*The Great Book of Seattle Sports Lists* Mike Gastineau, Art Thiel, Steve Rudman, 2009-04-28 With loyal fans supporting their major sports teams in the Seahawks (NFL), Mariners (MLB)—plus a rabid fan base for University of Washington jocks—Seattle is a great place for a sports debate. Local sports-radio talker Mike Gastineau teams up with longtime sportswriters Steve Rudman and Art Thiel to bring Seattle sports history to life with this provocative and enjoyable—not to mention debatable—book of lists. They also enlist list contributions by famous players, coaches, and Seattle celebrities including Mike Holmgren, Matt Hasselbeck, Ichiro Suzuki, George Karl, Pearl Jam, Kevin Calabro, Sir Mix-a-Lot, and more.

*The Professor - Grayson Boucher Plus More NW Sports Stories* David Espinoza, 2013-12 This book features Grayson The Professor Boucher - a short skinny boy from Keizer, Oregon. He became an overnight sensation signing a contract with the And 1 Mixtape Tour. He now plays professionally for Ball Up Streetball based in Los Angeles, CA and tours worldwide. How about Noah Torres from Moses Lake, Washington? This young man dealt with twelve fractures in his skull along with more medical issues. Noah is a miracle kid who God kept alive for a reason. Also, Brooke Chuhlantseff from Salem, Oregon, who as a freshman in high school captured a district championship title in the 1500 meter run - she has a strong vision of the Olympic Trials. All eight stories in this book are unique and will leave you inspired.

*Forgotten Stories That Are Unforgettable* Bob Boerigter, 2021-07-31 Forgotten Stories That Are Unforgettable are a series of essays about sports at Northwestern College in Orange City, Iowa. Many games, events and moments from the 1960's through the 1980's are recounted and will bring back memories for Red Raider fans. The stories of the Singing Raiders, the Forgotten Footballs, the Unexpected Student and the Last Dance in the Old Barn are among the essays any fan of small college sports will enjoy.

**Muscle and Manliness** Axel Bundgaard, 2005-07-11 Axel Bundgaard has produced a meaningful work on the important but little-told history of interschool athletics, exploring the introduction and nature of sport in the controlled environment of the American boarding school. Beginning in the late eighteenth century, American educators looked to the English public school as the educational archetype for producing good men, good Christians, and good leaders. The British incorporation of sport into the process of education, however, took root only slowly in the United States, where it seemed alien to Puritan values extolling hard work and deploring play as wasted time. Only when educators were convinced that sport was an essential tool in the process of raising the next generation by building character, team spirit, and leadership did the informal physical play initiated by students in early schools begin to evolve toward the highly organized, school-sponsored sports of today. Using archival material from several eastern boarding schools founded in the eighteenth and nineteenth centuries, Bundgaard traces this process from its beginnings in the muscular Christianity prevailing in the boarding schools of Victorian England—most notably Rugby. There, athletics and the prefect system older boys shaping the manners and morals of younger ones were used to mold youth into Christian gentlemen, and it was believed that the seeds of future military victories were planted on the school playing fields. Bundgaard shows how this model of sport and character building was gradually absorbed into the classical curricula of private education in America, and then continues to chronicle the dramatic changes in this model through the first decade of the twentieth century, as educational philosophies evolved and an ideal of physical vigor and conduct befitting a gentleman emerged. Drawing on archival sources at Groton, Andover, Exeter, St. Paul's Suffield, Williston, Woodberry Forest, and Worcester Academy interviews, personal communications, school newspapers, and histories of various institutions Bundgaard provides a new critical perspective on the evolution of play and sports for schoolboys. This book will stimulate research on the broader subject of American secondary school athletics and pique the interest of sport historians, educators, and a general audience.

**Northwestern Wildcat Football** Larry LaTourette, 2005-08 Their program was once regarded as a powerhouse, but 25 years ago the Northwestern University football team set records for futility. Defying nearly all expectations, the Wildcats experienced a rebirth in 1995 and have been surprising the college football world since. Northwestern Wildcat Football describes in detail the team's first games in the 19th century, the Wildcats' title runs in the 1930s, the career of NU legend Otto Graham, the 1949 Rose Bowl championship, the era of Ara Parseghian, the woes of the '70s and '80s, and Northwestern's return to football prominence in the past decade. From their beginning as one of the earliest college teams in the Midwest to the recent series of Big Ten championships, the Northwestern Wildcats have clawed their way to claim 8 conference titles, 36 All-Americans, and victory in some of the most thrilling college football games ever played.

**Sport Policy and Governance** Neil King, 2009-04-09 Sport Policy and Governance: Local Perspectives is the first detailed study of the politics of sport policy at the local authority level of governance. In focusing on the local level, the book recognises that the extent to which we benefit from public policy is a result of where we live. Taking the city of Liverpool as its core case study, the author investigates the changing contours of sport policy from the inception of the service area in the 1970s through the economic and political turbulence of the 1980s to the year of European Capital of Culture 2008. As the book gives centre stage to the period since 1997, the changing parameters of local sport policy are located within New Labour priorities around elite sport development and the instrumental uses of sport to deliver social policy goals. Written in a clear and accessible style, this book: Traces the evolution of the relationship between central government policy priorities and local sport policy and practice. Provides a political analysis of sport policy that foregrounds competition between differing interests in a context of scarce resources. Explores relationships between local authority policy for sport and policy relating to education, health, land-use planning and community regeneration. Investigates the organisational and funding contexts in which sport policy actors formulate and implement policy. Assesses the strategies utilised by sport policy actors in pursuing their interests. Theorises contemporary sport policy processes and establishes parameters for future research. Sport Policy and Governance: Local Perspectives is essential reading for anyone who is studying or teaching sport-related degree programmes, researching public policy, or who is a practitioner or policy-maker in the sport sector.

**Sports Journalism** Patrick S. Washburn,Chris Lamb,2020-07-01 Patrick S. Washburn and Chris Lamb tell the full story of the past, the present, and to a degree, the future of American sports journalism. Sports Journalism chronicles how and why technology, religion, social movements, immigration, racism, sexism, social media, athletes, and sportswriters and broadcasters changed sports as well as how sports are covered and how news about sports are presented and disseminated. One of the influential factors in sports coverage is the upswing in the number of women sports reporters in the last forty years. Sports Journalism also examines the ethics of sports journalism, how sports coverage frequently has differed from that of non-sports news, and how the internet has spawned a set of new ethical issues.
