Outdoor Emergency Care: A Patroller's Guide to Medical Care National Ski Patrol,2020-05-07

Developed in partnership with the National Ski Patrol, *Outdoor Emergency Care: A Patroller's Guide to Medical Care*, Sixth Edition, is designed to prepare first responders to handle any medical situation in the outdoor environment, during all seasons. The Sixth Edition features: A straightforward, consistent patient assessment process. The patient assessment process is presented in the same way patients are assessed in the health care system. Flowcharts are provided throughout the Patient Assessment chapter to keep the reader focused on each step of the process. Up-to-date content. As you read through each chapter, you will find new information that is current with present prehospital patient care. Subject matter that meets and, in many cases, exceeds the National Emergency Medical Responder criteria. Information unique for ski and bicycle patrollers, including extrication, is included. This material is presented in a format that combines the disciplines of urban EMS and wilderness medical rescue. Continuous case studies. A continuous case study is included in each chapter to encourage critical thinking and application of the information as readers progress through the chapter. End-of-chapter review questions. The review questions included at the end of each chapter allow students to evaluate the knowledge they have gained while reading the chapter. Focus on learning objectives. Specific objectives listed at the beginning of each chapter tell students at the outset what they are expected to learn as they move through the chapter.

Humanitarian NGOs, (In)Security and Identity Andrea Schneiker,2016-03-09 Increasingly humanitarian NGOs operate in the context of armed conflicts where the security risks are higher than in contexts of natural disaster. Working in Afghanistan, Somalia, Sudan, South Sudan, Pakistan and Sri Lanka is particularly dangerous for humanitarians. This existential threat affects the physical existence of aid workers and the implementation of humanitarian programs, and the core beliefs of humanitarians and the underlying principles of humanitarian action. For NGOs it is difficult to accept that they are attacked despite their good intentions, sometimes even by the very communities they seek to help. For these reasons, humanitarian NGOs have to change their approaches to security by not only adapting their policies, procedures and structures to the changing environment, but also reviewing the underlying principles of their work. This book contributes to debates by demonstrating how issues of (in)security affect humanitarian NGOs and the humanitarian identity, situating the structural changes within the humanitarian NGO community in the context of conflict aid governance and explains how non-state actors establish their own governance structures, independent from state-sponsored solutions, and contributes to the emerging literature on the redefinition of the concept of epistemic communities.

Theory S: Spiritual Leadership of Business Organizations Dr. N.S.P.RAJU,2018-08-21 Leadership is a key function in the management of any organization. Many theories exist for the choice of the best leadership style, suiting a given situation. But none of these could provide cure for the following maladies of the modern-day businesses : Intense competition amongst leaders, causing abnormal stress and strain, and the resultant degenerative diseases. Fast-paced depletion of natural resources leading to the gravest threat to our ecosystem. Frequent recessions of the economy, leading to : lay-offs, retrenchments, and plant closings. The absence of meaning and purpose in the lives of organizational members. The business world is in need of a panacea, in the form of Exemplary Leadership that can eradicate above ills. Only Spiritual Leadership, based on the universal principles of Spirituality, can provide the hope of rescue. The book provides the quintessential qualities of Spiritual Leadership based upon the world’s four major religions (i.e., Hinduism, Christianity, Islam, and Buddhism).

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals.
