Hearing the Cloud Emile Frankel,2019-10-25 Can music be a curse? Here is an alternate history of online politics and new technology from the perspective of listening, typing, composing, and shared hearing. Emile Frankel presents a rigorous account of a world felt to be in crisis. The aesthetic and tonal ramifications for such feelings are twisted within the oppressive online structures mediating new music. The legacies of Silicon Valley digitalism, 4chan, Less Wrong, and Chaos Magic are compared to the magical thinking which underlies stochastic composition, and the aesthetics of deconstructed club music. Despite a pessimistic account of Accelerationism and reactionary philosophy, Frankel's spirited writing is full of hope. Hearing the Cloud considers the communal online conversations we engage in daily as profound acts of defiance. Sweet, lithe, oily, and honest music is shown to be an important source of togetherness.

The Bloomsbury Handbook of the Anthropology of Sound Holger Schulze,2020-12-10 The Bloomsbury Handbook of the Anthropology of Sound presents the key subjects and approaches of anthropological research into sound cultures. What are the common characteristics as well as the inconsistencies of living with and around sound in everyday life? This question drives research in this interdisciplinary area of sound studies: it propels each main chapter of this handbook into a thoroughly different world of listening, experiencing, receiving, sensing, dreaming, naming, desiring, and crafting sound. This handbook is composed of six sections: sonic artifacts; sounds and the body; habitat and sound; sonic desires; sounds and machines; and overarching sensologies. The individual chapters explore exemplary research objects and put them in the context of methodological approaches, historical predecessors, research practices, and contemporary research gaps. This volume offers therefore one of the broadest, most detailed, and instructive overviews on current research in this area of sensory anthropology.

The Lady of Crimes Nightcore Macabre,2019-06-19 Adaline Bethesda Cenith has endured many harrowing things over her short lifespan, and just as the autumn of terror is about to begin, her kill count is as well. At a first glance, she seems sweet and polite, just like any other Victorian girl. The only difference is, she holds a bounty

to find the infamous 'Jack the Ripper'. He taunts her dreams, turning her once pleasant mind into a forest of nightmares, but she has to put up a fight to survive. She loses her mind and many friends, but does that matter to her? Not really, as all that truly matters is her main mission and her demons.

Music and Technology: a Very Short Introduction Mark Katz, 2022 Mark Katz surveys the age-old interrelationship between music and technology, from prehistoric musical instruments to today's digital playback devices. This Very Short Introduction takes an expansive and inclusive approach meant to broaden and challenge traditional views of music and technology. In its most common use, music technology tends to evoke images of twentieth and twenty-first century electronic devices: synthesizers, recording equipment, music notation software, and the like. This volume, however, treats all tools used to create, store, reproduce, and transmit music--new or old, electronic or not--as technologies worthy of investigation. All musical instruments can be considered technologies. The modern piano, for example, is a marvel of keys, hammers, strings, pedals, dampers, and jacks; just the sound-producing mechanism, or action, on a piano has more than 50 different parts. In this broad view, technology in music encompasses instruments, whether acoustic, electric or electronic; engraving and printing; sound recording and playback; broadcasting; software; and much more. Mark Katz challenges the view that technology is unnatural, something external to music. It was sometimes said in the early twentieth century that so-called mechanical music (especially player pianos and phonographs) was a menace to real music; alternatively, technology can be freighted with utopian hopes and desires, as happens today with music streaming platforms like Spotify. Positive or negative, these views assume that technology is something that acts upon music; by contrast, this volume characterizes technology as an integral part of all musical activity and portrays traditional instruments and electronic machines as equally technological.

Întoarce-mă în iulie Irina TD, 2022-05-02 Există trei lucruri pe care le urăsc de moarte pe lumea asta: Numele meu de familie. Vârsta de optsprezece ani. Pe tatăl meu. Trebuia să fie ultima mea vară de libertate înainte să

devin majoră. Fără musafiri sezonieri. Fără responsabilități. Fără îndatoriri. Doar ultimele două luni de pace, liniște și nopți albe petrecute alături de oamenii pe care îi iubesc și pe care cel mai probabil nu o să-i mai văd vreodată după 31 august. Totul era perfect, lucrurile decurgeau conform planului până să... apară Tayler White și să schimbe sensul cuvântului libertate. Iar dacă am crezut că viața mea era complicată până în acel punct, ei bine, m-am înșelat. Nimic nu a mai fost la fel după ce a pășit pe teritoriul fermei. Nimic nu a mai fost la fel după ce am început să mă îndrăgostesc de el. Și nimic nu va rămâne la fel dacă eu îl voi alege pe el, în locul numelui meu. Ce varianta mi-a mai rămas? Iubirea este libertate sau libertatea este iubire?

Quella notte nella scuola Gianluca Celentano, 2023-05-31 Alla luce del giorno, tutto è celato. Rivelata dal buio, l'insidia attende: la sua è una fame atavica di vendetta, di passione e di gelosia; nascosta tra le pieghe del mantello notturno, segue i passi di un gruppo di giovani adolescenti che, aggirandosi tra i locali scolastici,

cercano il modo di eludere un test valutativo che ritengono ingiusto. Nicola, armato di videocamera e incoraggiato dal piglio deciso e intraprendente di Felicità, conduce un gruppo eterogeneo di studenti in preda a tempeste ormonali, problemi esistenziali e traumi pregressi. L'oscurità s'insidia nelle anime dei presenti, le distorce, le svuota e le rende prive di freni inibitori, ognuno gioca con la propria sessualità; emergono le proprie inclinazioni, i malesseri, i peggiori segreti. Tra rimorsi e promesse infrante, mentre all'esterno infuria una terribile tempesta, il gruppo è totalmente allo sbando: brancola disperato nel buio, in un luogo che non riconosce più. I ragazzi fuggono, in preda al delirio del silenzio, che assordante e avvolgente collabora con le loro instabilità emotive nello stravolgimento della loro personalità. Fantastico e avvincente, QUELLA NOTTE NELLA SCUOLA, di Gianluca Celentano, è da leggere tutto d'un fiato. Gianluca Celentano è nato a Foggia in una notte nevosissima alla fine del 1998. Sin da bambino scrive cicli di racconti e sceneggiature. Nel 2021 ha pubblicato Blood Pink per Albatros.

