**Jawaharlal Nehru Vol.2 1947-1956** Sarvepalli Gopal,2014-11-07 The second volume of Sarvepalli Gopal's remarkable work covers the first nine years of Nehru's prime ministership. Like the first volume, it is more than a biography, describing and analysing in detail both domestic and foreign issues of the period of struggle between India and Pakistan for Kashmir, the first elections of free India based on adult suffrage; Korea, the Suez crisis, the invasion of Tibet and Hungary and the demand at home for the creation of new linguistic provinces.

**Selected Works of Jawaharlal Nehru: June 2 to August 15,1947** Jawaharlal Nehru,1985 This volume covers nearly eleven weeks, from October 6, 1948, when Nehru left India for London to attend the Commonwealth Prime Ministers' Conference, to December 19, when the annual session of the Indian National Congress at Jaipur concluded. It collects Nehru's addresses and articles related to this stressful time in world history. Among his articles are support for the causes of Indonesia and the Africans in their battles against alien rulers; arguments for the continued membership of India in the Commonwealth; and a piece on the importance of protecting Indian interests in neighboring countries. Above all, Nehru stressed the need to maintain secular values, and the urgency of restructuring the economy to meet the demands of free India.

**Glimpses of World History- 2** Jawaharlal Nehru,2015-02-12 Nehru's view of world history scintillates here. In his autobiography, *Toward Freedom*, Jawaharlal Nehru, describes the landmarks in the Indian Freedom Struggle. In this volume, while in jail in 1934, he writes 196 letters to his daughter Indira, which provide a panorama of world history- all without any access to a reference library. Truly mesmerizing stuff.

**India's Ad Hoc Arsenal** Chris Smith,1994 Chris Smith explores the evolution of Indian defence policy since 1947. He looks carefully at the domestic dynamics of Indian defence policy. This includes an in-depth analysis of the period 1947-62, which is often ignored by Indian defence analysts, and the performance of the defence industrial base. He concludes that India's defence policy is designed more as one aspect of the quest for great power status than as an attempt to acquire security at an affordable price.

**Nation-building and Identity Conflicts** Ariel Hernandez, 2014-07-08 Ending identity conflicts through negotiated agreements is an intractable process that is embedded complexly in the nation-building process. Ariel Hernandez looks on the complexity of the nation-building process in the Philippines and how its social and political context constrains the achievement of a peace agreement that would withhold new challenges as the process unfolds. Mediation as one of the possible modes of intervention to resolve identity conflicts is taken as the self-evident instrument to end the 40 year old conflict between the Filipino society at large and the Bangsamoro. The analysis confirms that mediation and other types of intervention are contributing to the intractability of identity conflicts by bringing in further complexities in the negotiation process. The conceptualization of "stumbling blocks" may provide knowledge based resources to develop strategies to "facilitate" the mediation process that allows negotiating parties to cope with the complexity of the bargaining table.

**Applications of Soft Computing** Jörn Mehnen, Mario Koeppen, Ashraf Saad, Ashutosh Tiwari, 2009-08-27 WSC2008 Chair's Welcome Message Dear Colleague, The World Soft Computing (WSC) conference is an annual international online conference on applied and theoretical soft computing technology. This WSC 2008 is the thirteenth conference in this series and it has been a great success. We received a lot of excellent paper submissions which were peer-reviewed by an international team of experts. Only 60 papers out of 111 submissions were selected for online publication. This assured a high quality standard for this online conference. The corresponding online statistics are a proof of the great world-wide interest in the WSC 2008 conference. The conference website had a total of 33,367 different human user accesses from 43 countries with around 100 visitors every day, 151 people signed up to WSC to discuss their scientific disciplines in our chat rooms and the forum. Also audio and slide presentations allowed a detailed discussion of the papers. The submissions and discussions showed that there is a wide range of soft computing applications to date. The topics covered by the conference range from applied to theoretical aspects of fuzzy, neuro-fuzzy and rough sets over to neural networks to single and multi-objective optimisation. Contributions about particle swarm optimisation, gene expression programming, clustering, classification, support vector machines, quantum evolution and agent systems have also been received. One whole session was devoted to soft computing techniques in computer graphics, imaging, vision and signal processing.
