**DesignPOP** Lisa S. Roberts,2014-09-16 DesignPOP is a survey of trends in contemporary furniture and products that reveals how design is not only changing with the times—it is inventing the future. The game-changing projects that compose DesignPOP push the boundaries of our expectations and show us new ideas, new possibilities, and ultimately new products that enrich our lives. The bar has been permanently raised as we enter the next century, and the proliferation of innovative designs continues. New materials and processes are being invented, convention and traditions are constantly being challenged, and sustainability and social responsibility are influencing new directions. Even the definition of designer is changing as the lines between disciplines begin to blur, with new technology from companies like Apple and Dyson radically altering both form and function. Historic boundaries disappear, designers innovate their way through roadblocks, and the twenty-first century is experiencing a design renaissance unparalleled in history. This book showcases a broad variety of these examples: from designs that pioneer a new material or a new production process, or reinvent the use for an existing one, to those that alter our expectations about the way something should look and create a whole new typology, or a thoughtful design added to products that traditionally were only considered for their functionality. It presents work from stars in the field, including Frank Gehry, Zaha Hadid, Marc Newson, Marcel Wanders, Yves Behar, Ronan and Erwan Bouroullec, the Campana brothers, Hella Jongerius, Tord Boontje, Philippe Starck, Karim Rashid, Ron Arad, Ross Lovegrove, Dror Benshetrit, Tokujin Yoshioka, Jasper Morrison, James Dyson, and Jonathan Ive.

**My Crochet Doll** Isabelle Kessedjian,2013-12-12 Make adorable crochet dolls with over fifty unique patterns for clothes and accessories. With a range of clothing and accessory patterns, dress up your doll for home and abroad, from basic underwear and shoes to dresses, dungarees, sweaters, coats, and hats. As well as wardrobe essentials, you can create accessories to match each outfit, including a teddy for bedtime, a bucket for the beach, cakes for the kitchen, and even a penguin for the North Pole! There's a range of dressing-up costumes, with an adorable bear suit and a fun superhero mask and cape. The cute mini suitcase pattern is the perfect for storing all of your dolls belongings and it doubles up as a bed too! Be aware that crochet terms in the United States are different from those in the U.K. This can be confusing as the same terms are used to refer to different stitches under each system. All crochet patterns in this book are written in U.K. and European terms. U.S. crocheters must take care that they work the correct stitches. One way to tell which system is being used in other patterns is that the American system starts with a single crochet, which the U.K. system doesn't have; so patterns with “sc” in them can be identified as American patterns.

*Making a Great Exhibition* Doro Globus,2021-12-21 “It never occurred to me while growing up that art is an industry involving countless jobs, so if this book helps shed light to just one kid that it is a viable career option, then it has done its job, as art is indescribably important!” —Oliver Jeffers, Artist and Illustrator “This book so beautifully explains to kids what goes into making an art exhibition. It’s not just about an artist hanging something on a wall for people to see: it’s so much more lively, layered, and community-driven. Even I learned a ton about what truly goes into a fantastic art show!” —Joy Cho, Author and Founder of Oh Joy! “I wish I’d had this book when I was a kid! I always wanted my art to be in a big museum one day but, growing up in a small town, that just seemed impossible. Making a Great Exhibition is a beautifully illustrated behind-the-scenes peek at exactly how art makes its way from an artist’s mind to the big white walls of a fancy gallery. Turns out, there are a lot of people, with some very cool jobs, who make the magic happen—and any book that shows kids (and parents!) they can grow up to have a career in the arts is okay by me!” —Danielle Krysa, The Jealous Curator An exciting insight into the workings of artists and museums, Making a Great Exhibition is a colorful and playful introduction geared to children ages 3-7 How does an artist make a sculpture or a painting? What tools do they use? What happens to the artwork next? This fun, inside look at the life of an artwork shows the journey of two artists’ work from studio to exhibition. Stopping along the way we meet colorful characters—curators, photographers, shippers, museum visitors, and more! Both illustrator and author were raised in the art world, spending their time in studios, doing homework in museum offices, and going to special openings. They have teamed up to share their experiences and love for this often mysterious world to a young audience. London-based illustrator Rose Blake is best known for her work in A History of Pictures for Children, by David Hockney and Martin Gayford, which has been a worldwide success.
