The Party's Over Phil Burton-Cartledge, 2023-08-29 The Fall of the Tory Party Despite winning the December 2019 General Election, the Conservative parliamentary party is a moribund organisation. It no longer speaks for, or to, the British people. Its leadership has sacrificed the long-standing commitment to the Union to 'Get Brexit Done'. And beyond this, it is an intellectual vacuum, propped up by half-baked doctrine and magical thinking. *Falling Down* offers an explanation for how the Tory party came to position itself on the edge of the precipice and offers a series of answers to a question seldom addressed: as the party is poised to press the self-destruct button, what kind of role and future can it have? This tipping point has been a long time coming and Burton-Cartledge offers critical analysis to this narrative. Since the era of Thatcherism, the Tories have struggled to find a popular vision for the United Kingdom. At the same time, their members have become increasingly old. Their values have not been adopted by the younger voters. The coalition between the countryside and the City interests is under pressure, and the latter is split by Brexit. The Tories are locked into a declinist spiral, and with their voters not replacing themselves the party is more dependent on a split opposition - putting into question their continued viability as the favoured vehicle of British capital.

Promoting Party Politics in Emerging Democracies Peter Burnell, Andre W. M. Gerrits, 2013-09-13 This book offers a critical and comparative examination of international support to political parties and party systems in emerging and prospective new democracies in several world regions. It combines the insights of a strong international grouping of leading academics and pioneering doctoral studies, and draws on extensive new field work inquiries. The wide-ranging coverage pools evidence from countries in Europe and Eurasia, Africa, East Asia and Central America. The book shows how far international support still has to go if it is to achieve its aims of helping party politics make a constructive

contribution to furthering democracy. It advances our understanding both of the role the political parties are playing in the different polities and the sometimes negative impact of democracy promotion actors from outside. By contributing original theoretical perspectives and empirical findings, the book points the way forward to agendas for future research and new courses of action. It will be of interest to academics and the policy-making and practitioner communities alike. This book was published as a special issue of *Democratizations*.

Telecommunications Law and Regulation in Nigeria Uchenna Jerome Orji, 2018-12-19 The Nigerian telecommunications industry has continued to grow in a phenomenal manner following market liberalization reforms that commenced in the 1990s. As of 2017, the telecommunications industry was one of the fastest-growing economic sectors in Nigeria and the fourth largest contributor to the country's Gross Domestic Product. The telecommunications industry, however, remains a highly technical and naturally dynamic industry that has not been a usual area for legal research in developing countries such as Nigeria. This book bridges that gap in knowledge by providing an analysis of the legal and policy instruments that regulate the industry. It comprises eleven chapters that discuss the historical evolution of telecommunications and its regulation; the development of the Nigerian telecommunications industry from 1886 to 2017; the legal basis for the regulation of the industry; the licensing and duties of service providers; the regulation of network infrastructure; the protection of consumers; the regulation of competition, interconnection, universal access, and environmental protection; and the resolution of industry disputes. This book will be useful to policy makers, legislators, regulators, lawyers, law students, investors, operators, and consumers, as well as any person interested in the Nigerian telecommunications industry.

Party Structure and Organization in East-Central Europe Paul G. Lewis, 1996-01-01 ' . . . this volume represents one

of the best works written to date on party organizational development in east central Europe and is essential reading for all political scientists interested in party politics in postcommunist systems.' - John T. Ishiyama, Slavonic Review Party Structure and Organization in East-Central Europe focuses on the origin and development of new political parties within different countries in East-Central Europe. The book has a clear focus on party structure and organization. It is one of the first books to present empirical studies of the development of political parties in Eastern Europe. Whilst making a distinctive contribution, it also feeds into the broader debate about party development and links with other issues of political theory.

The Blueprint J. P. Lewis, Joanna Everitt, 2017-08-28 In this collection, J.P. Lewis and Joanna Everitt bring together a group of up-and coming-political scientists as well as senior scholars to explore the recent history of the Conservative Party of Canada, covering the pre-merger period (1993-2003) and both the minority and majority governments under Prime Minister Stephen Harper. The contributors provide nuanced accounts about the experience of conservatives in Canada which reflect the contemporary evolution of Canadian politics in both policy and practice. They challenge the assumption that Harper's government was built upon traditional toryism and reveal the extent to which the agenda of the CPC was shaped by its roots to the Reform and Canadian Alliance Parties. Organized thematically, the volume delves into such topics as interest advocacy, ethno-cultural minorities, gender, the media, foreign policy, and more. The Blueprint showcases the renewed vigour in political studies in Canada while revealing the contradictory story of the modern Conservative Party.

Protestant Political Parties Paul Freston, 2017-03-02 The recent global expansion of Protestant Christianity, and the increase in multiparty democracies, has led to the multiplication of Protestant political parties. One cannot talk of Protestant parties today

without mentioning countries as diverse as Norway, Latvia, New Zealand, Indonesia, Zambia and Nicaragua. Whilst the well-established parties of the Netherlands and Scandinavia have long been studied, Paul Freston's groundbreaking book is the first global survey of this phenomenon. After looking at the traditional Protestant heartlands of Europe and the English-speaking world, Freston traces the spread of the Protestant party model to post-communist countries, the Pacific, the Muslim world, southern Africa and Latin America. He examines the circumstances favouring such parties, and the political projects they represent. The conclusion analyses the diversity of Protestant parties due to different interpretations of Christian politics and varied contexts. This unique book will interest specialists and non-specialists, across disciplines and in many parts of the world.

