The Storm Book Charlotte Zolotow,1989-01-15 It is a day in the country, and everthing is hot and still. Then the hazy sky begins to shift. Something is astir, something soundless.

Annie's Storm Beverly Hirsch,1996-01-01 Annie and her family prepare for a hurricane by stockpiling food, water, and ice, and by putting up storm shutters. After the storm, Annie is frightened by the devastation in her back yard, until she finds her friend Mrs. Mockingbird.

Rebozos Carmen Tafolla,Catalina Gárate de García,Héctor García Manzanedo,2012 Celebrating both the rebozo as a cultural icon of Mexico and the series of rebozo-inspired paintings by Mexican-Californian artist Catalina Gárate, this bilingual collection of poems gives voices of strength, endurance, joy, and sorrow to the women of Gárate's paintings. The rebozo is considered a physical manifestation of Mexican womanhood throughout every stage of life and can be used as a tool of daily labor: a sling to carry children, a shield from weather or from prying eyes, an heirloom, and even a shroud. Inspired by each painting, these poems, in both Spanish and English, are accompanied by a historical explanation of the role of the rebozo in Mexican history, art, and culture.

Hurricane Izzy - An OBX Story Greg Smrdel,2018-03-07 Hurricane Izzy starts innocently enough as a tropical wave off the coast of Africa. She quickly gains strength and speed as she fights her way across the Atlantic on a direct path to North Carolina's Outer Banks. It's also a story of man losing his dog and girl prior to the storm. The story keeps track of all 3 during the hurricane.

Tornadoes & Superstorms Gary Jeffrey,2007-01-15 Three stories in graphic novel format illustrate the power of tornadoes and storms by relating events that occurred on three separate occasions in 1925, 1991, and 1997.

Storm Surge John F. Banas,2021-06-16 All is not what it seems. A lot can happen to a person in

a Disaster Area... Brenda Meyers is having a bad day. Her daughter is trapped somewhere in New Orleans right before Hurricane Katrina strikes. Her increasingly estranged husband may be on the verge of losing yet another job. To top it all off, her cheating former fiancé is claiming to have evidence that his wife and Brenda's husband are having an affair. But nothing matters more than finding and rescuing her daughter. Brenda insists that a rescue mission can be made before the storm hits. Her husband isn't so keen on the idea – he's heard that the city may flood, making the rescue even harder. So, when her former fiancé offers his boat and his help, Brenda reluctantly accepts, knowing full well that her husband and Ex cannot get along. Her worries prove correct; while racing the raging storm, she uncovers a fiendish plot to murder her well insured husband - who happens to harbor secrets of his own. Will she be able to survive the ravages of Katrina, find her daughter, and prevent a professional hit without painting a target on her own back?

Storm of the Century Willie Drye, 2019-08-01 In 1934, hundreds of jobless World War I veterans were sent to the remote Florida Keys to build a highway from Miami to Key West. The Roosevelt Administration was making a genuine effort to help these down-and-out vets, many of whom suffered from what is known today as post-traumatic stress disorder. But the attempt to help them turned into a tragedy. The supervisors in charge of the veterans misunderstood the danger posed by hurricanes in the low-lying Florida Keys. In late August 1935, a small, stealthy tropical storm crossed the Bahamas, causing little damage. When it entered the Straits of Florida, however, it exploded into one of the most powerful hurricanes on record. But US Weather Bureau forecasters could only guess at its exact position, and their calculations were well off the mark. The hurricane that struck the Upper Florida Keys on the evening of September 2, 1935 is still the most powerful hurricane to make landfall in the US. Supervisors waited too long to call for an evacuation train from Miami to move the vets out of harm's way. The train was slammed by the storm surge soon after it reached Islamorada. Only the 160-ton locomotive was left upright on the tracks. About 400 veterans were left unprotected in flimsy work camps. Around 260 of them were killed. This is their story, with newly discovered photos and stories of some of the heroes of the Labor Day 1935 calamity.

Mediterranean Spain Steve Pickard, The second edition of this well-received title from the Royal Cruising Club Pilotage Foundation covers the entire Mediterranean mainland coast of Spain from Gibraltar to the French border. This is the only detailed pilot for the Spanish Mediterranean coast running up from Gibraltar to the border with France. It covers a varied cruising area that includes the mountain-backed Costas del and Sol and Blanca, the expansive lagoon of the Mar Menor, the low-

lying Ebro delta and the rugged Costa Brava. In between are several great cities including Malaga, Valencia, Tarragona and Barcelona, the Catalan capital. The volume opens with Gibraltar and La Línea. With Imray charts for the same coast, Mediterranean Spain provides all the data necessary for anyone based in Spain, transitting to and from areas further East or the Balearics, or just exploring this rich and varied coast and its hinterland. The coverage has been revised with the text updated, new plans added and other plan updates based on the latest information. This edition has been enhanced by the addition of over 100 aerial photographs showing coastline and harbour approaches.

The Great Storm Lisa Waller Rogers,2002 A teenage boy keeps a diary of events during the devastating hurricane which struck Galveston, Texas, in 1900, and of the rescue operations that followed.

The Book of Storms Ruth Hatfield,2014-11-06 A boy on a quest against the power of the storm Eleven-year-old Danny's parents are storm chasers - which sounds fun and exciting, and it is, so long as you aren't the son who has to wait behind at home. And one night, after a particularly fierce storm, Danny's parents don't come back. Stranger still, the old sycamore tree in Danny's yard seems to have been struck by lightning, and when he picks up a fragment of wood from the tree's heart, he finds he can hear voices ... including that of next door's rather uppity cat, Mitzy. The stick is a taro, a shard of lightning that bestows upon its bearer unnerving powers, including the ability to talk with plants and animals - and it is very valuable. So valuable, in fact, that it attracts the attention of a Sammael, an ancient figure of darkness and a buyer of souls. And he will do anything to get his hands on it ... And so begins a dangerous and daring quest. Danny, who is bewildered, alone and unaccustomed to acts of bravery, must confront his fears, find his parents and unravel the secrets of The Book of Storms ...
