Papers Read Before the Engineering Society of the School of Practical Science, Toronto (Classic Reprint) School of Practical Science, 2018-12-24 Excerpt from Papers Read Before the Engineering Society of the School of Practical Science, Toronto The present number contains papers read before the Engineering Society of the School Of Practical Science during the session 1894-95. The Society was organized in the year 1885 by the students then in the School, and has gradually grown since that time. Every alternate Wednesday afternoon during the session is set apart from the regular time Of the course for the meetings of the Society, so that students may thus take advantage of them without sacrificing any of their time. This number shows a marked increase, both in size and in the general character of the papers contained in it, over all previous ones, which is, no doubt, due to the larger number of graduates, but more particularly to the encouragement offered by the Faculty of the School to students writing papers, as a good proportion of our undergraduates have contributed. A valuable addition is the discussion which has been printed at the end of papers. This discussion has been obtained in most cases by having printed, some weeks before the presentation of a paper, a large number of copies of same, which have been distributed amongst the members and others interested in the subject dealt with. The present number shows that this method Of

Obtaining discussion and thus greatly increasing the value of papers is very satisfactory. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
