Regulating Sport for the Non-human Athlete Jonathan G. Merritt,2019 This book evaluates the status quo of integrity management within sports that involve horses worldwide. It investigates the question of whether cheating is discouraged and fair play rewarded, both to an adequate degree.

Hot Topics in Sports and Athletics Samuel R. Bakere,2008 Sports and athletics are at once big business, spectator sports, body conditioning, mind expanding and it has been said form the only pages of most newspapers which are truthful and without political agendas. This book presents articles which are of current interest in the field.

The Last Boys Picked Janet Sasson Edgette,Beth Margolis Rupp,2012-09-04 Boys who don't play sports are often the targets of bullying, but a boy's worst bully may be the one he can't see: society's expectations about how he should act, how he should relate, and how he should play. Overlooked by a society that reinforces impossible standards of masculinity, boys who are uninterested in competitive sports or have non-aggressive personalities are often vilified and bullied for being different as they grow up in the shadow of America's obsession with bigger, faster, richer, and stronger. Through a fascinating assortment of in-depth interviews, clinical case studies, and examples from popular literature, Dr. Janet Sasson Edgette and Beth Margolis Rupp illustrate how these boys are relegated to a second-class social status simply because they can't make a free throw or because they can spell better than they can run. Compassionate, empowering, and instructive, The Last Boys Picked will help parents, teachers, coaches, and caregivers identify the social and emotional hurdles that these boys face. It offers specific action steps to help any child build resilience and a healthy self-esteem-and tips for talking to them about their experiences and teaching them to face the schoolyard-and the world-with confidence.

Impacts and strategic outcomes from non-mega sport events for local communities Marijke Taks,Laurence Chalip,B. Christine Green,2017-10-02 Do small- and medium-sized sporting events affect the overall wellbeing of people living in the host community? If so, how they do they affect local life? This book specifically addresses the strategic choices that host communities make when hosting non-mega sporting events, and looks at the outcomes of those choices. The contributions to this study assess a variety of tangible and intangible effects, including the economic and social impacts, and the effect on tourism and participation in sport. It contains analysis of a variety of events, including spectator and participant events, single-sport and multi-sport events, and one-day and multi-day events, all hosted in different types of cities and communities around the globe. Overall, this book identifies and extends our understanding of the nature, management, and implications of non-mega sporting events. The impacts and strategic outcomes highlighted here have practical value for sport event management and strategy, and advance our understanding of the economic and social consequences of hosting an event. This book was originally published as a special issue of European Sport Management Quarterly.

Rising Above Gregory Zuckerman,Elijah Zuckerman,Gabriel Zuckerman,2016-05-03 Discover inspirational real-life stories of superstar athletes in this collection of sports biographies featuring LeBron James, Stephen Curry, Tim Howard, and more! Team USA goalkeeper Tim Howard was diagnosed with Tourette Syndrome in 6th grade. He went on to become a national treasure after single-handedly keeping America competitive in the 2014 World Cup. Stephen Curry was told he was too small, too weak, and too slow to even receive a scholarship to play college basketball. He outworked everyone and went on to become MVP of the National Basketball Association. Jim Abbott was born without his right hand, yet he refused to be defined by what he lacked. He went on to pitch a no-hitter in the Major Leagues. Athlete after athlete in this book found discipline, hope, and inspiration on the playing field, rising above their circumstances. Filled with first-hand accounts from stars who exemplify the idea of enduring at all costs, this collection of sports biographies will serve as a must-read source of inspiration for kids and sports fans of all ages. Praise for Rising Above A Scholastic Teacher magazine Summer Reading List selection A Milwaukee Journal Sentinel Summer Reading List selection An easy pitch for middle school sports lovers.--School Library Journal "This collection of mini-bios about athletes who overcame major obstacles packs a powerful message—perseverance and passion pay off. Even non-sports fans will cheer for superstars like LeBron James and Stephen Curry."--Scholastic Teacher So many of the obstacles that these athletes share are retold using personal interviews and primary source material that young readers will find very relatable. [T]heir stories have morals that are easily transferred to life off the court or the field. The highly relevant message is that no situation is too dire or insurmountable with the right attitude and that young people shouldn't allow setbacks to define them.--Booklist [O]ften inspiring . . . The underdog stories reveal that dedication and perseverance pay off, as well as that sports can serve as needed outlets and refuges.--Publishers Weekly I would rate this a 9 1/2 . . . it touch[es] your heart very often with the ways these athletes turn[ed] their lives around.--Colorado Kids

Sports Economics for Non-Economists Wray Vamplew,2022-03-31 This book cuts through the jargon and complicated formulae to focus on the key concepts in sports economics, introducing the fundamentals in a concise and engaging way to give the reader without a background in economics the tools with which to read and apply sports economics in their work. Full of real-world cases and stories, the book offers a short economic history of sport and explains the economic foundations of the world of sport today, from local leagues to mega-events. Covering both amateur and professional sports, it explores and explains the most important issues in contemporary sports economics, from player transfer markets and the rise of women's sports to the spending behaviour of fans and the growing shadow of corruption. A fascinating read for any student, researcher or practitioner working in sport, or for the general reader who wants to understand the background to many of the most important stories in sport today, this is the only book on sports economics that you will ever need.

