Megatron arrived on planet Earth—has always been a mystery . . . until now. I Killed Optimus Prime: How One Man Single-Handedly Destroyed the World's Most Formidable Transformer... and Lived to Tell the Tale. Ron Friedman, 2019-03-06 Only one man could write I Killed Optimus Prime because he did, in fact, kill off the last-born of the original Thirteen Transformers who remains the superhero leader of the Autobots, those sentient self-configuring modular extraterrestrial robotic lifeforms which have become global cultural icons. In this book, Ron Friedman--widely known as the most prolific television writer in the history of the medium--shares the intimate details of a life and career that started with him cracking jokes to

avoid death-by-schoolyard-bullies on the dusty streets of Weirton, West Virginia, took him through the world of professional architecture and finally through the gilded gates of every major Hollywood studio as the creative force behind nearly every hit TV series of his generation. His scripts for shows like FANTASY ISLAND, CHICO & THE MAN, STARKY & HUTCH, ALL IN THE FAMILY, HAPPY DAYS are among more than 700 hours of his produced credits. With more than 40 feature film screenplays to his credit, Ron is a recognized screenwriting expert who has actually been there and done that. A frequent collaborator and close friend of the late Marvel Comics genius Stan Lee, Ron is a multiple Emmy nominee most well known for his animation work, having created the characters and developed the material for major projects like G.I. JOE, THE MARVEL ACTION HOUR, THE TRANSFORMERS: THE MOVIE, IRON MAN, and THE FANTASTIC FOUR. This book is far more than a mere memoir and is a must-read for anyone working toward a Hollywood writing career. As a veteran Professor of Screenwriting at Chapman University's Dodge College of Film and Media Arts and as Senior Judge at The Los Angeles International Screenplay Awards, Friedman's insights into the craft and profession of screenwriting

are pure gold. Read what he has to say here and you won't need to bother with all the self-promoting so-called experts (most of whom have never written or sold a single script!) have to say. Woven throughout this fast-paced tale are plenty of inside the studio stories and revelations about the personal lives of celebrities, all recounted with dazzling wit and the ribald candor (can you handle the truth?) that will have you either gasping in shock or on your knees with laughter. *I Killed Optimus Prime* is far more than a breezy Hollywood read. It's the stuff of true genius from a Hollywood veteran who pulls out all the stops, lets it all hang out...and isn't worried about tucking any of it back in. **WARNING:** before you open this book, buckle your seatbelt. This is one very WILD RIDE!

Transformers: Exiles Alex Irvine, 2014-06-11 The epic battles between Optimus Prime and Megatron have long thrilled Transformers fans. But these two giants weren't always great leaders and bitter foes. This new novel continues the electrifying saga that started with Transformers: Exodus, unveiling the origins of the conflict—the explosive events that unfolded before Optimus and Megatron arrived Earthside, forever altering the destiny of their kind. Once allies, Optimus and Megatron are now enemies in a civil war. To prevent Cybertron from falling into Megatron's hands, Optimus jettisons the planet's heart, the AllSpark, into space, then sets out to find it with Megatron hot on his heels. Optimus is determined to defeat Megatron, bring the AllSpark home, and restore Cybertron to its former glory. But a saboteur lurks aboard Optimus's spaceship, and ahead lie lost colonies, some of them hostile. Optimus needs help of the highest caliber, but from whom?

Heroes such as Solus, Nexus, and Vector Prime are just names from make-believe stories of long ago. Or are they? Maybe it's time for Optimus Prime to find out. Maybe it's the only chance he has to vanquish mighty Megatron.
