A History of Natal Edgar H. Brookes, Colin de B. Webb, 1965

Deuda Natal Mara Pastor, María José Giménez, Anna Rosenwong, 2021-09-07 *Deuda Natal* finds the beauty within vulnerability and the dignity amidst precariousness. As one of the most prominent voices in Puerto Rican poetry, Mara Pastor uses the poems in this new bilingual collection to highlight the way that fundamental forms of caring for life—and for language—can create a space of poetic decolonization. The poems in *Deuda Natal* propose new ways of understanding as they traverse a thematic landscape of women's labor, the figure of the nomad and immigrant, and the return from economic exile to confront the catastrophic confluence of disaster and disaster capitalism. The poems in *Deuda Natal* reckon with the stark environmental degradation in Puerto Rico and the larger impacts of global climate change as they navigate our changing world through a feminist lens. Pastor's work asserts a feminist objection to our society's obsession with production and the accumulation of wealth, offering readers an opportunity for collective vulnerability within these pages. For this remarkable work, Pastor has found unique allies in María José Giménez and Anna Rosenwong, the translators of *Deuda Natal*. Winner of the 2020 Ambroggio Prize of the Academy of American Poets, this collection showcases masterfully crafted and translated poems that are politically urgent and emotionally striking.

Understanding the Natal Chart Suzanne Rough, 2014-07-31 The aim of this book is to introduce students of astrology to an approach that will make horoscopy's conventional techniques useful to those who come to astrology looking for spiritual guidance. This is not about learning a new astrological language, but rather how to give a different application to the familiar techniques of Western horoscopy. Understanding the natal chart is recommended to complete beginners, those wishing to structure patchy knowledge, and those already competent in horoscopy who are in search of a more esoteric approach to see the way forward.

The Reading of the Natal Chart Ciro Discepolo, 2012-06-13 The interpretation of the natal charts (that is to say, of the drawing representing the celestial positions of our solar system at the moment of one's birth) is probably the milestone of all Astrological Knowledge. It is the point of confluence of the science in which - in a mass of fascinating synergies - disciplines such as astronomy, astrology, mythology, psychology, and a hundred other forms of Knowledge converge that together form what should be understood for Holistic Knowledge. The master of astrology, enriched by multi-decennial experiences, has the gift of synthesis, the ability of photographing in a moment all the Microcosm-Macrocosm that encloses past, present and future of every human being through the glyphs of planets, the Houses, and the angular aspects among the elements of the chart. This volume

represents the University of Astrology. It is not coincidental that its Author, who is one of the most accomplished astrologer of the world, sought to engage in the writing of this short treatise, about the same time of the turning point of his own professional jubilee (defined by the number of works that he has published so far). With the simplicity that distinguishes him, on this occasion too, Ciro Discepolo has been able to present to both neophytes and the more experienced readers the most difficult concepts in a direct, simple, immediately usable way, revealing previously unpublished details, new knowledge that he has meditated for long before writing about it, and even small secrets of what must necessarily be called the Interpretative Art of Astrology. As is his custom, the Author offers over fifty examples to support the explained theories. They consist mainly in the natal charts of celebrities, completely revised compared to past editions, or interpreted now for the first time for the delight of his students.
