story Writers Julie Brown,2014-05-01 This collection of original and classic essays examines the contributions that female authors have made to the short story. The introductory chapter discusses why genre critics have ignored works by women and why feminist scholars have ignored the short story genre. Subsequent chapters discuss early stories by such authors as Lydia Maria Child and Rose Terry Cooke. Others are devoted to the influences (race, class, sexual orientation, education) that have shaped women's short fiction through the years. Women's special stylistic, formal and thematic concerns are also discussed in this study. The final essay addresses the ways our contemporary creative-writing classes are stifling the voices of emerging young female authors. The collection includes an extensive five-part bibliography.

The Psychological Science of Money Erik Bijleveld,Henk Aarts,2014-07-10 Money. The root of all evil? Arguably. Essential to our lives? Certainly. A main driver of human thought, emotion, and action? Absolutely--and psychology and its related fields are getting closer to understanding its complex role in human behavior and in society. The Psychological Science of Money brings together classic and current findings on the myriad ways money affects brain, mind, and behavior to satisfy not only our needs for material gain, but also for autonomy and self-worth. Leading experts trace the links between early concepts of value and modern symbolic meanings of wealth, in addition to identifying the areas of the human brain that together act as its financial center. This cross-disciplinary analysis helps clarify the neuroscience behind pathological gambling, the critical role of time in financial decisions, and the impact of money on diverse personal activities and interpersonal relationships. Included in the coverage: Materiality, symbol, and complexity in the anthropology of money. The (relative and absolute) subjective value of money. Conscious and unconscious influences of money: two sides of the same coin? A life-course approach to dealing with monetary gains and losses Motivation and cognitive control: beyond monetary incentives. An integrative perspective on the science of getting paid. The psychological science of spending. The unique role of money in society makes The Psychological Science of Money a singularly fascinating resource with a wide audience among social psychologists, industrial and organizational psychologists, economists, sociologists, anthropologists, and public policymakers.

The Little Red Chairs Edna O'Brien,2016-03-29 A fiercely beautiful novel about one woman's struggle to reclaim a life shattered by betrayal, from one of the greatest storytellers of our time One night, in the dead of winter, a mysterious stranger arrives in the small Irish town of Cloonoila. Broodingly handsome, worldly, and charismatic, Dr. Vladimir Dragan is a poet, a self-proclaimed holistic healer, and a welcome disruption to the monotony of village life. Before long, the beautiful black-haired Fidelma McBride falls under his spell and, defying the shackles of wedlock and convention, turns to him to cure her of her deepest pains. Then, one morning, the illusion is abruptly shattered. While en route to pay tribute at Yeats's grave, Dr. Vlad is arrested and revealed to be a notorious war criminal and mass murderer. The Cloonoila community is devastated by this

revelation, and no one more than Fidelma, who is made to pay for her deviance and desire. In disgrace and utterly alone, she embarks on a journey that will bring both profound hardship and, ultimately, the prospect of redemption. Moving from Ireland to London and then to The Hague, THE LITTLE RED CHAIRS is Edna O'Brien's first novel in ten years -- a vivid and unflinching exploration of humanity's capacity for evil and artifice as well as the bravest kind of love.
