An Introduction to Tort Law Tony Weir,2006 Offers an overview of the law of tort in Britain. This book also discusses topical issues, such as the invasion of the privacy of celebrities, and liability for medical mishaps and industrial diseases. It also covers the incorporation into English law of the European Convention on Human Rights.

C-H and C-X Bond Functionalization Xavi Ribas,2013 Cross-coupling reactions involving C-H and C-X bond functionalisation are commonplace in natural product synthesis and natural products, therapeutic agents, biological probes, and advanced materials. Much attention has been given to understanding the mechanistic strategies used to achieve this, making this a hot topic in recent years. In this edited book, contributions from across the globe examine these strategies, with a particular focus on palladium and copper, as well as iron – an emerging element in this field. Reviewing the recent literature, the book presents an in-depth understanding of the field, guiding the reader to achieving the best synthetic strategies for aromatic functionalisation. Organic and Organometallic chemists, as well as natural product and pharmaceutical scientists, will find this an essential guide to a major transformation currently underway in synthetic chemistry.

Personal Property Law Michael G. Bridge,2015 What type of right is a property right? How are items of property classified for legal purposes? In this revised edition of *Personal Property Law*, Michael Bridge provides answers to these fundamental questions of property law. His critical analysis includes new material on insolvency, in particular the anti-deprivation principle and the *pari passu* rule, as well as comprehensive accounts of recent case law (OBG v Allan, Yearworth, and Datastream,) and statutory developments. Widely considered to be the best short introduction to English personal property law, Bridge constructs an authoritative and systematic summary of this complex field for readers approaching the subject for the first time. It focuses on the acquisition, loss, transfer, and protection of interests in personal property law, and specific topics include: ownership and possession; treatment of the separate contributions of the common law and equity to modern personal property law; discussion of modes of transfer; the means of protecting property interests; the resolution of disputes concerning title to personal property; the grant of security interests, and the issues arising out of the transformation and mixing of tangible personal property.

The Cabinet of Dr. Caligari Robert V. Adkinson,Robert Wiene,Carl Mayer,Hans Janowitz,1984

The Conflict of Laws Adrian Briggs,2013-04-25 Adrian Briggs' invaluable introduction to the study of the conflict of laws provides a survey and analysis of the rules of private international law as they apply in England. The volume covers general principles, jurisdiction, and the effect of foreign judgments; choice of law for contractual and non-contractual obligations, the private international law of property, of persons, and of corporations. It does so in a manner which explains and illuminates the principles which underpin the subject in a clear and coherent fashion, as the wealth of literature, case law, and legislation often obscures the architecture of the subject and unnecessarily complicates study. This new edition organizes its material in light of European legislation on private international law, reflecting the shift towards understanding private international law as European law with a common law background instead of common law with European legislative influences. The author's approach is focused on the law and avoids the more abstract theory; as the theory of the conflict of laws is actually to be found in and by applying the legislation and jurisprudence to the cases and issues which arise in private international litigation and legal advice.

Precedent in English Law Rupert Cross,J. W. Harris,1991-06-13 This fourth edition of *Precedent in English Law* presents a basic guide to the current doctrine of precedent in England, set in the wider context of the jurisprudential problems which any treatment of this topic involves. Such problems include the nature of _ratio_ _decidendi_ of a precedent and of its binding force, the significance of precedents alongside other sources of law, their role in legal reasoning, and the account which must be taken of them by any general theory of law. Considerable re-writing has been undertaken to update case-law and take account of the possible implications for the doctrine of precedent of the impact of European Community law, making it an indispensable work of reference for readers interested in the past history, present state, and future developments of English rules of precedent.

Introduction to Company Law Paul Davies,2010-09-23 Written by one of the foremost experts in the area, Paul Davies' *Introduction to Company Law* provides a comprehensive conceptual introduction, giving readers a clear framework with which to navigate the intricacies of company law. The five core features of company law - separate legal personality, limited liability, centralized management, shareholder control, and transferability of shares - are clearly laid out and examined, then these features are used to provide an organisation structure for the conduct of business. It also discusses legal strategies that can be used to deal with arising problems, the regulation of relationships between the parties, and the trade-offs that have been made in British company law to address some of the conflicting issues that have arisen. Fully revised to take into account the Companies Act 2006, and including a new chapter on international law which considers the role of European Community Law, this new edition in the renowned Clarendon Law Series offers a concise and stimulating introduction to company law.

