Opening Closed-Guard: the Origins of Jiu-Jitsu in Brazil robert drysdale,2020-09-26 What are the origins of Brazilian Jiu-Jitsu? Is it merely a by-product--a rebel offspring--of Judo? What was the nature and content of the art that Mitsuyo Maeda, a.k.a. Count Koma, and other Japanese were teaching in the Amazon? Was it Judo? Jiu-Jitsu? His own personal fight-tested style, built on a foundation of Judo and informed by his dozens and dozens of matches around the world? What was the bridge between the art he learned at the Kodokan and the Brazilian style that claims him as its godfather: a style now practiced by millions worldwide (and growing bigger every day)? Should Maeda even be at the center of this story? And what role did Carlos and Hélio Gracie play in all of this? Did they invent BJJ? Would BJJ exist without them? And, if so, what--if anything--did they create? And why does this history matter to the average BJJ practitioner today? Any history possesses its official narrative with its own favorite characters and events. But true history is seldom simple, and more oft than not the real story is far richer than the popular version that is widely repeated and handed down. The history of BJJ and MMA in Brazil doesn't escape this paradigm. The recent renaissance in research in regards to the history of martial arts in Brazil led to the author's curiosity, which in turn led to the documentary Closed-Guard: The Origins of Jiu-Jitsu in Brazil, which in turn led to this book. This manuscript started as an account of the author's recollections of the film's production, and quickly grew into much more. Opening Closed Guard: The Story Behind the Film contains conclusions, analysis, and historical interpretations, as well as the story behind the documentary itself and the many challenges it faced along the way. It contains interviews, research articles pertaining to the history of Jiu-Jitsu in Brazil, as well as the author's own take on the current state of BJJ and MMA. Finally, it is the story of the author rediscovering his love for Jiu-Jitsu in a completely new and unexpected way. ABOUT THE AUTHOR Born in the US from a Brazilian mother and American father, and having spent his life between these two countries, Robert Drysdale remains the only American competitor to have ever won both the IBJJF and ADCC World Championships, the two most prestigious tournaments in all of Jiu-Jitsu. Furthermore, he has also cultivated a career in MMA, both as a fighter and as a coach. The author also holds a Bachelor's Degree in History, as well as a long-held passion for this discipline. He lives in Las Vegas, Nevada, where he teaches Brazilian Jiu-Jitsu and MMA. He is also the co-founder of the international team Zenith Jiu-Jitsu, and is the father of two girls.

Opening Minds Peter Johnston,2023-10-10 Introducing a spelling test to a student by saying, 'Let' s see how many words you know,' is different from saying, 'Let's see how many words you know already.' It is only one word, but the already suggests that any words the child knows are ahead of expectation and, most important, that there is nothing permanent about what is known and not known. Peter Johnston Grounded in research, Opening Minds: Using Language to Change Livesshows how words can shape students' learning, their sense of self, and their social, emotional and moral development. Make no mistake: words have the power to open minds – or close them. Following up his groundbreaking book, Choice Words, author Peter Johnston continues to demonstrate how the things teachers say (and don't say) have surprising consequences for the literate lives of students. In this new book, Johnston shows how the words teachers choose can affect the worlds students inhabit in the classroom. He explains how to engage children with more productive talk and how to create classrooms that support students' intellectual development, as well as their development as human beings.

Opening Time Bruce W. Powe,2016-12-31 We are at the beginning of a great new cycle, a second Renaissance of technology and mind, spirit and creative energy. It's the time when the noosphere experience evoked by Teilhard de Chardin is coming into being James Joyce spoke of "closing time" in Finnegans Wake. Leonard Cohen wrote a song with this title. The philosopher Norman O. Brown wrote a philosophical-poetic work called Closing Time in 1973 in which he proposed the end of one era and the beginning of new mysteries. He did so by combining Joyce and Vico. Our work is a reply and an extension of theirs. But we are contemplating and exploring openings. What does it mean to stand in the open of the noosphere of new consciousness? What does it mean to be at the opening of a cycle of being and becoming? Opening Time is a threshold process that combines text, images, sound, delivery agency, and hypertext in a bold experiment that explores the nature of openings in ideas, stories, pictures, music, and the internet. It is a collaborative process that seeks to at once evoke our crux, and also to engage users in a new kind of electronic platform.

