Compendium of Roman History Velleius Paterculus, Augustus, 1924 An imperial historian and an emperor's history. Velleius Paterculus, who lived in the reigns of Augustus and Tiberius (30 BC-AD 37), served as a military tribune in Thrace, Macedonia, Greece, and Asia Minor, and later, from AD 4 to 12 or 13, as a cavalry officer and legatus in Germany and Pannonia. He was quaestor in AD 7, praetor in 15. He wrote in two books Roman Histories, a summary of Roman history from the fall of Troy to AD 29. As he

approached his own times he becomes much fuller in his treatment, especially between the death of Caesar in 44 BC and that of Augustus in AD 14. His work has useful concise essays on Roman colonies and provinces and some effective compressed portrayals of characters. *Res Gestae Divi Augusti*. In his 76th year (AD 13-14) the emperor Augustus wrote a dignified account of his public life and work of which the best preserved copy (with a Greek translation) was engraved by the Galatians on the walls of the temple of Augustus at Ancyra (Ankara). It is a unique document giving short details of his public offices and honors; his benefactions to the empire, to the people, and to the soldiers; and his services as a soldier and as an administrator.

Pots & Plays Oliver Taplin, 2007-10-15 This interdisciplinary study opens up a fascinating interaction between art and theater. It shows how the mythological vase-paintings of fourth-century B.C. Greeks, especially those settled in southern Italy, are more meaningful for those who had seen the myths enacted in the popular new medium of tragedy. Of some 300 relevant vases, 109 are reproduced and accompanied by a picture-by-picture discussion. This book supplies a rich and unprecedented resource from a neglected treasury of painting.

Eryxias Plato, 2022-09-15 *Eryxias* by Plato is a spurious Socratic dialogue. It is set in the Stoa of Zeus Eleutherios, and features Socrates in conversation with Critias, Eryxias, and Erasistratus (nephew of Phaeax). The dialogue concerns the topic of wealth and virtue. The position of Eryxias that it is good to be materially prosperous is challenged when Critias argues that having money is not always a good thing. Socrates then shows that money has only a conventional value.

Vertebrate Paleontology in Utah David D. Gillette, 1999 The 52 papers in this vary in content from summaries or state-of-knowledge treatments, to detailed contributions that describe new species. Although the distinction is subtle, the title (*Vertebrate Paleontology in Utah*) indicates the science of paleontology in the state of Utah, rather than the even more ambitious intent if it were given the title “*Vertebrate Paleontology of Utah*” which would promise an encyclopedic treatment of the subject. The science of vertebrate paleontology in Utah is robust and intense. It has grown prodigiously in the past decade, and promises to continue to grow indefinitely. This research benefits everyone in the state, through Utah’s museums and educational institutions, which are the direct beneficiaries.

Woldman's Engineering Alloys John P. Frick, 2000-01-01 Annotation New edition of a reference that presents the values of properties typical for the most common alloy processing conditions, thus providing a starting point in the search for a suitable material that will allow, with proper use, all the necessary design limitations to be met (strength, toughness, corrosion resistance and electronic properties, etc.) The data is arranged alphabetically and contains information on the manufacturer, the properties of the alloy, and in some cases its use. The volume includes 32 tables that present such information as densities, chemical elements and symbols, physical constants, conversion factors, specification requirements, and compositions of various alloys and metals. Also contains a section on manufacturer listings with contact information. Edited by Frick, a professional engineering consultant. Annotation c. Book News, Inc., Portland, OR (booknews.com).

Guide to Greece Pausanias,1984-08-07 The second volume of the time-honored travel book about Greece, written 2,000 years ago Written by a Greek traveller in the second century ad for a principally Roman audience, Pausanias' Guide to Greece is a comprehensive, extraordinarily literate and well-informed guidebook for tourists of the age. Concentrating on buildings, tombs and statues, it also describes in detail the myths, religious beliefs and historical background behind the monuments considered. In doing so, it preserves Greek legends, quotes classical literature and poetry that would otherwise have been lost, and offers a fascinating depiction of the glory of classical Greece immediately before its third-century decline. This, the second of two volumes, explores Southern Greece including Sparta, Arkadia, Bassae and the games

at Olympia. An inspiration to travellers and writers across the ages, including Byron and Shelley, it remains one of the most influential of all travel books. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines.
