Contemporary Papier Mache Gilat Nadivi, 2008-03-01 Over 20 diverse projects are included Contemporary Papier

Mache is a colorful collection of papier mache projects by artist and teacher Gilat Nadivi. With an emphasis on recycling everyday items to create one-of-a-kind masterpieces, Nadivi instructs readers on how simple materials, basic techniques, and a healthy measure of imagination can be combined to make a range of distinctive creations. Projects described in the book are diverse; they include human figures engaged in everyday activities, animals that are tall, small and in between, home accessories such as picture frames, bowls and magnets, and more. Recycling is an inherent component of almost all papier mache, and Contemporary Papier Mache really takes this principle to heart. Old wires and hangers act as bases for human figures, empty rolls of tape become fashionable bangles, discarded water bottles are transformed into women's figures. After trying out a few projects in the book, readers will find their eyes open to the artistic potential waiting to be discovered in basements, garages, and recycling boxes. Tools for these projects are minimal, and supplies are easy to find. As for guidance and inspiration, readers will find plenty of both within the pages of Contemporary Papier Mache-. The book begins with a chapter on materials that describes the supplies readers will need for the projects. This includes basic materials such as papers, glues, work surfaces and paints, as well as fabrics and other decorative enhancements. It also includes suggestions about items that can be reused (and revived!) through papier mache. The techniques chapter describes various papier mache methods as well as painting and lacquer application.

How to Make Tiny Paper Mache Dogs Jonni Good, 2014-05 The author makes it easy for you to create a tiny paper mache dog of your own. You only need a few basic tools and some materials that you may already have lying around the house. The only thing you may need to purchase is a few feet of aluminum wire for the armature -- or use some wire you already have on hand. First, choose a pattern from the 27 breeds included in the book. Then build your armature by bending the wires, using the pattern for a guide. This makes sure that your finished sculpture will have the right proportions for your breed. Add a few bits of crumpled aluminum foil to round out the forms, with the pattern guiding you, and then twist and bend your little dog into any position you desire. With these simple steps it's easy to create a lively original sculpture of your own design. When your armature is finished, the author shows you how to make the two layers of paper mache as smooth as you want it to be. You can add wrinkles, fur, happy mouths and other details after the paper mache is dry. If you would like to paint your dog, you can use the author's recipe for an inexpensive home-made gesso to add interesting textures. Then the author gives you suggestions for painting your sculpture, including an easy way to paint brindled spots, how to give an all-white dog an interesting coat, how to emphasize heavily-textured fur with acrylic glazing liquid, and more. The author is a well-known paper mache artist who has written several popular books on the subject. She also writes tutorials and creates videos for her blog, at UltimatePaperMache.com.
