The Big Storm Nancy Tafuri,2013-08-13 Ten adorable animals take cover from a storm in this eBook edition of Nancy Tafuri's counting book. As clouds amass overhead and rain starts to pour, ten little woodland animals hurry to find shelter. The text counts up as Bird, Mouse, Squirrel, Rabbit, Chipmunk, Woodchuck, Raccoon, Possum, and Red Fox all run for cover--then Skunk squeezes in and makes it 10! All night, they huddle together in the safety and warmth of the hollow, as the thunder claps and lightning flashes outside. In the morning, the storm has calmed, but the animals still hear the grumble of thunder in the distance. Imagine their surprise when they find the noise is coming from a bear! From 10 to 1, all of the animals scurry out of the bear's lair to find a big, beautiful day outside. The Big Storm was selected for Southeastern Connecticut's One Book, Every Child Project!

Fire Storm (Kaely Quinn Profiler Book #2) Nancy Mehl,2019-08-06 When FBI profiler Kaely Quinn's mother is diagnosed with cancer, Kaely takes time off work to go to Dark Water, Nebraska, to help her brother care for their mother. Upon her arrival, she learns of a series of fires in the small town, attributed by the fire chief to misuse of space heaters in the frigid winter. But Kaely is skeptical, and a search for a pattern in the locations of the fires bolsters her suspicions. After yet another blaze devastates a local family, Kaely is certain a serial arsonist is on the loose. Calling upon her partner from St. Louis, Noah Hunter, and her brother's firefighter neighbor who backs Kaely's suspicions, Kaely and her team begin an investigation that swiftly leads them down a twisted path. When the truth is finally revealed, Kaely finds herself confronting a madman who is determined his last heinous act will be her death.

Storm's Refuge Nancy M Bell, 2018-01-01 All Michelle wants for Christmas is peace of mind. The only thing bigger than the storm in her heart is the blizzard raging across the Alberta prairie outside her window. Finding an injured stray dog is the last thing she needs. Add to the mix the handsome new vet who is taking over her beloved Doc's practice and peace of mind is not in the picture.

Tossed to the Wind Maria T. Padilla, Nancy Rosado, 2020-03-02 Framed by the stories of Hurricane Maria evacuees, *Tossed to the Wind* is the gripping account of the wreckage, despair, and displacement left in the wake of one of the deadliest natural disasters on U.S. soil. It is also a story of hope and endurance as Puerto Ricans on the island shared what little they had and the diaspora in Florida offered refuge. Hurricane Maria hit Puerto Rico as a high-end Category 4, and the storm surge, flash flooding, and countless landslides created widespread devastation. One hundred percent of the island lost drinking water and electricity. More than 3 million U.S. citizens lived for months without power, making it the worst blackout in American history. The slow recovery led to a mass evacuation. Thousands gathered what they had left and traveled to Florida—already home to 1 million Puerto Ricans. In *Tossed to the Wind*, María Padilla and Nancy Rosado interview Puerto Ricans from all walks of life who now live in Orlando and Kissimmee, who fight every day to pick up the pieces of their world after Hurricane Maria. In their own words, evacuees describe families living temporarily out of motels, parents anxious about providing for their children, children starting new schools, and everyone worried about the families and friends they left behind. Told from the midst of chaos and incomprehensible loss, these are the stories—filled with pain and wisdom, sadness and laughter—that showcase the strength and resolve of Puerto Ricans.

Tornado Hunter Stefan Bechtel, Tim Samaras, 2009-05-19 Like the deadly tornadoes it documents, this potent combination of high adventure and hard science is terrifyingly timely in our era of global warming and climate change. The Weather Channel, now America's most watched programming,

has in recent years shown us a relentless series of hurricanes, tsunamis, earthquakes, and eruptions killing thousands, turning millions into refugees, and leaving whole cities in shocked, shattered ruins. Of nature's weapons, tornadoes are among the most unforgiving, and here's an unforgettable portrait of these storms and one extraordinary man who challenged them—and produced the first-ever photographs snatched from a rampaging twister's black heart. Tornado chaser Tim Samaras, working with master storyteller Stefan Bechtel, author of *Roar of the Heavens*, has created a page-turner with narrative force and scientific substance. In the first of five you-are-there accounts, *Tornado Hunter* opens with a moment-by-moment description of the 2003 catastrophe that engulfed Manchester, South Dakota. The authors evoke the doomed town and its people; the dark menacing funnel; and Samaras's fearless advance into the whirlwind's core to deploy the ingenious equipment he devised. They interweave the tornado chaser's passion, the fascinating science of the storms themselves, and six decades of progress in predicting and recording their onslaught—an art beholden to Samaras's own groundbreaking inventions. Tim Samaras's 2004 article in *National Geographic* became one of the most widely read in the magazine's history. This powerful book is destined to blast its way onto bestseller lists everywhere.

Tornado God Peter J. Thuesen, 2020-04-01 One of the earliest sources of humanity's religious impulse was severe weather, which ancient peoples attributed to the wrath of storm gods. Enlightenment thinkers derided such beliefs as superstition and predicted they would pass away as humans became more scientifically and theologically sophisticated. But in America, scientific and theological hubris came face-to-face with the tornado, nature's most violent windstorm. Striking the United States more than any other nation, tornadoes have consistently defied scientists' efforts to unlock their secrets. Meteorologists now acknowledge that even the most powerful computers will likely never be able to predict a tornado's precise path. Similarly, tornadoes have repeatedly brought Americans to the outer limits of theology, drawing them into the vortex of such mysteries as how to reconcile suffering with a loving God and whether there is underlying purpose or randomness in the universe. In this groundbreaking history, Peter Thuesen captures the harrowing drama of tornadoes, as clergy, theologians, meteorologists, and ordinary citizens struggle to make sense of these death-dealing tempests. He argues that, in the tornado, Americans experience something that is at once culturally peculiar (the indigenous storm of the national imagination) and religiously primal (the sense of awe before an unpredictable and mysterious power). He also shows that, in an era of climate change, the weather raises the issue of society's complicity in natural disasters. In the whirlwind, Americans confront the question of their own destiny—how much is self-determined and how much is beyond human understanding or control.
