This book tells the Vincent story from 1946 until the present day, including the stories of those significant individuals who helped to make Vincents such legendary machines.

**The Harley-Davidson Story** Aaron Frank, 2018-11-20 The Harley-Davidson Story: Tales from the Archives is a fascinating, visually driven overview of the motor company's rich story, created in cooperation with the Harley-Davidson Museum. The story of Harley-Davidson is a classic American tale of spirit, invention, and the right idea at the right time. From its beginning in a small Milwaukee shed in 1903, William Harley and his cousins, the Davidson brothers, set in motion what would eventually become the world's most iconic motorcycle company. While other motorcycle companies rose and fell through the teens and 1920s, Harley went from strength to strength, whether introducing its first V-twin

motor or dominating race tracks across America. The Milwaukee Miracle even prospered during WWII, building war bikes for the armed forces. By the 1950s, they'd buried their last American-built competitor, Indian, and gained a hold over the US market that they maintain to this day. A remarkable story deserves a remarkable space to recount it. Such is the Harley-Davidson Museum in Milwaukee, which opened in 2009. Harley-Davidson partnered with Motorbooks to create this book relaying Harley-Davidson's story, as told through the museum's displays and archive assets.

**The Ducati Story - 6th Edition** Ian Falloon, 2018-09-04 The Ducati Story is brought right up to date in this new edition of Ian Falloon's authoritative book, covering the complete history of the marque. Initially under government control, Ducati went through several decades of ups and downs, characterised by dubious managerial decisions. Held together by the great engineer Fabio Taglioni, the father of desmodromic valve gear, Ducati produced some of the finest motorcycles of the 1950s, 1960s and 1970s: the Marianna, desmo 125 single, Mach 1, 750 and Pantah. Taglioni also instigated Ducati's return to racing, and victory in the 1972 Imola 200 was the turning point. Mike Hailwood rode the 900 Ducati to victory in the 1978 Isle of Man Formula One race and Tony Rutter took four World TT2 Championships. Cagiva purchased Ducati in 1985, bringing a new engineer, Massimo Bordi, and new designs - most famously the Desmoquattro. In various guises, this model dominated the World Superbike Championship during the 1990s, particularly in the hands of Carl Fogarty. Landmark models included the 916 and Monster, and, with the sale of Ducati to the Texas Pacific Group in 1996, the company continued to grow. The racing programme expanded to MotoGP and new model families were introduced. With control taken by the Italian company InvestIndustrial in 2006, Ducati embarked on the next era of development, Casey Stoner winning the MotoGP World Championship in 2007. Now under the Audi umbrella Ducati continues to thrive. This new edition includes a brand new chapter featuring all the models from 2012 up to 2018. Ian Falloon is one of the world's foremost motorcycle historians, with numerous books including The Ducati 750 Bible, Ducati 900 Bible and The Moto Guzzi Story. He has forty

years of experience with Ducati, and a collection of motorcycles that includes the 1973 Ducati 750 that he bought in 1976.

*Hodaka Motorcycles* Ken Smith, 2014 Hodaka motorcycles were some of the most creatively marketed and designed motorcycles in America. The bike of choice for the hip young racer, the street-savvy urbanite, or the 14-year-old boy's favorite poster, these machines had colorful logos, creative advertising and terrific names. The Combat Wombat, Road Toad, Dirt Squirt and the fantastic Super Rat are just a few of the models produced by Hodaka. More than 15 years in the making, this exhaustively-researched tome contains all the details about the machines as well as a treasure trove of photographs, advertisements, and graphics. Written by Ken Smith, the editor of VMX Magazine, and created with the help of Paul Stannard of Strictly Hodaka and many of the people who designed and sold Hodakas back in the day, this book is a captivating, colorful look at one of the wildest, most popular motorcycles of the 1960s and 1970s.

**Moto Guzzi** Greg Pullen, 2013-12-15 With the launch of the new California 1400 in 2013, and actor Ewan McGregor appointed brand ambassador, Moto Guzzi's owners Piaggio are proving their belief in the future and importance of Moto Guzzi. Moto Guzzi - The Complete Story charts the development of the stylish Guzzi bikes and the highs (and lows) of one of the oldest motorcycles marques still in existence. Topics covered include the origins of the Moto Guzzi factory at Madello del Lario - the oldest motorcycle factory in the world; the success at the Isle of Man TT and races worldwide; the development of the V-twin engine; the De Tomaso years and the introduction of the iconic Le Mans model.

