Contemplating Art Jerrold Levinson, 2006-10-05 *Contemplating Art* is a compendium of writings from the last ten years by one of the leading figures in aesthetics, Jerrold Levinson. The book contains twenty-four essays and is divided into seven parts. The first is about issues relating to art in general, not specific to one art form. The second and longest part of the book is about philosophical problems specific to music. The third part focuses on pictorial art, and the fourth on interpretation, in particular the interpretation of literature and literary language. In the remaining parts of the book Levinson discusses aesthetic properties, issues in historical aesthetics, humour, and intrinsic value. These lively essays, rigorous but accessible, will appeal not only to philosophers but also to musicologists, literary theorists, art critics, and reflective lovers of the arts.

New Jersey Noir Jonathan Safran Foer,Bradford Morrow,Bill Pronzini,Robert Pinsky,Edmund White,S. J. Rozan,2011-11-01 Discover the darker side of the Garden State with this anthology of gritty mystery stories. Akashic Books continues its award-winning series of original noir anthologies, launched in 2004 with Brooklyn Noir. Each volume is compromised of all-new stories, each one set in a distinct location within the geographical area of the book. In New Jersey Noir, a star-studded cast of authors sifts through the hidden dirt of the Garden State. Featuring brand-new stories (and a few poems) by Joyce Carol Oates, Jonathan Safran Foer, Robert Pinsky, Edmund White & Michael Carroll, Richard Burgin, Pulitzer Prize-winner Paul Muldoon, Sheila Kohler, C.K. Williams, Gerald Stern, Lou Manfredo, S.A. Solomon, Bradford Morrow, Jonathan Santlofer, Jeffrey Ford, S.J. Rozan, Barry N. Malzberg & Bill Pronzini, Hirsh Sawhney, and Robert Arellano. Praise for New Jersey Noir “Oates’s introduction to Akashic’s noir volume dedicated to the Garden State, with its evocative definition of the genre, is alone worth the price of the book . . . Highlights include Lou Manfredo’s “Soul Anatomy,” in which a politically connected rookie cop is involved in a fatal shooting in Camden; S.J. Rozan’s “New Day Newark,” in which an elderly woman takes a stand against two drug-dealing gangs; and Jonathan Santlofer’s “Lola,” in which a struggling Hoboken artist finds his muse . . . Poems by C.K. Williams, Paul Muldoon, and others—plus photos by Gerald Slota—enhance this distinguished entry.” —Publishers Weekly “It was inevitable that this fine noir series would reach New Jersey. It took longer than some readers might have wanted, but, oh boy, was it worth the wait . . . More than most of the entries in the series, this volume is about mood and atmosphere more than it is about plot and character . . . It should go without saying that regular readers of the noir series will seek this one out, but beyond that, the book also serves as a very good introduction to what is a popular but often misunderstood term and style of writing.” —Booklist, Starred Review “A lovingly collected assortment of tales and poems that range from the disturbing to the darkly humorous.” —Shelf Awareness

Introduction to Semantics Thomas Ede Zimmermann,Wolfgang Sternefeld,2013-05-28 This textbook helps undergraduate students of language and linguistics taking their first steps in one of the core areas of grammar, introducing them to the basic ideas, insights, and techniques of contemporary semantic theory. Requiring no special background knowledge, the book starts with everyday observations about word meaning and use and then highlights the role of structure in the analysis of the meanings of phrases and clauses, zooming in on the fascinating and vexing question of how speakers manage to meaningfully communicate with sentences and texts they have never come across before. At the same time, the reader becomes acquainted with the modern, functionalist characterization of linguistic meaning in terms of reference (extension) and information (intension), and learns to apply technical tools from formal logic to analyzing the meaning of complex linguistic expressions as being composed by the meanings of

their parts. Each of the nine main chapters contains a variety of exercises for self-study and classroom use, with model solutions in the appendix. Extensive English examples provide ample illustration.

Mansfield Forbes and His Cambridge Hugh Carey,1984-10-18 This affectionate portrait of Mansfield Forbes, illustrated with photographs, reconstructs Forbes' life, and explores his other interests, which included Scottish domestic architecture and modern art. Mr Carey also uncovers alternative aspects of that vanished but still influential Cambridge, from which many prominent figures have come and gone.

Non-discrimination in Tax Treaty Law and World Trade Law Kasper Dziurdź,2019-07-23 Non-discrimination is a central obligation under both tax treaty and trade law. However, in seeking to strike a balance between national and international interests, its application differs in the two areas of practice. This deeply researched and authoritative work, which explains the policy issues and how non-discrimination analysis works, provides a comprehensive review of non-discrimination rules in WTO and tax treaty law, combining a critical commentary on case law with proposals for an innovative concept for solving cases of discrimination in tax treaty law. Among the practical issues affecting non-discrimination examined in detail are the following: implications that can be drawn from the concepts of non-discrimination under WTO law and Article 24 of the OECD Model; direct and indirect discrimination and analysis of comparability in WTO law and tax treaty law; the MFN and NT rules under the GATT and GATS; the meaning of 'likeness' and 'less favourable treatment'; claiming non-discriminatory tax treatment before tax administrations and courts under a tax treaty; justification of measures against harmful tax competition, low taxation and hybrid mismatch arrangements; thin capitalisation rules, progressive tax rates, foreign losses, group taxation and relief from juridical and economic double taxation under Article 24 of the OECD Model; and integrating a justification defence into any stage of a non-discrimination analysis. The author establishes to what extent formal, substantive and subjective approaches may be applied in a non-discrimination analysis, providing the reasons for the approaches taken. A two-step comparability procedure is applied to selected cases of potential tax discrimination, demonstrating how policy arguments can be addressed under Article 24 of the OECD Model. Drawing on over a half-century of case law in both areas of practice, this comprehensive study of the non-discrimination rules under WTO law and international tax law will be invaluable in systematically solving cases of tax discrimination under Article 24 of the OECD Model and putting forward arguments at any stage of a WTO analysis. Policymakers will benefit from the author's clear explanation of how national law should comply with international obligations. Also, taxpayers' advisers will proceed confidently in claims of tax treaty discrimination, and academics will discover an incomparable overview and analysis of anti-discrimination rules in international trade law and double taxation conventions.
