**The Art and Archaeology of the Moche** Steve Bourget, Kimberly L. Jones, 2009-06-03 Renowned for their monumental architecture and rich visual culture, the Moche inhabited the north coast of Peru during the Early Intermediate Period (AD 100-800). Archaeological discoveries over the past century and the dissemination of Moche artifacts to museums around the world have given rise to a widespread and continually increasing fascination with this complex culture, which expressed its beliefs about the human and supernatural worlds through finely crafted ceramic and metal objects of striking realism and visual sophistication. In this standard-setting work, an international, multidisciplinary team of scholars who are at the forefront of Moche research present a state-of-the-art overview of Moche culture. The contributors address various issues of Moche society, religion, and material culture based on multiple lines of evidence and methodologies, including iconographic studies, archaeological investigations, and forensic analyses. Some of the articles present the results of long-term studies of major issues in Moche iconography, while others focus on more specifically defined topics such as site studies, the influence of El Niño/Southern Oscillation on Moche society, the nature of Moche warfare and sacrifice, and the role of Moche visual culture in decoding social and political frameworks.

**Pampa Grande and the Mochica Culture** Izumi Shimada, 2009-12-01 Pampa Grande, the largest and most powerful city of the Mochica (Moche) culture on the north coast of Peru, was built, inhabited, and abandoned during the period A.D. 550-700. It is extremely important archaeologically as one of the few pre-Hispanic cities in South America for which there are enough reliable data to reconstruct a model of pre-Hispanic urbanism. This book presents a biography of Pampa Grande that offers a reconstruction not only of the site itself but also of the sociocultural and economic environment in which it was built and abandoned. Izumi Shimada argues that Pampa Grande was established rapidly and without outside influence at a strategic position at the neck of the Lambayeque Valley that gave it control over intervalley canals and their agricultural potential and allowed it to gain political dominance over local populations. Study of the site itself leads him to posit a large resident population made up of transplanted Mochica and local non-Mochica groups with a social hierarchy of at least three tiers.

**Across Patagonia: Travel Memoir** Lady Florence Dixie, 2020-12-17 Across Patagonia is a travel narrative written by Lady Florence Dixie, Scottish writer and feminist. She left her aristocratic life and her children behind in England, and set out to travel, accompanied by her two brothers, her husband, and a family friend who served as a guide. Dixie debated going elsewhere, but chose Patagonia because few Europeans had ever set foot there. Dixie paints a picture of the landscape using techniques reminiscent of the Romantic tradition of William Wordsworth and others, using emotion and physical sensation to connect to the natural world. While she describes the land as uninviting and feared territory, Dixie's actions demonstrate that survival in a wild land requires both strength and agency. During her travels in Patagonia, Dixie is active, hardy, and resilient, rejecting Victorian gender constructs that depicted women as weak and in need of protection.

**Historical Dictionary of Ancient South America** Martin Giesso, 2018-03-12 This second edition of Historical Dictionary of Ancient South America contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and the culture of ancient South America.

**Gendered Labor in Specialized Economies** Sophia E. Kelly, Traci Ardren, 2016-10-03 Prehistoric economic relationships are often presented as genderless, yet mounting research highlights the critical role gendered identities play in the division of work tasks and the development of specialized production in pre-modern economic systems. In Gendered Labor in Specialized Economies, contributors combine the study of gender in the archaeological record with the examination of intensified craft production in prehistory to reassess the connection between craft specialization and the types and amount of work that men and women performed in ancient communities. Chapters are organized by four interrelated themes crucial for understanding the implications of gender in the organization of craft production: craft specialization and the political economy, combined effort in specialized production, the organization of female and male specialists, and flexibility and rigidity in the gendered division of labor. Contributors consider how changes to the gendered division of labor in craft manufacture altered other types of production or resulted from modifications in the organization of production elsewhere in the economic system. Striking a balance between theoretical and methodological approaches and presenting case studies from sites around the world, Gendered Labor in Specialized Economies offers a guide to the major issues that will frame future research on how men's and women's work changes, predisposes, and structures the course of economic development in various societies. Contributors: Alejandra Alonso Olvera, Traci Ardren, Michael G. Callaghan, Nigel Chang, Cathy Lynne Costin, Pilar Margarita Hernández Escontrías, A. Halliwell, Sue Harrington, James M. **The Wari Enclave of Espiritu Pampa** Brian S Bauer, Javier Fonseca Santa Cruz, 2020-12-31 The Wari State was the first expansionistic power to develop in the Andean

highlands. Emerging in the area of modern Ayacucho (Peru) around AD 650, the Wari expanded to control much of the central Andes by the time of their collapse at AD 1000. This book describes the discovery and excavation (2010-2012) of a major new Wari site (Espiritu Pampa), located in the subtropical region of Vilcabamba (Department of Cuzco). While it was long believed that the Wari established trade networks between their highland capital and the Amazonian lowlands, the identification of a large Wari site in the Vilcabamba region came as a surprise to most Wari specialists. This book covers the first three years of excavations at the Wari site of Espiritu Pampa. It describes the identification of a central plaza surrounded by a series of D-shaped structures, that are believed to be the loci of special activities for the Wari. It also describes the contents of more than 30 burials, many of which contained finely crafted silver, gold, bronze and ceramic objects.

**History of the Inca Realm** Maria Rostworowski de Diez Canseco,1999 This classic work of ethnohistorical research has been both influential and provocative in the field of Andean prehistory.

**Andean Archaeology III** William Isbell,Helaine Silverman,2008-02-01 The third volume in the Andean Archaeology series, this book focuses on the marked cultural differences between the northern and southern regions of the Central Andes, and considers the conditions under which these differences evolved, grew pronounced, and diminished. This book continues the dynamic, current problem-oriented approach to the field of Andean Archaeology that began with Andean Archaeology I and Andean Archaeology II. Combines up-to-date research, diverse theoretical platforms, and far-reaching interpretations to draw provocative and thoughtful conclusions.