Oxford Textbook of Children's Sport and Exercise Medicine Neil Armstrong,Willem Van Mechelen,2023 The 4th edition of the Oxford Textbook of Children's Sport and Exercise Medicine is the definitive single-volume reference in the field presented in four sections Exercise Science; Exercise Medicine; Sport Science; and Sport Medicine.

Sports and Personality Urvashi Roul,1998 The book, containing investigations on Interaction Paradigm in Sports Psychology. The present work, opens new vistas in this field hitherto unrecognised in the interfacing of sports with personality, marks radical departure from the conventional bi-polar premises prevalent in the discipline. Explains the emergence and impact of interaction between personality factors and environmental factors, in a substantial manner, which decisively contribute to the shaping up of attitudes and behaviorist responses.

Emergency Management for Sport and Physical Activity Douglas J. Casa,Rebecca L. Stearns,2014-03-20 Includes Forward by National Football League Commissioner, Roger Goodell Written by experts in the field, Emergency Management for Sport and Physical Activity is designed to educate non-Athletic Training majors on the ways in which to prevent sudden death during sport. Often these non-medical professionals are the first on the scene and must, at times, serve the vital role of first responder and immediately act on behalf of athletes' lives. Due to the rigorous training and conditioning programs that are being undertaken by athletes, effective emergency management has become a growing concern. This text includes the recently published positioning statement released by the National Athletic Trainers Association (NATA), which address many of the important topics discussed throughout the book. It goes on to address the associations task force document on "Preventing Sudden Death During Conditioning Sessions." Key Features: Web-based scenarios are included for each chapter Includes case studies, feature boxes, and emergency action plans First aid methods and techniques are included as an appendix Include position statements put forth by the National Athletic Trainers Association (NATA)

Handbook of Sports Studies Jay Coakley, Eric Dunning, 2000-08-29 Now available in paperback, this vital handbook marks the development of sports studies as a major new discipline within the social sciences. Edited by the leading sociologist of sport, Eric Dunning, and Jay Coakley, author of the best selling textbook on sport in the USA, it both reflects and richly endorses this new found status. Key aspects of the Handbook include: an inventory of the principal achievements in the field; a guide to the chief conflicts and difficulties in the theory and research process; a rallying point for researchers who are established or new to the field, which sets the agenda for future developments; a resource book for teachers who wish to establish new curricula and develop courses and programmes in the area of sports studies. With an international and inter-disciplinary team of contributors the Handbook of Sports Studies is comprehensive in scope, relevant in content and far-reaching in its discussion of future prospect.

Sports Journalism Patrick S. Washburn, Chris Lamb, 2020-07-01 Patrick S. Washburn and Chris Lamb tell the full story of the past, the present, and to a degree, the future of American sports journalism. Sports Journalism chronicles how and why technology, religion, social movements, immigration, racism, sexism, social media, athletes, and sportswriters and broadcasters changed sports as well as how sports are covered and how news about sports are presented and disseminated. One of the influential factors in sports coverage is the upswing in the number of women sports reporters in the last forty years. Sports Journalism also examines the ethics of sports journalism, how sports coverage frequently has differed from that of non-sports news, and how the internet has spawned a set of new ethical issues.

A School in Africa A. Megahey, 2005-06-09 When Peterhouse School opened in 1955, the British Empire in Africa was still intact and the Federation of Rhodesia and Nyasaland had just come into being. It was a boarding school founded on the British model, but with the intention that it would 'adapt all that is best in the Public School tradition to African conditions'. The story of Peterhouse is not only about work and sport, music and drama, chapel and syllabus changes. It is set in the context of educational development and political changes in a Southern Africa country. The school became a pioneering multi-racial institution in 'white Rhodesia'; shared the sufferings of the country during the 'bush war'; expanded greatly in the new Zimbabwe, survived the contradictions of a black 'Marxist' government, and has kept its firm commitment to being a 'Church School'. Despite the uncertainties and challenges of the new century, this is a story of faith and vision.