The complete story of Moto Guzzi, from 1921 to the present day covers some very special motorcycles and some astonishing people who made it happen. Will be of great interest as a reference book to all motorbike enthusiasts and is superbly illustrated with 250 colour photographs.

**BSA** Greg Pullen,2020-09-01 BSA was once the world's most successful motorcycle company, manufacturing more machines than any other in the world by the mid-1950s. And yet, after winning the Queens Award to Industry for exports in 1967 and 1968, it collapsed into bankruptcy in 1973. This is an epic story of rise and fall, even by the precarious standards of the British motorcycle industry. With over 170 illustrations, this book recalls the founding of the company and its foray into bicycle and then motorcycle production. It describes the evolution of the various models of motorcycles including specification tables and discusses the diversification into cars, commercial vehicles and guns for Spitfires. It recounts the successes - two Maudes Trophies and numerous racing victories, and documents the fall from grace to bankruptcy and beyond.

**The Fine Art of the Motorcycle Engine** Dave Howe,Daniel Peirce,2008 Daniel Peirce examines the graphic nature of historic engines, using 64 photographs from his 'Up-N-Smoke' engine project. He also tells the story of the project and the years it took to take it from an inspired idea to a tangible reality.

**Legendary Motorcycles** Basem Wasef,2007-10-15 Motorcycles are mythic, far more than mere transportation, but some are in a class of their own, truly legendary machines. There are the Triumphs: James Dean's, Marlon Brando's in The Wild Ones, the one Steve McQueen took over the fence in The Great Escape. There are Evel Knievel's and Elvis's

Harleys, the Easy Rider Stars 'n' Stripes bike, and T. E. Lawrence's Brough Superior SS100; Von Dutch's Condor, Craig Vetter's Mystery Ship, and Mike Hailwood's Honda RC162. These are just some of the machines that have made motorcycle history, and that make this book a feast for the eyes and a fact-filled odyssey for the motorcycle aficionado. Illustrated with commissioned photographs and historical images, the book profiles the bikes--not just the models but the actual motorcycles--that have achieved legendary status in the last century. Their stories, told here in detail for the first time, make up the story of the motorcycle in American culture. See Motorbooks author Basem Wasef interviewed by Jay Leno on JayLenosGarage.com:

*Big Sid's Vincati* Matthew Biberman, 2009-04-30 Read Matthew Biberman's posts on the Penguin Blog. If you believe it is possible to fall in love with a motorcycle, you will love this book. -Jay Leno When Big Sid had a heart attack and gave up the will to live, his son Matthew Biberman panicked. Impulsively, Matthew promised his father that they would build a Vincati together. This fusion of two legendary motorcycles, the Vincent Black Shadow and the Ducati GT, a Vincati was considered near-impossible to build. But if anyone could do it, Matthew knew his father could. Big Sid was the mechanic to see about repairing Vincents for nearly sixty years. But now, Sid was old, busted up and broke. Matthew, despite sharing his dad's passion, had become a Shakespearean scholar. The two men hadn't spoken in years-but called a truce to attempt a shared dream. Zen and the Art of Motorcycle Maintenance meets Shop Class as Soulcraft, in this heartfelt memoir that shows how two very different men built a legendary motorcycle, and along the way,

discovered what it means to be father and son.

*The Moto Guzzi Story - 3rd Edition* Ian Falloon,2018-09-04 The Moto Guzzi Story is a story of survival. As one of Italy's oldest, and most legendary marques, Moto Guzzi had seen the height of success during the 1930s, and then the 1950s when they dominated 250 and 350cc Grand Prix racing. Their withdrawal from racing coincided with a period of stagnation until the company was sold to De Tomaso in 1973. During the 1970s the V7 Sport and Le Mans were at the forefront of the new superbike era, and later, with Dr John Wittner's help, embraced contemporary technology with the 1000cc Daytona. If one aspect characterises Moto Guzzi it is continuity. The great 500cc Falcone single ran from 1950 until 1976, and the V7, originally seeing the light of day in 1967, continued well into the 2010s. This continuity breeds loyalty, and Guzzi owners are a fiercely proud breed. Guzzis are not like other motorcycles, even Italian ones, and to qualify as a Guzzi owner requires a dedication and individuality that will be rewarded in a long term relationship. Other titles by Ian Falloon include Moto Guzzi Sport Bible, Moto Guzzi Big-Twins Essential Buyers Guide, the Complete Book of Moto Guzzi, Honda Story, Kawasaki Story, BMW Story and The Ducati Story. He also has his own collection of motorbikes, including a 1973 Moto Guzzi V7 Sport.

