NGO's and the United Nations K. Martens, 2005-11-10

NGOs and the United Nations reveals how NGOs have changed their interaction with the UN since the mid-1990s. It also looks at how their representation to the UN, their consultative status and their characteristic features influence their relationship with the UN. The case studies include some of the most renowned players on the international scene, such as Amnesty International, Human Rights Watch, CARE International and Oxfam International.

Nongovernments Julie Fisher, 1998 A complete overview of the composition and types of NGOs that have emerged in recent years. Julie Fisher describes in detail the influence these organizations have had on political systems throughout the world and the hope their existence holds for the realization of sustainable development.

Strategic Management And Policy Issues Of Ngos O.P.

Goel, 2004 The book, as its title suggests, deals with management related policy-issues of NGOs. NGOs today have a great importance and carry huge responsibilities in the global society. Their role in sustainable development of society is crucial. Today good governance needs support of NGOs. Different NGOs have different mission and their management challenges need different kind of approach. Another issues of significance attached with functioning of NGOs is related to finances. Donors are funding agencies are liberal in their approach but policies need to focus on the fact that funds are channeled in the direction and their utilisation brings in the benefits to those for whom they are mentioned. All these issues from the nucleus of this work. The book is aimed at being useful to NGOs, policy-planners, social activist and others concerned with social work.

The Challenges of Nongovernmental Organisations in Anglophone Cameroon Lotsmart N. Fonjong, 2007 It is widely recognised that non-governmental organisations (NGOs) have undertaken an increasingly important role in both human

development and environmental conservation efforts in the less-developed nations during the past three decades. Much of the literature on NGOs focuses on, or is sponsored by, large Western-based international NGOs which themselves undertake or direct many of the development and conservation efforts. This book cuts through sensitive subjects including government corruption and manipulation, the misuse of NGOs and the limitations of small, under funded local development organisations to identify the crucial role of local NGOs in the challenging context of rural development in Sub-Saharan African. His observations and insights are highly useful and provide important contextual understanding for future human development and environment conservation projects in rural African settings.

NGOs and Organizational Change Alnoor Ebrahim, 2005-05-12
Ebrahim analyses the organizational evolution of NGOs combining case studies with extensive review of literature.

NGO Accountability Lisa Jordan, Peter van Tuijl, 2006 First Published in 2006. Routledge is an imprint of Taylor & Francis, an informa company.

International NGO Engagement, Advocacy, Activism Helen Yanacopulos, 2015-10-20 The world of international non-governmental organisations (INGOs) has dramatically changed during the last two decades. The author critically analyses the engagement of INGOs within the contemporary international development landscape, enabling readers to further understand INGOs involvement in the politics of social change.

Formation and Management of NGOs Anita Abraham, 2011
On the legal aspects of forming an NGO.

NGO Involvement in International Governance and Policy Anton Vedder, 2007-11-01 Internationally operating nongovernmental organisations, NGOs, are increasingly involved in international politics and policy making. In many respects their involvement resembles activities and policies that, until recently, were typical of traditional national authorities. This book is about

the reasons for which NGOs can and the reasons for which NGOs cannot be considered as rightful participants in international governance. It tries to deliver rationally defensible starting points for the discussion and the assessment of claims for the legitimacy of their organizations and activities. The book focuses on the question: What conditions must ideally be met for an organization to be called truthfully legitimate, be it or be it not as a matter of fact perceived as legitimate by the public? This does not mean that empirically descriptive questions are left aside. Practical feasibility is important even to a thoroughly normative conception of legitimacy. For that reason and for heuristic purposes, large parts of this book are dedicated to the ways in which NGOs and stakeholders perceive NGO legitimacy.

NGOs and Rural Development Joel S. G. R. Bhose, 2003
This Book Attempts To Examine The Role Of Ngos In Rural Development.

NGO's and the Universal Declaration of Human Rights W. Korey, 2001-02-02 When the Universal Declaration of Human Rights was adopted 50 years ago, Eleanor Roosevelt, its principal architect, predicted that a 'curious grapevine' would carry its message behind barbed wire and stone walls. This book tells the extraordinary story of how NGOs became the 'grapevine' she anticipated - sharpening our awareness about the violations of human rights, 'shaming' its most notorious abusers and creating the international mechanisms to bring about implementation of the Declaration. Korey traces how NGO's laid the groundwork for the destruction of the Soviet empire, as well as of the apartheid system in South Africa, and established the principle of accountability for crimes against humanity. The notion of human rights has progressed from being a marginal part of international relations a half century ago to stand today as a critical element in diplomatic discourse and this book shows that it is the NGOs that have placed human rights at the centre of humankind's present and future agenda.

Non-Governmental Organizations, Management and Development

David Lewis, 2014-03-05 Non-Governmental Development Organizations have seen turbulent times over the decades; however, recent years have seen them grow to occupy high-profile positions in the fight against poverty. They are now seen as an important element of 'civil society', a concept that has been given increasing importance by global policy makers. This book has evolved during the course of that period to be a prime resource for those working (or wishing to work) with and for NGOs. The third edition of Non-Governmental Organizations, Management and Development is fully updated and thoroughly reorganized, covering key issues including, but not limited to, debates on the changing global context of international development and the changing concepts and practices used by NGOs. The interdisciplinary approach employed by David Lewis results in an impressive text that draws upon current research in non-profit management, development management, public management and management theory, exploring the activities, relationships and internal structure of the NGO. This book remains the first and only comprehensive and academically grounded guide to the issues facing international development NGOs as they operate in increasingly complex and challenging conditions around the world. It is the perfect resource for students undertaking studies of NGOs and the non-profit sector, in addition to being an excellent resource for development studies students more generally.

