Young People and Sport Berit Skirstad,Milena M. Parent,Barrie Houlihan,2018-12-07 This book highlights the different roles of youth sport, from sport for all and community sport activities to elite sport and international competitions, to suggest significant new directions for youth sport research and practices. The collection addresses a range of prominent management and policy issues associated with the growing interest in research into youth sport. Major youth sport events such as the Youth Olympic Games and the European Youth Olympic Festival are included in this collection as important policy arenas. In addition, the collection addresses a series of under-researched topics including the welfare of young elite athletes, the process of talent identification and development in elite youth disability sport and how young athletes cope with emotional abuse. The contributors to this collection are drawn from a wide range of countries Canada, the United States, the Netherlands, the United Kingdom, and Norway. The book ends with an overview of the state of research into sport-based youth development and highlights trends and gaps in the literature suitable for further research. The chapters were originally published as a special issue in *Sport in Society*.

Overtraining Athletes Sean O. Richardson,Mark B. Andersen,Tony Morris,2008 *Overtraining Athletes: Personal Journeys in Sport* seeks to communicate the complex subject of overtraining to help athletes, coaches, parents, and sport science professionals understand the dangers of overtraining and take steps toward prevention. Using history and research, current experts' perspectives, and athletes' personal experiences, *Overtraining Athletes* identifies forces that push athletes to overtrain by sharing the struggles of those athletes and the sport professionals who seek to help them. The text employs a nonlinear structure, allowing the flexibility to sample chapters from each of its four parts based on interest and level of knowledge about the topic. By presenting the phenomenon of overtraining from a variety of perspectives and with varying degrees of technicality, the book engages a wide range of readers while presenting significant research and studies in the area. Each of the four parts of the text displays a distinct method for discovering how overtraining affects athletes, coaches, parents, and professionals. Part I begins with a review of research examining aspects of overtraining, including prevalence, physiological and psychological manifestations, and outcomes. It concludes by discussing risk factors that increase the probability

of overtraining. In part II coaches' and sport scientists' views on overtraining risk factors are presented. The authors interviewed 14 experts from major sport organizations in Australia to glean their perspectives on the possible variables associated with overtraining. With the perspectives of these experts, readers may identify the characteristics, behaviors, and experiences of susceptible athletes, as well as the situations, factors, sport cultures, and people that both pressure athletes to increase their training and affect athletes' needs for recovery. In part III the focus turns to the experiences of the athletes. Drawing on interviews from 13 athletes with identified histories of chronic overtraining, the authors present three aggregate case studies: -A professional footballer influenced by economic forces, internalized cliché slogans, tough sport cultures, and traditional abusive practices -A triathlete obsessed with the pursuit of the Olympic gold -A young gymnast-turned-cyclist pressured by abusive coaches and an overinvolved parent These three narratives, in addition to a description of Richardson's own overtraining experience, create a rich, detailed account of athletes' struggles with overtraining. Part III concludes with observations and reflections on these four overtraining narratives to further explain how readers can learn from these athletes. In part IV, the authors introduce a comprehensive model of overtraining risks and outcomes. This model is examined in relation to other overtraining models, thus accentuating its importance as a useful, fluid tool for identifying athletes who might be at risk as well as environments and cultures that increase vulnerability to overtraining. Part IV concludes with a discussion of future directions for research and professional practice and suggestions for further study. Overtraining Athletes uncovers both the personal and interpersonal struggles encountered by athletes who overtrain. Its qualitative focus, current research, and future directions encourage readers to learn about the topic and take action in the treatment and prevention of overtraining. The authors hope the book will also encourage others to tell their stories, gather new data, and continue to unravel the question of why athletes become damaged through their participation in sport.