Law in Modern Society Denis Galligan,2006-09-14 Providing an introduction to law in modern society, D. J. Galligan considers how legal theory, and particularly H. L. A Hart's *The Concept of Law*, has developed the idea of law as a highly developed social system, which has a distinctive character and structure, and which shapes and influences people's behaviour. The concept of law as a distinct social phenomenon is examined through reference to, and analysis of, the work of prominent legal and social theorists, in particular M. Weber, E. Durkheim, and N. Luhmann. Galligan's approach is guided by two main ideas: that the law is a social formation with its own character and features, and that at the same time it interacts with, and is affected by, other aspects of society. In analysing these two ideas, Galligan develops a general framework for law and society within which he considers various aspects including: the nature of social rules and the concept of law as a system of rules; whether law has particular social functions and how legal orders run in parallel; the place of coercion; the characteristic form of modern law and the social conditions that support it; implementation and compliance; and what happens when laws are used to change society. *Law in Modern Society* encourages legal scholars to consider the law as an expression of social relations, examining the connections and tensions between the positive law of modern society and the spontaneous relations they often try to direct or change.

An Introduction to the Law of Trusts Simon Gardner,2011-05-05 A comprehensive, stimulating introduction to trusts law, which provides readers with a clear conceptual framework to aid understanding of this challenging area of the law. Aimed at readers studying trusts at an undergraduate level, it provides a succinct and enlightening account of this area of the law. Concise and clear, this book also identifies and discusses many analytical perspectives, encouraging a deeper understanding of the issues at hand. It offers an outstanding treatment of specific areas, in particular remedial constructive trusts and trusts of family homes. Ideal for providing a broad background to the issues before embarking on an in-depth study of trusts, it can also be used to help

the reader to develop their understanding. For those looking to challenge themselves, detailed footnotes highlight further issues and point the direction for future reading. Fully revised to take into account the Charities Act 2006, judicial developments through case law, and recent academic work in this area, this new edition in the renowned Clarendon Law Series offers a well-written, careful, and insightful introduction to the law of trusts.

Discrimination Law Sandra Fredman,Sandra Fredman FBA,2011-05-26 This text provides an introduction to discrimination law. Drawing on a wide variety of philosophical and legal sources, the concepts of equality and anti-discrimination law are introduced in their social and historical context.

The Encyclopedia of Hammer Films Chris Fellner,2019-07-31 This reference work contains entries on every film made by Hammer Films, a British studio renowned for its horror films of the 1950s, 60s, and 70s. In addition, entries on people—directors, writers, producers, etc.—who have worked with the studio, as well as the stars associated with the studio, notably Christopher Lee and Peter Cushing.

Yul Brynner Michelangelo Capua,2014-06-26 Known as the bald cowboy in The Magnificent Seven and the sexy, charismatic male lead in The King and I, Yul Brynner was a Hollywood paragon of masculinity. Beyond his distinctive appearance and distinguished acting career was a life of intrigue and concocted tales surrounding his youth. Born Youl Bryner in Russia, he played gypsy guitar and worked as a trapeze clown until a severe injury motivated him to pursue his interest in theater. This biography takes readers through Brynner’s formative years in Russia, France and China and describes his journey from sweeping stages in Parisian theaters to a versatile career in theater, television and film, reaching a stardom that began and ended with the classic Rodgers and Hammerstein musical The King and I. With accounts of his personal and professional successes and failures, the book includes his four marriages, his numerous and notorious affairs with such stars as Judy Garland, Joan Crawford and Ingrid Bergman, and his 1985 death from lung cancer. A filmography details his movies and plays, and appendices outline his work in documentaries, music and soundtracks, radio programs and television.

Land Law Elizabeth Cooke,2012-06-28 Written by the Law Commissioner responsible for land law, this second edition is an invaluable resource for students new to the subject. It provides a clear overview of the subject, details key cases, and offers both a clear explanation of how the law works and insights into how property lawyers think.

Infogothic Alistair Hughes,2018-10-13 Everything you ever wanted to know about Hammer's horror films is contained in this incredible graphic guide. Charts, templates, diagrams and illustration take you through all the facts and figures. From the relative heights of Frankenstein's Monster, to the actors to have played Dracula ... no stone is left unturned in this compelling and fascinating look at the films which redefined 'Horror' for a generation.

I Like Him, He Likes Her Phyllis Reynolds Naylor,2010-05-18 Find a Penny pick it up and all day long you’ll have good luck...except, of course, if that Penny is charming and pretty and funny, and the person picking her up just happens to be your boyfriend. Alice McKinley’s freshman year is not as “lucky” as she was hoping it would be. But she’s is trying to look on the bright side. There are worse things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support—in theory, anyway. Lately they haven’t been all that there-for-her. In fact, it seems like Pam and Liz are suddenly involved in intense, secret conversations whenever Alice is around. Single is starting to feel a whole lot like solo.
