Chris and the Magic Shirt Eric Gibbons,2008-09-01 An origami story of Pirates, Monsters, Treasure & Magic This is an Origami-story. A tale told without illustrations. Parts of the story are suggested by a sequence of folded figures. They change from one to another as the story progresses. There is no need to buy expensive Origami paper to fold along; some printer paper or newspaper will

work just fine. This story is one that I have told and embellished over the years to many children as I teach art. What started as a simple gimmick has become a fully developed story. It is magical the way one folded figure becomes another and how it captures the mind's eye. This is NOT your typical children's book filled with drawings for passive reading. This book engages with a story and simple diagrams to fold along with the tale. The book concludes with follow-up lesson plans for teachers and parents for hours of additional fun and discovery!
