Fabrigami Jill Stovall, Scott Wasserman Stern, Florence Temko, 2013-12-24 Fold decorative origami objects out of cloth with this easy-to-use origami book. Fabrigami is the Asian art of folding fabrics to create three-dimensional objects ranging from the practical to the whimsical. Like paper, there are countless beautiful fabric designs to choose from, only fabric has the virtue of being extremely durable. Fabrigami began as origami legend Florence Temko's final project. Everyone knows that origami is the art of paper folding, but Temko had begun experimenting with folding fabric to make objects that are just as beautiful but more lasting than paper. Sadly, Temko passed away before the book was completed, but her collaborator, Jill Stovall, continued their work. Now, Stovall—with the help of Scott Stern, a rising young star of origami—brings Fabrigami to print for everyone to use and enjoy. This origami book begins by presenting instructions on how to treat fabric so it holds a shape when folded. Then Stovall shares a series of fun craft projects with simple origami-style diagrams that you can use to make a range of lovely objects. Stiffening the fabric requires some practice, but the folds are all easy enough to be considered origami-for-kids projects and are a great way to learn origami. Cloth origami projects include: Fan-tastic Fold Earrings Evening Wine Coat Florence's Hexagon Box Cloth Kimono Card Pleated Peacock

Adult Origami Nick Robinson, 2004-09 This book reaches the parts that other origami books don't, plumbing previously uncharted depths, uniting the yin and yang bedfellows of an ancient Japanese artform and 21st century toilet humour. Readers who hitherto have only been able to make a humble paper aeroplane, will soon be able to impress their mates down the pub with a jaw-dropping ability to take a scrap of chaste, virgin paper and fashion something that is both artistic and crude. Working through a total of 16 projects, the cultural importance of each subject and the inspiration behind it is discussed, while the origami side of things is explained in simple, step-by-step Anglo-Saxon, with evocative line drawings. *Adult Origami* will soon have readers making giant sperm, novelty paper boobies or a fully moving schwanstucker, impressing friends and shocking polite family members everywhere.