The Modern British Party System Paul Webb, 2000-07-26

‘This is a really excellent book, the best on British parties that I have read in recent years. Paul Webb utilises the latest research and modern analytical techniques to provide a sophisticated study of parties and the party system which is packed with information. It is a major contribution not just to the literature on British politics but also to the comparative literature on political parties’ - David Denver, Lancaster University ‘Paul Webb’s new book is likely to remain the standard work on the British party system for years to come’ - Peter Mair, University of Leiden ‘A landmark study. I cannot commend this book too highly to teachers of British politics, students and professional analysts alike’ - Ian Budge, University of Essex ‘An excellent book that will be much quoted by scholars in future years’ - Alan Ware, Oxford University ‘Paul Webb provides the most comprehensive and well-documented analysis of the programmatic and organizational changes in the British party system. His conclusion that British parties remain critically important to the functioning of democracy is strengthened by his comparative approach. This book is a major contribution to the study of British party politics’ - Patrick Seyd, University of Sheffield

Providing a complete up-to-date overview of the changing nature of contemporary party politics in Britain, this book draws on models of comparative politics and the latest empirical analysis to explain the capacity of British parties to adapt to a changing political environment. A number of broad themes include: the nature and extent of party competition; the internal life and organizational development of parties; the variety of evolving party systems in the United Kingdom; and the links between parties and the wider political system. The current weaknesses of party performance are addressed, and the scope of reform explained and examined. Contrary to claims of 'decline', however, the book demonstrates that party politics remain essentially vibrant and intrinsic to modern British democracy. The Modern British Party System will be an essential text for all students of contemporary British politics, parties and party systems.

Campaign And Party Finance In North America And Western Europe Arthur B. Gunlicks, 2019-04-08 This book provides information about how policies and practices regarding public financing abroad, focusing on North America and several Western European countries, can help Americans develop their own ideas about reform possibilities.

Comparative Issues in Party and Election Finance F. Leslie Seidle, 1991-01-01 This book is one of 23 volumes of research commissioned by the Royal Commission on Electoral Reform and Party Financing, and one of five volumes within this series dealing specifically with party and election finance.

Party of One Michael Harris, 2014-10-21 In *Party of One*, investigative journalist Michael Harris closely examines the majority government of a prime minister essentially unchecked by the opposition and empowered by the general election victory of May 2011. Harris looks at Harper's policies, instincts, and the often breathtaking gap between his stated political principles and his practices. Harris argues that Harper is more than a master of controlling information: he is a profoundly anti-democratic figure.

In the F-35 debacle, the government's sin wasn't only keeping the facts from Canadians, it was in inventing them. Harper himself provided the key confabulations, and they are irrefutably (and unapologetically) on the public record from the last election. This is no longer a matter of partisan debate, but a fact Canadians must interpret for what it may signify. Harris illustrates how Harper has made war on every independent source of information in Canada since coming to power. Party of One is about a man with a well-defined and growing enemies list of those not wanted on the voyage: union members, scientists, diplomats, environmentalists, First Nations peoples, and journalists. Against the backdrop of a Conservative commitment to transparency and accountability, Harris exposes the ultra-secrecy, non-compliance, and dismissiveness of this prime minister. And with the Conservative majority in Parliament, the law is simple: what one man, the PM, says, goes.

Party Politics and Populism in Zambia Sishuwa

Sishuwa, 2024-05-21 Analysis of the political history of Zambia through a study of Michael Sata. It shows the interaction between party politics and populism since the 1950s, the nature and competitiveness of electoral politics in single or dominant party regimes, and the importance of individual political leadership to the success of opposition parties in Africa. Javier Milei in Argentina, Donald Trump in the United States, Giorgia Meloni in Italy, Narendra Modi in India, Julius Malema in South Africa - populist leaders are thriving in party politics across the world. Structural changes like the globalisation of the economy, rising inequality, and increased voter detachment from traditional parties have given rise to distinct social grievances on which the populist leader feeds. But how does such a leader emerge? This book uses the study of Michael Sata, former president of Zambia and one of the most intriguing political figures of modern African history, to provide insight into the origins and personality of the populist. It argues that three factors - the structural, the economic and,

importantly, the personal - are needed to understand when and how populism develops. Based on exclusive interviews with Sata, as well as with his friends, allies, opponents, and journalists, and on newspapers, archives, personal correspondence, and participant observation, Sata's election to the Zambian presidency in 2011 is explained as the culmination of a political journey spanning the late colonial period (1953-1964), the years of one-party rule (1973-1991), and the era of multiparty democracy (since 1991). The book explores the nature and style of his political strategy, the grievances that he articulated and played on, the constituencies he targeted and mobilised, the policy appeals around which he rallied support, and the language with which he expressed those appeals. At the same time, it uses the prism of Sata's political life to examine the growth of populism in Zambia and its practice in party politics since the 1950s. As well as providing new insights into the long shadow of late colonialism on the country's contemporary politics, this book illustrates the evolution of political ideas and populist strategies.

