Sorting Out the Mixed Economy Amy C. Offner, 2019-09-17
The untold story of how welfare and development programs in the United States and Latin America produced the instruments of their own destruction In the years after 1945, a flood of U.S. advisors swept into Latin America with dreams of building a new economic order and lifting the Third World out of poverty. These businessmen, economists, community workers, and architects went south with the gospel of the New Deal on their lips, but Latin American realities soon revealed unexpected possibilities within the New Deal itself. In Colombia, Latin Americans and U.S. advisors ended up decentralizing the state, privatizing public functions, and launching austere social welfare programs. By the 1960s, they had remade the country's housing projects, river valleys, and universities. They had also generated new lessons for the United States itself. When the Johnson administration launched the War on Poverty, U.S. social movements, business associations, and government agencies all promised to repatriate the lessons of development, and they did so by multiplying the uses of austerity and for-profit contracting within their own

welfare state. A decade later, ascendant right-wing movements seeking to dismantle the midcentury state did not need to reach for entirely new ideas: they redeployed policies already at hand. In this groundbreaking book, Amy Offner brings readers to Colombia and back, showing the entanglement of American societies and the contradictory promises of midcentury statebuilding. The untold story of how the road from the New Deal to the Great Society ran through Latin America, *Sorting Out the Mixed Economy* also offers a surprising new account of the origins of neoliberalism.

Outside the Box Maria Meindl,2011 When poet and broadcaster Mona Gould died in 1999, she left behind thirty-eight boxes of papers. Her war poem, *This Was My Brother*, was still a staple of textbooks and anthologies, yet Mona – well known in her youth – had fallen into obscurity in the 1960s. Born at the very time Mona's career was faltering, Maria Meindl became a captive audience for her grandmother's extravagant stories of the past. Years later, Maria took on the daunting task of sorting through Mona's mountain of papers to create an archive For The University of Toronto's Fisher Rare Book Library. The chaotic state of the boxes reflected Mona's flamboyant and demanding

personality, yet they also drew an important picture of the life of a Canadian freelancer in the twentieth century. Mona had begun publishing poetry and features in newspapers in the 1920s and published three books of poetry in the 1940s. In the 1950s, at a time when many women were retreating from the public sphere, she had a successful radio career. Her later journals and letters recount, in agonizing detail, a downward spiral into self-doubt, poverty, and addiction. Maria soon discovered that the truth of Mona's life was even more fascinating than her stories. Outside the Box brings to life a thinly documented era in Canadian letters through the story of one passionate and conflicted woman. It also charts the journey of an unwilling archivist, coming to terms with family secrets, forgotten history, and the stories that are never told.