Opening to God David G. Benner, 2021-04-13 Most Christians want to experience spiritual transformation. But many are frustrated by the limited progress of our spiritual self-improvement efforts. We find our praying burdened by a sense of obligation and failure. But prayer is not merely something we do; prayer is what God does in us. Prayer is not just communication with God—it is communion with God. As we open ourselves to him, God does the spiritual work of transformation in us. Spiritual director and psychologist David Benner invites us to discover openness to God as the essence of prayer, spirituality, and the Christian life. Prayer is far more than saying words to God; all of life can be prayer when offered to God in faith and with openness. Using the four movements of *lectio divina*, Benner explores prayer as attending, pondering, responding, and being. Along the way he opens us to a world of possibilities for communion with God: praying with our senses, with imagination, with music and creativity, in contemplation, in service, and much more. Learn how prayer can be a way of living. Move beyond words to become not merely someone who prays, but someone whose entire life is prayer in union with God. This expanded edition includes a new afterword and an experiential guide with questions for individual reflection or group discussion.

Opening Up China's Markets of Crude Oil and Petroleum Products Hong Sheng, Pu Qian, 2015-01-26 This book provides a comprehensive and unique perspective on China's oil and natural gas industry and a practical roadmap to reforms. The book begins with a thorough examination of the status quo of China's oil and natural gas industry. It explores the evolution, transition, and characteristics of the oil industry of China, and unveils the problems that caused ineffectiveness of the oil and petroleum products market, namely, the dominance of monopoly enterprises, price regulation, and restriction to entry. It provides an insightful analysis on the efficiency losses and welfare losses the monopoly system brings to the society as the current system distorts income distribution, violates the principle of fairness, and stands against the market rules and the legal pillars of the Chinese constitution. This book argues that the monopoly system in the oil industry of China results in a variety of toxic influences and that reforms are needed. It then offers a roadmap to reforms in the oil and petroleum products market in an incremental fashion. Opening Doors to Quality Writing Bob Cox,2016-08-08 In *Opening Doors to Famous Poetry and Prose*, Bob Cox introduced teachers to engaging strategies which use literary heritage texts as the stimulus for excellent learning. This new companion book, *Opening Doors to Quality Writing*, for ages 6 to 9, puts the focus on pupils producing quality writing - developing their literacy skills and a love of reading in the process. In the course of his educational consultancy work, Bob has seen many teachers successfully use the scope and depth which literature can offer to inspire high standards, mastery learning and, above all, a love of language in its many forms. Schools using the 'opening doors' strategies told Bob they led to: More teacher empowerment and confidence. More knowledge building for pupils and teachers. A growing confidence with literature, including poetry. Planning from the top becoming a norm. Planning for mastery learning becoming a norm. Improved comprehension skills. Improved quality writing and associated excitement. They also asked Bob for further examples of inspiring, quality texts, and more ways in which pupils of all abilities can access them. Bob was only too happy to oblige. These 15 units of work cover poetry and prose: each unit provides exciting stimulus material, creative ideas for writing projects, and differentiation and support strategies, meaning all pupils can achieve the quality writing objectives. All the units should help teachers facilitate understanding of the challenging texts and maximise the huge potential for quality writing. Discover a multitude of ready-to-use ideas, inspired by classic literature and great writers' works, along with plenty of new strategies and advice. The *Opening Doors to Quality Writing* series won the 2017 Education Resources Awards in the Educational Book Award category. Judges' Comments: Described as two gems which provide innovative approaches to exploring quality texts as stimuli for children's writing. Opening Up Education Toru Iiyoshi,M.S. Vijay Kumar,2010-09-24 Experts discuss the potential for open education tools, resources, and knowledge to transform the economics and ecology of education. Given the abundance of open education initiatives that aim to make educational assets freely available online, the time seems ripe to explore the potential of open education to transform the economics and ecology of education. Despite the diversity of tools and resources already available—from well-packaged course materials to simple games, for students, self-learners, faculty, and educational institutions—we have yet to take full advantage of shared knowledge about how these are being used, what local innovations are emerging, and how to learn from and build on the experiences of others. *Opening Up Education* argues that we must develop not only the technical capability but also the intellectual capacity for transforming tacit pedagogical knowledge into commonly usable and visible knowledge: by providing incentives for faculty to use (and contribute to) open education goods, and by looking beyond institutional boundaries to connect a variety of settings and open source entrepreneurs. These essays by leaders in open education describe successes, challenges, and opportunities they have found in a range of open education initiatives. They approach—from both macro and micro perspectives—the central question of how open education tools, resources, and knowledge can improve the quality of education. The contributors (from leading foundations, academic institutions, associations, and projects) discuss the strategic underpinnings of their efforts first in terms of technology, then content, and finally knowledge. They also address the impact of their projects, and how close they come to achieving a vision of sustainable, transformative educational opportunities that amounts to much more than pervasive technology.
