*Music, Politics, and Violence* Susan Fast,Kip Pegley,2012-10-30 Music and violence have been linked since antiquity in ritual, myth, and art. Considered together they raise fundamental questions about creativity, discourse, and music's role in society. The essays in this collection investigate a wealth of issues surrounding music and violence—issues that cross political boundaries, time periods, and media—and provide cross-cultural case studies of musical practices ranging from large-scale events to regionally specific histories. Following the editors' substantive introduction, which lays the groundwork for conceptualizing new ways of thinking about music as it relates to violence, three broad themes are followed: the first set of essays examines how music participates in both overt and covert forms of violence; the second section explores violence and reconciliation; and the third addresses healing, post-memorials, and memory. Music,

Politics, and Violence affords space to look at music as an active agent rather than as a passive art, and to explore how music and violence are closely—and often uncomfortably—entwined. CONTRIBUTORS include Nicholas Attfield, Catherine Baker, Christina Baade, J. Martin Daughtry, James Deaville, David A. McDonald, Kevin C. Miller, Jonathan Ritter, Victor A. Vicente, and Amy Lynn Wlodarski.

*Desiring Canada* Patricia Cormack, James F. Cosgrave, 2013-01-01 This lively, engaging book investigates the relationship between some of our more beloved popular expressions of national identity and the extent to which the interests of the state appeal to the pleasures of citizens, thus shaping our understanding of what it means to be Canadian.

*101 Life Skills Games for Children* Bernie Badegruber, 2011-01-01 How do you teach tolerance, self-awareness, and responsibility? How can you help children deal with fear, mistrust, or aggression? Play a game with them! Games are an ideal way to help children develop social and emotional skills; they are exciting, relaxing, and fun. 101 LIFE SKILLS GAMES FOR CHILDREN: LEARNING, GROWING, GETTING ALONG (Ages 6-12) is a resource that can help children understand and deal with problems that arise in daily interactions with other children and adults. These games help children develop social and emotional skills and enhance self-awareness. The games address the following issues: dependence, aggression, fear, resentment, disability, accusations, boasting, honesty, flexibility, patience, secrets,

conscience, inhibitions, stereotypes, noise, lying, performance, closeness, weaknesses, self confidence, fun, reassurance, love, respect, integrating a new classmate, group conflict. Organized in three main chapters: (I-Games, You-Games and We-Games), the book is well structured and easily accessible. It specifies an objective for every game, gives step-by-step instructions, and offers questions for reflection. It provides possible variations for each game, examples, tips, and ideas for role plays. Each game contains references to appropriate follow-up games and is illustrated with charming drawings.

**Satire TV** Jonathan Gray, Jeffrey P. Jones, Ethan Thompson, 2009-04 This work examines what happens when comedy becomes political, and politics become funny. A series of original essays focus on a range of programmes, from 'The Daily Show' to 'South Park'.

Pervasive Games Markus Montola, Jaakko Stenros, Annika Waern, 2009-06-12 Games are no longer confined to card tables and computer screens. Emmy award winning games like The Fallen Alternate Reality Game (based on the ABC show) or The Lost Experience (based on the CBS hit show)- are pervasive games in that they blur traditional boundaries of game play. This book gives game designers the tools they need to create cutting edge pervasive games.

*Arts of Engagement* Dylan Robinson, Keavy Martin, 2016-07-15 Arts of Engagement focuses on the role that music, film, visual art, and Indigenous cultural practices play in and beyond Canada's Truth and Reconciliation Commission on Indian Residential Schools. Contributors here examine the impact of aesthetic and sensory experience in residential school history, at TRC national and community events, and in artwork and exhibitions not affiliated with the TRC. Using the framework of "aesthetic action," the essays

expand the frame of aesthetics to include visual, aural, and kinetic sensory experience, and question the ways in which key components of reconciliation such as apology and witnessing have social and political effects for residential school survivors, intergenerational survivors, and settler publics. This volume makes an important contribution to the discourse on reconciliation in Canada by examining how aesthetic and sensory interventions offer alternative forms of political action and healing. These forms of aesthetic action encompass both sensory appeals to empathize and invitations to join together in alliance and new relationships as well as refusals to follow the normative scripts of reconciliation. Such refusals are important in their assertion of new terms for conciliation, terms that resist the imperatives of reconciliation as a form of resolution. This collection charts new ground by detailing the aesthetic grammars of reconciliation and conciliation. The authors document the efficacies of the TRC for the various Indigenous and settler publics it has addressed, and consider the future aesthetic actions that must be taken in order to move beyond what many have identified as the TRC's political limitations.

*Uncertainty in Games* Greg Costikyan, 2015-01-30 How uncertainty in games—from Super Mario Bros. to Rock/Paper/Scissors—engages players and shapes play experiences. In life, uncertainty surrounds us. Things that we thought were good for us turn out to be bad for us (and vice versa); people we thought we knew well behave in mysterious ways; the stock market takes a nosedive. Thanks to an inexplicable optimism, most of the time we are fairly cheerful about it all. But we do devote much effort to managing and ameliorating uncertainty. Is it any wonder, then, asks Greg Costikyan, that we have taken this aspect of our lives and transformed it culturally, making a series of elaborate constructs that subject us to

uncertainty but in a fictive and nonthreatening way? That is: we create games. In this concise and entertaining book, Costikyan, an award-winning game designer, argues that games require uncertainty to hold our interest, and that the struggle to master uncertainty is central to their appeal. Game designers, he suggests, can harness the idea of uncertainty to guide their work. Costikyan explores the many sources of uncertainty in many sorts of games—from Super Mario Bros. and Dungeons & Dragons to Rock/Paper/Scissors, from Monopoly to CityVille, from FPS Deathmatch play to Chess. He describes types of uncertainty, including performative uncertainty, analytic complexity, and narrative anticipation. And he suggests ways that game designers who want to craft novel game experiences can use an understanding of game uncertainty in its many forms to improve their designs.

**Hungry Listening** Dylan Robinson,2020 This highly theoretical work of ethnomusicology is a reclamation of Indigenous ceremonial and artistic practice arguing that the inclusion and appropriation of Indigenous performers in classical music traditions only enriches the settler nation-state. Robinson gives shape to Western musical and aesthetic practices as well as to Indigenous listening practices in order to eschew traditional (Western) forms of musical analysis. Instead, the work argues that new modes of listening and studying reception, emerging out of critical Indigenous studies, are essential to understanding Indigenous musical expression in ways that do not reify the power of the settler state--

**Social Media Go to War** Ralph D. Berenger,2013 Thirty-nine authors from around the world explore the phenomena of citizen journalism, collective action, 'smart mobs,' iconography, and even the

revolutionary music of the Arab Spring in Social Media goes to War: rage, rebellion, and revolution in the age of Twitter. Twenty-eight chapters from senior and junior social media scholars cover war, insurrections, revolutions, and quests for social justice through case studies of Cuba, Georgia, Egypt, India, Iran, Jordan, Thailand, Tunisia, and the United States, where President Obama's social media usage is scrutinized by a former campaign insider. The U.S. Department of Defence's social media policies in time of conflict are reviewed, and social media usage in Wisconsin's budget battle of 2011 is analyzed.--Cover, p. [4]
