She needs new shoes, but doesn't really mind because she loves the soft, silky feel of the dirt road beneath her bare feet. She's a good artist, too, even if she has to make her own art supplies. Life only looks brighter when Miss Violet announces the school will have a Shoebox Social to help raise funds for new art materials. But when what should be a festive occasion is threatened by prejudice and cruelty, Delly finds out that one must stay true to oneself to successfully navigate life's joys and sorrows. From Trinka Hakes Noble, the author of *The Scarlet Stockings Spy* and *The Last Brother*, comes the story of a young girl who learns the most precious things in life are not measured in dollars and cents but by the warmth of one's heart. An Orange in January Dianna Hutts Aston,2007-10-18 Plump, juicy oranges are one of the great pleasures of winter—and one that is usually taken for granted. Now here's an eloquent, celebratory picture of how those oranges have found their way to the grocery store shelves, and then into kids—tummies! With vivid, glowing paintings, this unique picture book offers a poetic lesson about a plant's growth cycle and about the produce industry. We follow an orange from blossom to ripe fruit, from tree to truck to market . . . and into the hands of a boy who shares this treat with his friends on the playground, —so that everyone could taste the sweetness of an orange in January. In the tradition of *Apple Farmer Annie* and *Red Leaf, Yellow Leaf*, this is a satisfying, celebratory look at an everyday object with a remarkable life story.

*The Perfect Orange* Frank P. Araujo,1994 Inspiring gentle folktale set in Ancient Ethiopia. Breathtaking watercolors dramatize ancient Ethiopia's contrasting pastoral charm and majesty. Includes glossary of Ethiopian terms and pronunciations. Araujo's straightforward style is well suited to the simplicity of the story. Li's delicate watercolors mesh well with the text ... illustrations sweep across the pages. The hyena ... sparkles with mischief. -- School Library Journal

**The Friendly Orange Glow** Brian Dear,2018-10-02 At a time when Steve Jobs was only a teenager and Mark Zuckerberg wasn't even born, a group of visionary engineers and designers—some of them only high

school students—in the late 1960s and 1970s created a computer system called PLATO, which was light-years ahead in experimenting with how people would learn, engage, communicate, and play through connected computers. Not only did PLATO engineers make significant hardware breakthroughs with plasma displays and touch screens but PLATO programmers also came up with a long list of software innovations: chat rooms, instant messaging, message boards, screen savers, multiplayer games, online newspapers, interactive fiction, and emoticons. Together, the PLATO community pioneered what we now collectively engage in as cyberculture. They were among the first to identify and also realize the potential and scope of the social interconnectivity of computers, well before the creation of the internet. PLATO was the foundational model for every online community that was to follow in its footsteps. The Friendly Orange Glow is the first history to recount in fascinating detail the remarkable accomplishments and inspiring personal stories of the PLATO community. The addictive nature of PLATO both ruined many a college career and launched pathbreaking multimillion-dollar software products. Its development, impact, and eventual disappearance provides an instructive case study of technological innovation and disruption, project management, and missed opportunities. Above all, The Friendly Orange Glow at last reveals new perspectives on the origins of social computing and our internet-infatuated world.
