How to Take Smart Notes Sönke Ahrens,2022-03-11 This is the second, revised and expanded edition. The first edition was published under the slightly longer title *How to Take Smart Notes. One Simple Technique to Boost Writing, Learning and Thinking - for Students, Academics and Nonfiction Book Writers*. The key to good and efficient writing lies in the intelligent organisation of ideas and notes. This book helps students, academics and other knowledge workers to get more done, write intelligent texts and learn for the long run. It teaches you how to take smart notes and ensure they bring you and your projects forward. The Take Smart Notes principle is based on established psychological insight and draws from a tried and tested note-taking technique: the Zettelkasten. This is the first comprehensive guide and description of this system in English, and not only does it explain how it works, but also why. It suits students and academics in the social sciences and humanities, nonfiction writers and others who are in the business of reading, thinking and writing. Instead of wasting your time searching for your notes, quotes or references, you can focus on what really counts: thinking, understanding and developing new ideas in writing. Dr. Sönke Ahrens is a writer and researcher in the field of education and social science. He is the author of the award-winning book “Experiment and Exploration: Forms of World Disclosure” (Springer). Since its first publication, *How to Take Smart Notes* has sold more than 100,000 copies and has been translated

*Notes from an Island* Tove Jansson, Tuulikki Pietilä, 2021-10-07 In the bitter winds of autumn 1963, Tove Jansson, helped by Brunström, a maverick fisherman, raced to build a cabin on a treeless skerry in the Gulf of Finland. The island was Klovharun, and for thirty summers Tove and her beloved partner, the graphic artist, Tuulikki Pietilä, retreated there to live, paint and write, energised by the solitude and shifting seascapes. *Notes from an Island*, published in English for the first time, is both a chronicle of this period and a homage to the mature love that Tove and 'Tooti' shared for their island and for each other. Tove's spare prose, and Tuulikki's subtle washes and aquatints combine to form a work of meditative beauty. '... Tooti wandered aimlessly around the island and stood stock still for long periods. I thought I knew what she was doing. She was working again. Copperplate etchings and wash drawings. Mostly the lagoon, the lagoon as a consummate mirror for clouds and birds, the lagoon in a storm, in fog. And the granite, first and foremost, the granite, the cliff, the rocks. It's all peace and quiet now.'

**Is Christ Allah, the God of Mohammed?** Dr. Ngozi Funmi Okeke, 2017-07-21 Bedford, 2045. Reasoning and vision are unbounded. If Christ is infinite, he must be who he says he is. Had the

Pharisees (freemasons of that era) understood the exceptional, extraterrestrial, divine, and immortal Y chromosome, they mightnt have lynched Christ. Some anti-Christ, closeted, racist freemason judges seem stupider than the Pharisees! There is no sin except stupidity (Oscar Wilde). I emphasis the point (Judge Paulo Hayers, a seemingly white supremacist judge; alleged hereditary Romanian with a camouflage name, which his ancestors who used to latch on to the gigantic trust fund that yielded evil terrorism and millions of stolen and destroyed lives). The OECD study also found that a quarter of adults in England have the math skills of a ten-year-old. About 8.5 million adults, 24.1 percent of the population, have such basic levels of numeracy that they can manage only one-step tasks in arithmetic, sorting numbers, or reading graphs. This is worse than the average in the developed world, where an average of 19 percent of people were found to have a similarly poor skill base. Shepherds know sheep are morons; sheep dont know shepherds are morons too. The best opportunity of developing academically and emotionally. Judge Paulo Hayers approved a fools approval! He approved what a closeted racist, plebeian mummy would speak. He rides a tiger. Dismounted, what? His brain yields only mediocrity; his land yields only food. Functional semi-illiterate judges are more likely to be racists. Sir, he was dull in company, dull in his closet, dull everywhere. He was dull in a new way, and that made many people think him great (Dr Samuel Johnson). He is a closeted racist and terrorist judge. He is the ultrarighteous descendant of thievesthe stealer, carrier, and seller of millions of Africans, including millions of kidnapped children and Habakkuk. In Bedford, Professor Richard Boris Hill fabricated reports and unrelentingly lied under oath. It is a criminally dishonest, mediocre, and nakedly racist legal system.
