The Cartiers Francesca Cartier Brickell, 2021-06-08 "A dynamic group biography studded with design history and high-society dash . . . [This] elegantly wrought narrative bears the Cartier hallmark."—The Economist The "astounding" (André Leon Talley) story of the family behind the Cartier empire and the three brothers who turned their grandfather's humble Parisian jewelry store into a global luxury icon—as told by a great-granddaughter with exclusive access to long-lost family archives "Ms. Cartier Brickell has done her grandfather proud."—The Wall Street Journal The Cartiers is the revealing

tale of a jewelry dynasty—four generations, from revolutionary France to the 1970s. At its heart are the three Cartier brothers whose motto was “Never copy, only create” and who made their family firm internationally famous in the early days of the twentieth century, thanks to their unique and complementary talents: Louis, the visionary designer who created the first men’s wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine; Pierre, the master dealmaker who bought the New York headquarters on Fifth Avenue for a double-stranded natural pearl necklace; and Jacques, the globe-trotting gemstone expert whose travels to India gave Cartier access to the world’s best rubies, emeralds, and sapphires, inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell, whose great-grandfather was the youngest of the brothers, has traveled the world researching her family’s history, tracking down those connected with her ancestors and discovering long-lost pieces of the puzzle along the way. Now she reveals never-before-told dramas, romances, intrigues, betrayals, and more. The Cartiers also offers a behind-the-scenes look at the firm’s most iconic jewelry—the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces—and the long line of stars from the worlds of fashion, film, and royalty who wore them, from Indian maharajas and Russian grand duchesses to Wallis Simpson, Coco Chanel, and Elizabeth Taylor. Published in the two-hundredth anniversary year of the birth of the dynasty’s founder, Louis-François Cartier, this book is a magnificent, definitive, epic

social history shown through the deeply personal lens of one legendary family.

Arts & Crafts in Venice Doretta Davanzo Poli, 1999 Venice has always prided itself on its glamorous and exclusive style, and the term 'Venetian' has been associated with beauty and opulence for centuries. The quality of the Venetian style has softened the divide that traditionally separated arts from crafts. In the city on the lagoon, where famous painters such as Titian, Tintoretto, Guardi and Tiepolo made Venetian scenes famous throughout the world, other, lesser known but equally important workshops contributed to the excellence of Venetian arts and crafts. With their creativity and excellent taste, master craftsmen gave shape to a variety of materials. Stone, wood, iron, bronze, gold, silver, glass, ceramic, stucco, cloth, and

leather turn into masterpieces of unique beauty and perfection in the hands of expert Venetian artisans. This book, subdivided in four sections corresponding to the art materials -- the solid arts, the malleable arts, the fragile arts and the soft arts--provides a showcase of magnificent objects, most never seen before, many of which are housed in the aristocratic palaces of Venice. Doretta Davanzo Poli, an expert in what has been called, inappropriately as this book will prove, the 'minor arts', proposes for each chapter a chronological reading of the artisan guilds whose artistic production, adapting to the changing times and fashions, is documented in over two hundred illustrations. The extraordinary photography by Mark E. Smith, whose sensitivity to detail and familiarity with Venetian life captures the essence of objects and decorations, emphasizes the material itself and its transformation into objects d'art and artistic masterpieces. Where should one look to appreciate the splendor of Venetian decoration? In the lightness of marble panels, the varied chromatic quality of the floors, the sumptuousness of the ceilings -- sculptured and gilded? Or in the virtuosity of the wooden inlays, the unique forging of the grillwork, the transparencies of glass and the masterful stucco decorations? Here, and in many other examples of outstanding craftsmanship presented in this book, the reader will find the elegance that raises Venetian ornamentation to the status of true art--Publisher's description, p. [2] of dust jacket