Foul Lady Fortune Chloe Gong, 2023-09-26 From the #1 New York Times bestselling author of *These Violent Delights* and *Our Violent Ends* comes the "equal parts intoxicating and dazzling" (Roshani Chokshi, New York Times bestselling author of *The Gilded Wolves*) first book in a captivating new duology following an ill-matched pair of spies posing as a married couple to investigate a series of brutal murders in 1930s Shanghai. It's 1931 in Shanghai, and the stage is set for a new decade of intrigue. Four years ago, Rosalind Lang was brought back from the brink of death, but the strange experiment that saved her also stopped her from sleeping and aging—and allows her to heal from any wound. In short, Rosalind cannot die. Now, desperate for redemption for her traitorous past, she uses her abilities as an assassin for her country. Code name: Fortune. But when the Japanese Imperial Army begins its invasion march, Rosalind's mission pivots. A series of murders is causing unrest in Shanghai, and the Japanese are under suspicion. Rosalind's new orders are to infiltrate foreign society and identify the culprits behind the terror plot before more of her people are killed. To reduce suspicion, however, she must pose as the wife of another Nationalist spy, Orion Hong, and though Rosalind finds Orion's cavalier attitude and playboy demeanor infuriating, she is willing to work with him for the greater good. But Orion has an agenda of his own,

and Rosalind has secrets that she wants to keep buried. As they both attempt to unravel the conspiracy, the two spies soon find that there are deeper and more horrifying layers to this mystery than they ever imagined.

Dandelion Gabbie Hanna, 2020-10-13 New York Times bestselling author Gabbie Hanna delivers everything from curious musings to gut-wrenching confessionals in her long-awaited sophomore collection of illustrated poetry. In this visually thrilling installment of the inner-workings of Gabbie's mind, we're taken on a journey of self-loathing, self-reflection, and ultimately, self-acceptance through deeply metaphorical imagery, chilling twists on child-like rhymes, and popular turns of phrase turned on their heads. Through raw, provocative tidbits, *Dandelion* explores what it means to struggle with a declining mental health in a world where mental health is both stigmatised and trivialised. The poems range from topics of rage and despair to downright silliness, so if you don't know whether to laugh or cry, just laugh until you cry. Exclusive bonus content: a collection of uncomfortably honest personal essays about Gabbie's childhood and relationships.

Unfortunately for them, the Teardrop Killer is tearing his way through the sleepy town of Lan Chang, Georgia with no signs of slowing down any time soon. Can Lao and Walker beat the killer at his own sick game before the last bloody tear drop has fallen? Find out in *Riding for Justice*.

Ultrahuman Steve Madison, *The Ultrahuman* is coming. The Ultrahuman is a member of a higher community. The Ultrahuman is our destiny. The Ultrahuman is the ordinary human's designated replacement. Everything is about to change. The greatest and final paradigm shift is coming. The Ultrahuman is the being associated with this final phase, when humanity starts to understand its own divinity. The medieval eschatologist Joachim of Fiore spoke of three great Ages: 1) The Age of the Father (the Old Testament). 2) The Age of the Son (the New Testament). 3) The Age of the Holy Spirit (the Highest Testament). In this final phase, the Noosphere will merge with the Omega Point. The Ultrahuman is the being for the Third and Final Age. Are you ready to fulfill your destiny? It's time to take the next step. It's time to become Ultrahuman.

The Pitchfork Diaries Xyr Edition J.S. / Jake Bannerman, *THE APEX OF TERROR* *The Pitchfork Diaries* is a collection of short stories and prose unlike anything you have ever read before. Even the darkest and most violent imaginings of your mind cannot come close to matching the horrors contained within. J.S. Bannerman, a new name in

the horror genre, has skilfully woven a collection of tales that will inescapably work their way into your psyche, take up residence and relentlessly haunt you. Prepare yourself to be confronted by words that will threaten to shake the foundation of everything you thought you knew; no truth is too uncomfortable, no thought too gruesome to share. All are invited to read the Pitchfork Diaries. Many will never be the same. Born and raised in the church, J.S. Bannerman has taken the dangerous stance to question events that have been spoon fed to him as the truth since his childhood. He continually pushes boundaries as a purveyor of terror and often strives to find that disquietude that exists inside each one of us. He is a nomad, calling no one place home; choosing the life of a traveler while on the mission of writing the Family of Dog series. As a result you may find him in your town, writing at your local pub, crafting tales of horror so terrifyingly depraved and heartbreakingly cruel that you would never believe that they come from a mind as normal as his. Just beware, because within each tale is a message; it's just up to you to figure out what it means.

Some of the main questions surrounding serverless technology, such as scalability and performance distribution, are answered. Concepts and fundamentals of computing performance such as cost-free operation, good time and resource management, fairness, and interoperability are discussed. Serverless is at the forefront of this shift, which has made data-intensive, distributed applications, and open-source platforms essential for any modern computer to function. Data-centric queuing, real-time logging and monitoring, querying, and alarms are all examples of serverless services.