**Motorbike Racing** Tony Norman,2005-12-15 This series takes readers into the realm of true adventure, from extreme sports to surviving in the wilderness, describing the equipment needed for each sport, and the skills required by those who dare.

**Never Say Never** Nick Harris,2019-05-23 'The unmistakable voice of Moto GP' - Valentino Rossi As 'The Voice' of motorcycle racing for forty years, commentator Nick

Harris became the biggest star not on two wheels in the paddock, and this is his mostly eye-witness, white-knuckle account of MotoGP's scorching seventy-year history. The story starts on the Isle of Man in 1949, when Geoff Duke, with his slicked-back hair and one-piece black leathers, became the nation's hero, defying the odds and winning the most dangerous race in the world on a British-built Norton. Just over a decade later at Mallory Park, another British champion and one of the greatest riders of all time Mike Hailwood screamed past a young Nick Harris on his 250cc Honda, and a life-long passion was born. Harris has been at the centre of the sport for decades, getting to know the riders as individuals, seeing feuds unfold, champions made, careers and sometimes lives ended. We'll see the biggest podium stars up close, from Barry Sheene and Kenny Roberts to Valentino Rossi, and we'll meet the mechanics behind them, the manufacturers who poured millions into the teams, and the organisers who, in the early days, ruthlessly compromised rider safety for profits. The drama has often been as tense off the track as on it. This is the book the motorcycling world has been waiting for.

Feel Freddie Spencer, 2017-04-20 Feel is the story of how a small-time boy from humble beginnings in Louisiana rose to the pantheon of greats, to win the 500cc and 250cc GP Championship in the same year – an historic achievement over three decades ago which has never been repeated. Growing up at the time of the assassination of Malcolm X and Martin Luther King, Freddie judged by feel, not by colour. Blind to prejudice and discrimination, he formed dynamic connections with people and events, but only years later during his racing afterlife could Freddie come to understand the true power of the things he learned. Spencer is an articulate and compassionate guide as he describes the thrill and horror of racing in an era when death was a perennial threat. He recalls in pin-sharp detail the frenetic high-octane racing duels with the ‘King’ Kenny Roberts, but also describes a parallel internal journey as he struggled to make sense of it all. Driven by a search for the personal fulfilment that comes through finding your purpose, Freddie’s story is a universal one. In its message of hope, Feel transcends its genre to offer a story for everyone. Part thriller, part philosophical self-exploration, it is a remarkably insightful account of what it is like to have it all, but wonder why. “For the first time I will talk about the traumas of my childhood, the contrast between the leaf fire burns, the mistrust and discomfort and the peace and purpose I felt when riding my bike. I didn’t tell my parents about something that happened to me. Why? I felt ashamed, but when I rode I felt connected to everything and the pain in my hand and heart would go away. It gave me the feeling of hope”.

*Royal Enfield Bullet* Peter Henshaw, 2020-10-26 Despite being one of the most successful motorcycles of all time, the Royal Enfield Bullet has had a very chequered history. Its story begins in the 1930s and by the 1950s it was at the height of its popularity in post-War Britain. Then it became a stalwart of the Indian Army and manufacture transitioned from Britain to India. The near-collapse of the Royal Enfield marque in the 1990s almost meant the end of this classic motorbike, but with the involvement of the Eicher Group from 2001 onwards, the updated Bullet generated new interest and renewed its original commercial success, just like a phoenix rising from the ashes. With over 200 photographs, this book describes the origins of the Royal Enfield company and the pre-war Bullets from 1932 and the relaunch of the Bullet in 1949 with its radical swinging-arm frame. Derivative models such as the 350 and 500, as well as those for competition and road are covered as well as specials such as diesels, V-twins, Egli and big-bore Bullets. The development story behind the lean-burn, electric-start and 5-speed updates is discussed as well as the UCE - the all-new Bullet from 2008 and the Classic and its design story. Finally, the evolution beyond the Bullet is covered which includes the Continental GT and Himalayan 650 twins.
