Moose! Robert N. Munsch,2022-06-07 There's a moose in the backyard! Luke's mom and dad want it to go away, but the moose has other plans! Luke gets up early one Saturday morning and finds a moose in the backyard. He wakes up his dad, and then his mom, and each declares that moose never come on the farm -- only to be surprised by the moose itself! Mom tries to shoo it away with a broom -- but the moose eats it. Dad tries to scare it away with a hose -- but the moose takes a nice bath. Luke feeds the moose carrots and decides to keep it in his treehouse, until his sister comes along, with a surprising solution to this unusual problem! Moose! was inspired by a young boy from Cape Breton Island.

Moose Ann Squire,2007 Describes the physical characteristics, habits, and life cycle of the moose.

In the Company of Moose Victor Van Ballenberghe,2004 At the western end of the Denali Park road, there are moose living on the tundra in September. . .

. This area is special mainly because the moose live in the shadow of Mount McKinley, the tallest peak in North America. From the north side it is awe inspiring, rising up from the lowlands, snow covered yearlong for two-thirds of its height. In September on clear, blue-sky days, when the tundra is red and Mount McKinley forms the backdrop, this moose country has no equal. -- Victor Van Ballenberghe Moose, the giant deer of the northern forests of Europe, Asia, and North America, can grow up to seven feet tall at the shoulder and exceed sixteen hundred pounds. Author and wildlife biologist Victor Van Ballenberghe has studied wild moose in the field for thirty-five years. The author gives insights into the species, their habitat, and predators and shares intimate stories about the moose he has studied for extensive periods. The beauty of these creatures, their strange grace and gentle nature, and their personalities are captured in lively text and dramatic full-color photos.

Too Many Moose! Lisa M. Bakos, 2016 When Martha gets an unusual pet, she's delighted by all of the fun things they do together. If one moose is this marvelous, then more moose must be even better! Pretty soon, Martha has more moose than she can handle--

This Moose Belongs to Me Oliver Jeffers, 2012-11-13 From the illustrator of the #1 smash hit *The Day the Crayons Quit* comes the age-old tale of a boy and his moose . . . Wilfred is a boy with rules. He lives a very orderly life. It's fortunate, then, that he has a pet who abides by rules, such as not

making noise while Wilfred educates him on his record collection. There is, however, one rule that Wilfred's pet has difficulty following: Going whichever way Wilfred wants to go. Perhaps this is because Wilfred's pet doesn't quite realize that he belongs to anyone. A moose can be obstinate in such ways. Fortunately, the two manage to work out a compromise. Let's just say it involves apples. Oliver Jeffers, the bestselling creator of *Stuck* and *The Incredible Book Eating Boy*, delivers another deceptively simple book sure to make kids giggle.

Moose Annie Hemstock, 2012 Simple text and full-color photographs provide a brief introduction to moose--Provided by publisher.

Do Moose Ever . . . ? Fran Hodgkins, 2022-10-01 Moose sure are funny looking. With their rangy, gangly bodies, long legs, and confused look on their face, they are the most distinct of the deer species. Just looking at a moose will make you smile. This entertaining and informative book answers the kinds of questions kids always ask, such as: What do moose eat? Are moose dangerous? Can moose be tamed? And What's with those silly antlers, anyway?

A Moose's History of North America Walter S. Griggs, Frances Pitchford Griggs, 2009-11-02 From the role of the moose in the creation of North America to its current status as an iconic animal, Frances and Walter Griggs show how the moose influenced the growth and development of North America--Page 4 of cover.

The Useful Moose Fiona Robinson,2016-02-22 What use is a moose? A young girl and her family find out Molly loves moose—not the dessert, the animal. Imagine her surprise when on a family trip to Alaska she can't find any because they've all gone on vacation—to her home city! When Molly returns, she befriends a forlorn moose threesome exhausted from their urban adventures and she and her parents take the moose in. Once rested, the moose prove to be invaluable: using their antlers as drying racks, pasta servers, clotheslines, and much more. Eventually the call of the wild summons them back to their real home. Will the domestic dynamos ever return? Or will Molly be mooseless? Exciting newcomer Fiona Robinson brings a terrific sense of humor and great imagination to this perfect story-hour book, with lots of funny visual jokes.
