The Third Industrial Revolution Jeremy Rifkin, 2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution. He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an energy internet, just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.

A Brush of Darkness Allison Pang, 2011-01-25 The man of her dreams might be the cause of her nightmares. Six months ago, Abby Sinclair was struggling to pick up the pieces of her shattered life. Now, she has an enchanted iPod, a miniature unicorn living in her underwear drawer, and a magical marketplace to manage. But despite her growing knowledge of the OtherWorld, Abby isn't at all prepared for Brystion, the dark, mysterious, and sexy-as-sin incubus searching for his sister, convinced Abby has the key to the succubus's whereabouts. Abby has enough problems without having this seductive shape-shifter literally invade her dreams to get information. But when her Faery boss and some of her friends vanish, as well, Abby and Brystion must form an uneasy alliance. As she is sucked deeper and deeper into this perilous world of faeries, angels, and daemons, Abby realizes her life is in as much danger as her heart—and there's no one she can trust to save her.

Love in the New Millennium Can Xue, 2018-11-20 The most ambitious work of fiction by a writer widely considered the most important novelist

working in China today In this darkly comic novel, a group of women inhabits a world of constant surveillance, where informants lurk in the flowerbeds and false reports fly. Conspiracies abound in a community that normalizes paranoia and suspicion. Some try to flee—whether to a mysterious gambling bordello or to ancestral homes that can only be reached underground through muddy caves, sewers, and tunnels. Others seek out the refuge of Nest County, where traditional Chinese herbal medicines can reshape or psychologically transport the self. Each life is circumscribed by buried secrets and transcendent delusions. Can Xue's masterful love stories for the new millennium trace love's many guises—satirical, tragic, transient, lasting, nebulous, and fulfilling—against a kaleidoscopic backdrop drawn from East and West of commerce and industry, fraud and exploitation, sex and romance.
