*Futsal* Jamie Fahey, 2022-08-02 All the best players began with futsal! - Pelé If it wasn't for futsal, I wouldn't be the player I am today. -- Cristiano Ronaldo The untold story of soccer's little brother futsal, the grassroots game that is the secret behind the success of Pelé, Neymar, Messi, Ronaldo and the US star Christian Pulisic Futsal, a form of indoor soccer, is one of the fastest growing sports in the world. Jamie Fahey uncovers its global stories, tactical innovations and fascinating history and reveals its the secret behind the success of the likes of Brazilians Ronaldhino, Ronaldo Fenômeno and Romario and the kind of soccer revolutionized by Pep Guardiola at Barcelona – with Spain's Xavi Hernández and Andrés Iniesta – and at Manchester City, with Belgium's Kevin De Bruyne and Brazilian goalkeeper Ederson. As Brazilian superstar Neymar said: 'It has developed my technique, quick thinking and short moves...Futsal is fundamental to a footballer's life. It had a big importance in mine. When you're out there playing, you're forced to think fast and move even faster – if you lose a second, then the ball will be gone. Born in Uruguay almost a century ago but raised to an art form in Brazil, futsal is one of the fastest-growing sports on the planet: over 60 million people play this lightning-fast and tactically intricate variation of indoor soccer, which is also a bona fide professional sport in its own right. Despite its growing status, however, futsal's history remains largely unknown and untold. Jamie Fahey is a leading futsal expert and qualified youth coach. He spent his childhood playing endless soccer matches in the shattered urban landscape of 1980s Liverpool – on the same streets later graced by Wayne Rooney, the 'last true street footballer'. Yet when Fahey's own soccer career stalled, he realised he had been unwittingly learning the skills that pointed to his true passion. In *Futsal: The Indoor Game Revolutionizing World Soccer*, Fahey makes the case for futsal's transformative grassroots effect, both in the UK and abroad. He also tells the story of futsal's politics,

tactics and personalities – and in doing so, illuminates a hidden corner of sporting history.

Through this over 100-page publication, The Business Year invites you to explore how Colombia's business landscape, despite challenges, has demonstrated resilience through technology and the application of sustainability-focused tools. **Bloody Minded** Alex Dowsett, 2023-09-28 'Immensely readable and revealing' The Guardian 'A must read' Phil Liggett, MBE 'A story like no other in cycling' Ned Boulting **IMAGINE COMPETING IN THE WORLD'S MOST BRUTAL CYCLE RACES, KNOWING THAT A CRASH COULD BE FATAL** Alex Dowsett is one of Britain's greatest cyclists. He has ridden Grand Tours and Classics for elite teams including Sky and Movistar and broke the iconic World Hour Record – the ultimate time trial challenge. With humour, insight and honesty, Alex recounts his years as a pro-cyclist and the challenges he has faced in his struggle to reach the top. Alex has achieved all this despite being the only able-bodied elite sportsperson in the world with haemophilia A. He describes how the condition – in which falls can be fatal – both blighted his young sporting life, and boosted his determination to succeed. Every professional cyclist requires courage, but Alex takes fearlessness to another level in a sport where injury and suffering are a given. With an all-star cycling cast, including Bradley Wiggins, Chris Froome, Mark Cavendish and Lance Armstrong, this pulsating book lifts the lid on life in the peloton at the world's top level. From his highs – including Giro d'Italia stage victories – to his frustrations at the injustices he faced in the sport, Alex's memoir perfectly chronicles a career in which he was driven equally by love and rage. Combining Alex's personal triumphs with his unique take on being part of the golden age of British cycling, this is an unmissable tale of sporting endeavour. 'A fascinating insight into the mindset of an elite sportsman who overcame great odds to reach the very top' Simon Brotherton 'The humblest super-talent in the peloton, proving nice guys can win. A wonderful book'

Carlton Kirby 'An inspiration for anyone who wants to do whatever they're told they can't.' Michael Hutchinson 'Such an inspiring tale. Poignant and moving, and told with forthright honesty' Peter Cossins

