*Brush of the Gods* Lenore Look, 2013-06-25 This gorgeous picture book biography, according to Kirkus Reviews in a starred review, is a cheerful introduction not only to Wu Daozi, but to the power of inspiration. Who wants to learn calligraphy when your brush is meant for so much more? Wu Daozi (689-758), known as China's greatest painter and alive during the T'ang Dynasty, is the subject of this stunning picture book. When an old monk attempts to teach young Daozi about the ancient art of calligraphy, his brush doesn't want to cooperate. Instead of characters, Daozi's brush drips dancing peonies and flying Buddhas! Soon others are admiring his unbelievable creations on walls around the city, and one day his art comes to life! Little has been written about Daozi, but Look and So masterfully introduce the

artist to children.

**Stormwater** William G. Wilson,2016-07-15 As cities grow and climates change, precipitation increases, and with every great storm—from record-breaking

Boston blizzards to floods in Houston—come buckets of stormwater and a deluge of problems. In *Stormwater*, William G. Wilson brings us the first expansive guide to stormwater science and management in urban environments, where rising runoff threatens both human and environmental health. As Wilson shows, rivers of runoff flowing from manmade surfaces—such as roads, sidewalks, and industrial sites—carry a glut of sediments and pollutants. Unlike soil, pavement does not filter or biodegrade these contaminants. Oil, pesticides, road salts, metals, automobile chemicals, and bacteria all pour into stormwater systems. Often this runoff discharges directly into waterways, uncontrolled and untreated, damaging valuable ecosystems. Detailing the harm that can be caused by this urban runoff, Wilson also outlines methods of control, from restored watersheds to green roofs and rain gardens, and, in so doing, gives hope in the face of an omnipresent threat. Illustrated throughout, *Stormwater* will be an essential resource for urban planners and scientists, policy makers, citizen activists, and environmental educators in the stormy decades to come.