Interest Groups and Campaign Finance Reform in the United States and Canada Robert G Boatright, 2011-03-15 This book is a valuable contribution to the study of campaign finance in the U.S. and Canada. Its comparative analysis highlights the role of institutions in shaping group activity, the extraordinary role of interest groups in American electoral politics, and the inherent

difficulty in regulating group activity without stifling debate. It belongs on the shelf of anyone interested in election finance law. --

-Lisa Young, University of Calgary Boatright finds the right balance of perspective and real-world application to make this a truly informative and valuable read, even for those of us who play in the political arena. He doesn't suffer from the myopia of political correctness that afflicts so many who write on campaign finance. --

-Gregory Casey, President and CEO, Business-Industry PAC (BIPAC) A meticulously researched book that political scientists will find to be a serious contribution to the literature on campaign finance and interest groups. ---Peter Francia, East Carolina University In the early 2000s, the United States and Canada implemented new campaign finance laws restricting the ability of interest groups to make political contributions and to engage in political advertising. Whereas both nations' legislative reforms sought to reduce the role of interest groups in campaigns, these laws have had opposite results in the two nations. In the United States, interest groups remained influential by developing broad coalitions aimed at mobilizing individual voters and contributors. In Canada, interest groups largely withdrew from election campaigns, and, thus, important voices in elections have gone silent. Robert G. Boatright explains such disparate results by placing campaign finance reforms in the context of ongoing political and technological changes. Robert G. Boatright is Associate Professor of Political Science at Clark University. Cover photo: © iStockphoto.com / alfabravoalpharomeo

Constitutionalism in Asia Wen-Chen Chang, Li-ann Thio, Kevin YL Tan, Jiunn-rong Yeh, 2014-02-19 This book of text, cases and materials from Asia is designed for scholars and students of constitutional law and comparative constitutional law. The book is divided into 11 chapters, arranged thematically around key ideas and controversies, enabling the reader to work through the major facets of constitutionalism in the region. The book begins with a lengthy introduction that critically examines the study of

constitutional orders in 'Asia', highlighting the histories, colonial influences, and cultural particularities extant in the region. This chapter serves both as a provisional orientation towards the major constitutional developments seen in Asia – both unique and shared with other regions – and as a guide to the controversies encountered in the study of constitutional law in Asia. Each of the following chapters is framed by an introductory essay setting out the issues and succinctly highlighting critical perspectives and themes. The approach is one of 'challenge and response', whereby questions of constitutional importance are posed and the reader is then led, by engaging with primary and secondary materials, through the way the various Asian states respond to these questions and challenges. Chapter segments are accompanied by notes, comments and questions to facilitate critical and comparative analysis, as well as recommendations for further reading. The book presents a representative range of Asian materials from jurisdictions including: Bangladesh, China, Hong Kong, India, Japan, Mongolia, Nepal, Pakistan, South Korea, Sri Lanka, Taiwan, Timor-Leste and the 10 ASEAN states.

Political Parties and the Concept of Power D. Rye, 2014-09-23

An original investigation of the nature of the forces that make members and representatives both loyal and beneficial to a contemporary political party, this book combines theoretical reflection with interview and archive material to provide a unique perspective on power, arguing that it is more complex and nuanced than is frequently assumed.

Just Words Joel Bakan, 1997-01-01 Joel Bakan argues that the Canadian Charter of Rights (1982) has failed to promote social justice because it is administered by a conservative judiciary and because social and economic conditions constantly interfere with its principles.

Essential Cases on Misconduct Benedict Winiger, Ernst Karner, Ken Oliphant, 2018-01-22 The various national European legal systems offer a broad range of responses to the question of

what can be regarded as wrongful behaviour or fault. The present work systematically examines these two important prerequisites for tortious liability under the combined heading of 'misconduct'. Unlike current textbooks, national casebooks and monographs, it builds on the experiences gathered in the national legal systems over the past decades and thereby fills a major gap which still exists today. It thus does what the previous volumes in the 'Digest of European Tort Law' series did for other key elements of tort law, namely natural causation and damage. Once again, the publication contains a selection of the most important cases from 28 states across Europe as well as cases handed down by European Union courts; it also highlights cases from earlier periods of legal history. For each case, the facts and the relevant court decision are presented and these are then accompanied by an analytical commentary. In addition, the editors provide comparative analyses of the cases reported and a special report is dedicated to how key decisions would be resolved under model European rules on tort law. The editors believe that the material gathered here may provide guidance for an organic convergence of the national legal systems in Europe. It constitutes the basis of an *acquis commun* that is infinitely richer (though also much more complex) than the rather bland and abstract concepts contained in national codifications, European legislation and modern model rules.

Selected Court Case Abstracts, 2002 Contains collected abstracts of the FEC about court cases pertinent to the Federal Election Campaign Act of 1971, as amended.
