Although the Nintendo 64 didn't sell as well as some of Nintendo's other systems, and although it struggled in the shadow of the bold newcomer that was the Sony PlayStation, everyone who owned an N64 was in love with it and the four-player multiplayer it provided as standard. Despite its relatively small library, the Nintendo 64 had a healthy number of groundbreaking titles that would revolutionise the way we played video games. The likes of Super Mario 64, GoldenEye 007, Mario Kart 64 and The Legend of Zelda: Ocarina of Time remain iconic in the eyes of video game fans 25 years down the line. This book naturally contains those games, but it also contains every other game released for the system, no matter how obscure. It also covers every game released in Japan, including those for the ill-fated Nintendo 64DD add-on which never left the country. With over 400 games covered, screenshots for every title and a light-hearted writing style designed to make reading it a fun experience, the N64 Encyclopedia is the definitive guide to a truly revolutionary gaming system.

*The Metaverse: And How It Will Revolutionize Everything* Matthew Ball,2022-07-19 INTERNATIONAL BESTSELLER — United States, Canada, United Kingdom, and China (Wall Street Journal, Associated Press, Nielsen Bookscan, Publishers Weekly, USA Today, Toronto Star, Globe & Mail, BookNet Canada, Bookseller.com, Bookdao/Nielsen, JD, DangDang) Tim Sweeney (CEO of Fortnite-maker Epic Games): “Matthew Ball’s essays have defined, analyzed, and inspired the Metaverse for years. His book is an approachable and essential guide to the strategic, technical, and philosophical foundations of this new medium.” Derek Thompson (Atlantic staff writer and national best-selling author of Hit Makers): “This book feels like a rare achievement: a definitive statement about an emerging phenomenon that could shape the digital world, the global economy, and the very experience of human consciousness.” From the leading theorist of the Metaverse comes the definitive account of the next internet: what the Metaverse is, what it will take to build it, and what it means for all of us. The term “Metaverse” is suddenly everywhere, from the front pages of national newspapers and the latest fashion trends to the plans of the most powerful companies in history. It is already shaping the policy platforms of the US government, the European Union, and the Chinese Communist Party. But what, exactly, is the Metaverse? As pioneering theorist and venture capitalist Matthew Ball explains, it is a persistent and interconnected network of 3D virtual worlds that will eventually serve as the gateway to most online experiences, and also underpin much of the physical world. For decades, these ideas have been limited to science fiction and video games, but they are now poised to revolutionize every industry and function, from finance and healthcare to education, consumer products, city planning, dating, and well beyond. Taking us on an expansive tour of the “next internet,” Ball demonstrates that many proto-Metaverses are already here, such as Fortnite, Minecraft, and Roblox. Yet these offer only a glimpse of what is to come. Ball presents a comprehensive definition of the Metaverse before explaining the technologies that will power it—and the breakthroughs that will be necessary to fully realize it. He addresses the governance challenges the Metaverse entails; investigates the role of Web3, blockchains, and NFTs; and predicts Metaverse winners and losers. Most importantly, he examines many of the Metaverse’s almost unlimited applications. The internet will no longer be at arm’s length; instead, it will surround us, with much of our lives, labor, and leisure taking place inside the Metaverse. Bringing clarity and authority to a frequently misunderstood concept, Ball foresees trillions of dollars in new value—and the radical reshaping of society.

**How to Breathe Underwater** Chris Turner,2014-10-13 The essays and reportage in How to Breathe Underwater offer a panoramic overview of this age of radical change—from the online gambling boom in the Caribbean to Cyberjaya, the Malaysian government’s attempt to build its own Silicon Valley; from video game design to digital-age tabloid journalism to the artistry of The Simpsons; and from the fate of the Great Barrier Reef to Cuba’s economic limbo after the fall of the Soviet empire. In field reports that survey the rise of the internet in the 1990s, analyze the changing nature of mass culture in the digital age, and provide a multifaceted look at how human industry is shaping the planet’s foundations, this collection presents a fractal portrait of a society in rapid flux. Chris Turner is the author of four previous books, a nine-time National Magazine Award winner and a sought-after speaker on the rise of the global green economy, as well as a celebrated feature writer for The Walrus, Canadian Geographic, The Globe & Mail and other major publications. His lively and passionate reportage, along with his incisive essays and shrewd cultural criticism, have for the past fifteen years made essential contributions to the debates on our climate, culture, and technology. They are collected here for the first time. Praise for How To Breathe Underwater “Chris Turner is among the best magazine writers on the planet. His writing is so beautiful, wry and well-reported that it's spellbinding. And spellbreaking: He wakes you up, makes you sit upright and look afresh at our culture, our climate, and where we need to go. This is literary nonfiction at its finest.”—Clive Thompson, Wired columnist and author of Smarter Than You Think Chris Turner is the master of long-form journalism in Canada, a smart, funny, and endlessly curious envoy to everywhere. This collection gathers his best work, forging links of meaning in a chain of superb reporting and writing; readers will see many choice pieces and realize, maybe for the first time, that they were all fashioned by the same indefatigable intelligence.—Mark Kingwell, the author of A Civil Tongue Whatever you choose to call this kind of stylishly reported, deeply engaged, richly nuanced, gorgeously written nonfiction--saturation reportage, new journalism, longform writing--it without question qualifies as real literature. It's the only kind of journalism that gets remembered, and the only kind that produces real change. Chris Turner has been writing it since he started taking notes.”—Ian Brown, author of The Boy in the Moon and Globe & Mail feature writer