BOMBË NË AMBASADËN SOVJETIKE Uran Butka, 2014-11-01 Botimi në gjuhën shqipe “Bombë në Ambasadën Sovjetike” i historianit Uran Butka, është një studim historiko-juridik për një rën nga masakrat më tipike të krimeve të regjimit komunist në Shqipëri. Masakra e natës së 26 shkurtit 1951 është njëherësh edhe masakra më kundërligjore dhe më me pa precedent në historinë e legjislacionit shqiptar dhe të huaj. Së pari, sepse vendimi për të realizuar këtë masakër, u mor jo në sallën e gjyqit, por në Byroën Politike të PPSH, në mbledhjen e datës 20.02.1951, me pretekstin e hedhjes të një sasive të vogël dinamiti në oborrin e Ambasadës Sovjetike, që theu vetëm disa xhama në mbrëmjen e datës 19.02.1951. Urgjentisht u mbledh kupola e partisë-shtet me në krye E. Hoxhën dhe me propozim të ministrit të Brendshëm, Mehmet Shehut, u vendos të merreshin masa të jashtëzakonshme represive “pa marrë parasysh ligjet në fuqi, të arrestoheshin menjëherë 100 ose 150 vetë, nga të cilët 10 ose 15 më të rëndësishmit, të pushkatoheshin pa gjyq. « Duhet vrarë njerës të tjerë për të mbajtur pushtetin » -tha Mehmet Shehu. Së dyti, arrestimet që u ekzekutuan më datën 20-23 shkurt 1951, ishin jo vetëm politike, por edhe të paligjshme, sepse u kryen pa ndonjë urdhër-arresti të prokurorit dhe pa ndonjë vendim gjyqësor, vetëm mbi listat e vdekjes, të parapërgatitura nga Sigurimi i Shtetit. Së treti, nuk u bë ndaj tyre as hetuesi, as gjyq, as apelim, pra u shkelën dhe u anashkaluan të gjithë etapat e kodit civil e penal dhe viktimat u pushkatuan fshehtas në mesnatë në breg të lumit të Erzenit, që të zhduej çdo gjurmë. Gjithashtu u bë një operacion masiv për internimin e familjeve të tyre në kampe pune dhe përqëndrimi.. Së katërti, meqenëse pushkatimi pa gjyq bëri bujë, brenda dhe jashtë vendit, nga që lidhej me incidentin në Ambasadën Sovjetike, Gjykata e Lartë, hartoi procesverbale fiktive, sikur ishte bërë gjyqi, mirëpo këto procesverbale të falsifikuara nuk u firmosën nga dy anëtarë të Gjykatës së Lartë, Hydai Beja dhe Nonda Papuli, të cilët refuzuan të firmosnin pasi gjyqi nuk ishte zhvilluar. Pra, kemi të bëjmë edhe me një falsifikim të dokumenteve gjyqësore, për të përlligjur masakrën. Të gjitha këto shkelje juridike dhe ekzekutive, nuk e mbuluan dhe nuk e fshehën dot masakrën e kryer pa gjyq dhe pa asnjë fajësi të provuar. Kështu u pushkatuan pa asnjë gjyq intelektualë të shquar nga gjithë trevat shqiptare, për të ngjallur terror dhe nënshtrim ndaj regjimit, por edhe për të përforcuar miqësinë me BS dhe vijën staliniste.

Go to the Start Michael Janyk, 2023-07-11 As a third-generation member of a ski-racing family, Mike Janyk fulfills a childhood dream by becoming a world class ski-racer on the biggest stage. He travels to glamorous locales, wins accolades, and enjoys the spotlight and camaraderie that comes with belonging to a national team at the World Cup and the Olympic Games. In this beautifully explored memoir, Janyk chronicles the inner life of an elite athlete from being encouraged in sports by parents hoping to find an outlet for his “excessive energy,” to his rise as a young athlete with big dreams and the will to work for them. He takes us through the emotional whirlwind of victories, defeats, and the eventual need for personal reinvention that come with a life in sport. A deep dive into the psychology of a champion athlete, Go To the Start is painted in many colors as a fascinating, sometimes tormented, but frequently hilarious coming-of-age set in a milieu that most of us would never dream we could enter. In lively, evocative prose, Janyk brings readers into the enchantment of standing in the starting gate on a snowy night, to the self talk and mind-over-matter thinking that overcome an athlete’s anxieties and fears, to the thrill of standing on the winners’ podium. It’s a journey of self-discovery that takes him from great emotional heights and to deeply troubled depths, until he comes to find a new way of being in the world. An intimate look into the emotional journey of a world-class athlete, Go to the Start offers a unique perspective and delivers it with deep insight, honesty, and appealing wit.