**Digital Disruption in Marketing and Communications** Edoardo Magnotta, 2019-10-18 This book sets out the new frontier of marketing and communication through real case histories. Companies must rethink their traditional approaches to successfully face the upcoming challenges. They must learn how to innovate and change things when they go well. New emerging technologies such as AI and IoT are the new frontiers of the digital transformation that are radically changing the way consumers and companies communicate and engage with each other. Marketing makes a company a change-maker, while communications tell the story to engage customers and stakeholders. The book introduces brand positioning (to match brand values and consumers' attributes), and brand as human being (to raise trust, loyalty and engagement among customers and stakeholders), through Enel X and its partnership with Formula E in the e-mobility case, and the PMI case (its disruptive effect on tobacco industry). After a deep analysis of the disruptive effects on business models of the digital transformation, the book explores digital communications through the Pietro Coricelli case (how a well-designed digital strategy can raise reputation and sales). The book also provides a new holistic approach and identifies a future leader, through the H-FARM case (how to disrupt business models and education). The book is aimed at researchers, students and practitioners, and provides an improved understanding of marketing and communications, and the evolution of the strategic, organisational, and behavioural model.

**Streaming Video** Amanda D. Lotz, Ramon Lobato, 2023-05-02 An international team of experts explores how streaming services are disrupting traditional storytelling. The rise of streaming has

dramatically transformed how audiences consume media. Over the last decade, subscription video-on-demand (SVOD) services, including Netflix, Prime Video, and Disney+, have begun commissioning and financing their own original movies and TV shows, changing the way and the rate at which content is produced across the globe, from Mexico City to Mumbai. Streaming Video maps this international production boom and what it means for producers, audiences, and storytellers. Through eighteen richly textured case studies, ranging from original Korean dramas on Netflix to BluTV's experimental Turkish series, the book investigates how streaming services both disrupt and maintain storytelling traditions in specific national contexts. To what extent, and how, are streamers expanding norms of television and film storytelling in different parts of the world? Are streamers enabling the creation of content that would not otherwise exist? What are the implications for different viewers, in different countries, with different tastes? Together, the chapters critically assess the impacts of streaming on twenty-first century audiovisual storytelling and rethink established understandings of transnational screen flows.

Independent Women Claire Perkins, Michele Schreiber, 2021-06-07 *Independent Women: From Film to Television* explores the significance for feminism of the increasing representation of women on and behind the screen in television contexts around the world. *Independent* has functioned throughout film and television history as an important euphemism for feminist. This volume investigates how this connection plays out in a contemporary environment that popular feminist discourse is constructing as a golden age of television for women. The original essays in the volume offer insights into how post-network television is being valued as a new site of independent production for women. They also examine how these connotations of creative control influence perceptions of both female creators and their content as feminist. Together, they provide a compelling perspective on the feminist consequences of how independence and indie have intensified as cultural sensibilities that coincide and engage with the digital transformation of television during the first decades of the 21st century. The chapters in this book were originally published in a special issue of *Feminist Media Studies*.

**Latin American Film Industries** Tamara L. Falicov, 2019-06-27 Film production in Latin America is as old as cinema itself, but local film industries have always been in a triangulated relationship with

Hollywood and European cinema. This book situates Latin American film industries within the global circulation of film production, exhibition and distribution, charting the changes that the industries have undergone from the sound era to the present day. Focusing in particular on Argentina, Brazil and Mexico, Tamara Falicov examines commonalities among Latin American film industries, such as the challenges of procuring funding, competition from Hollywood, state funding battles, and the fickle nature of audiences, as well as censorship issues, competition from television, and the transnational nature of Latin American film. She addresses production, exhibition, and distribution contexts and financing and co-production with Europe and the United States, as well as the role of film festivals in funding and circulating films both within and outside of Latin America. Newer trends such as the revival of protectionist measures like the screen quota are framed in contrast to the U.S.'s push for trade policy liberalization and issues of universal concern such as film piracy, and new technologies and the role of television in helping and hindering Latin American cinema.