Non-governmental Organizations and Development

David Lewis, Nazneen Kanji, 2009 A concise, comprehensive and critical introduction to the subject of Non-Governmental Organizations (NGOs) and development. This critical overview will be useful to students of development studies at

undergraduate and masters levels, as well as to more general readers and practitioners.

NGO Governance and Management in China Reza Hasmath, Jennifer Y. J. Hsu, 2015-07-16 As China becomes increasingly integrated into the global system there will be continuing pressure to acknowledge and engage with non-governmental organizations (NGOs). Suffice to say, without a clear understanding of the state's interaction with NGOs, and vice versa, any political, economic and social analysis of China will be incomplete. This book provides an urgent insight into contemporary state-NGO relations. It brings together the most recent research covering three broad themes, namely the conceptualizations and subsequent functions of NGOs; state-NGO engagement; and NGOs as a mediator between state and society in contemporary China. The book provides a future glimpse into the challenges of state-NGO interactions in China's rapidly developing regions, which will aid NGOs strategic planning in both the short- and long-term. In addition, it allows a measure of predictability in our assessment of Chinese NGOs behaviour, notably when they eventually move their areas of operation from the domestic sphere to an international one. The salient themes, concepts, theories and practice discussed in this book will be of acute interest to students, scholars and practitioners in development studies, public administration, and Chinese and Asian politics. Reza Hasmath is a Lecturer in Chinese Politics at the University of Oxford, UK, and an Associate Professor in Political Science at the University of Alberta, Canada. His research looks at state-society relationships, the labour market experiences of ethnic minorities, and development theories and practices. Jennifer Y.J. Hsu is an Assistant Professor in Political Science at the University of Alberta, Canada. Her recent publications include a co-authored book *HIV/AIDS in China: The Economic and Social Determinants* (Routledge, 2011), and a co-edited book *The Chinese Corporatist State: Adaption, Survival*

and Resistance (Routledge, 2012).

Non-Governmental Organizations in Contemporary China Qiusha Ma, 2005-11-16 Based on documentary materials including interviews with key players in China, this book charts the development of non-governmental and non-profit organizations in China from the late 1970s to the present day. It recounts how in the aftermath of the 1978 reforms that created a market economy and diversified interests and social life, new institutions and organizations outside of the state system increased dramatically in number, size and influence. These organizations, which barely existed before the reforms began in the late 1970s, carry out many social, economic and cultural tasks neglected by the government. Qiusha Ma examines two key questions crucial to understanding the development of NGOs in China: First, is it possible under China's one-party state for non-governmental organizations to thrive and play important economic, social and political functions? And secondly, are NGOs facilitating the formation of a civil society in China?

Making a Difference D. Hulme, 2013-11-05 As Western aid budgets are slashed and government involvement with aid programmes reduced, NGOs in the voluntary sector are finding themselves taking an ever-increasing share of development work overseas. As they do so, they are forced to grow and to assume new responsibilities, taking more important and wide-ranging decisions - in many cases, without having had the chance to step back and review the options before them and the best ways of maximizing the impact they make. This collection of essays explores the strategies available to NGOs to enhance their development work, reviewing the ways that options can be understood, appropriate programmes and likely problems.

Unmasked Andy Ngo, 2021-02-02 In this #1 national bestseller, a journalist who's been attacked by Antifa writes a deeply researched and reported account of the group's history and tactics. When Andy Ngo was attacked in the streets by Antifa

in the summer of 2019, most people assumed it was an isolated incident. But those who'd been following Ngo's reporting in outlets like the New York Post and Quillette knew that the attack was only the latest in a long line of crimes perpetrated by Antifa. In *Unmasked*, Andy Ngo tells the story of this violent extremist movement from the very beginning. He includes interviews with former followers of the group, people who've been attacked by them, and incorporates stories from his own life. This book contains a trove of documents obtained by the author, published for the first time ever.

Handbook of Research on NGOs Aynsley Kellow, Hannah Murphy-Gregory, 2018-09-28 This volume provides a critical overview of research on Non-governmental Organisations (NGOs). While it notes that the definition of NGOs is contested, and can include both business and national groups, it focuses primarily on international NGOs engaged with human rights, social and environmental concerns, and aid and development issues. With contributions by Peter Willetts, Tom Davies, Bob Reinalda and other leading scholars, it provides a series of critical essays on both general aspects of NGOs and significant issues of particular concern.

Best Practices for Human Rights and Humanitarian NGO Fact-Finding Gerald Steinberg, Anne Herzberg, Jordan Berman, 2012-03-02 This work outlines available resources and proposed standards for international NGO fact-finding missions: Chapter One presents an introduction to the issue of NGO fact-finding. Chapter Two discusses the problems caused by the lack of any generally-accepted guidelines for NGO fact-finding, in contrast with contexts where NGOs have achieved consensus. Chapter Three surveys proposed guidelines for human rights and humanitarian NGOs. In addition, this section examines United Nations fact-finding standards, as well as examples of internal fact-finding standards for major NGOs. Chapter Four analyzes the fact-finding standards used in five specific cases: the

International Crisis Group (Kosovo, 1999), the Independent International Fact-Finding Mission on the Conflict in Georgia (Georgia, 2008), United Nations Office of the High Commissioner for Human Rights Mapping Exercise on the Democratic Republic of Congo (1993-2003), Conflict Analysis Resource Center/University London study on Amnesty International and Human Rights Watch (Colombia, 1988-2004), and Human Rights Watch (Lebanon, 2006). The final chapter offers conclusions and recommendations.
