Paper Planes in Hurricanes Alex Hayes,2023-12-13 A paper plane is simple. It could be a note for somebody. It could be crumpled up, in pursuit of folding a more perfect version. It is juvenile, floating in the air, with one purpose. It is meant to fly somewhere. And then, there is the hurricane. It is wind and debris and grief. It picks up our plane and turns it in to a pulp, shaping our little note in to something unrecognizable. Shouting, You wanted to fly, right? Well, aren't you still flying?. Sometimes, I feel like we may be paper planes. Folded up all pretty, lofting down gently with one intention. To feel, to be a person. And then, we get stuck in the storm. We go around and around, without rest. It never lets us go, never lets us stop flying. We knew we were supposed to live, but we were never prepared for how much it would all be.

A Companion to Australian Cinema Felicity Collins,Jane Landman,Susan Bye,2019-06-05 The first comprehensive volume of original essays on Australian screen culture in the twenty-first century. A Companion to Australian Cinema is an anthology of original essays by new and established authors on the contemporary state and future directions of a well-established national cinema. A timely intervention that challenges and expands the idea of cinema, this book brings into sharp focus those facets of Australian cinema that have endured, evolved and emerged in the twenty-first century. The essays address six thematically-organized propositions – that Australian cinema is an Indigenous screen culture, an international cinema, a minor transnational imaginary, an enduring auteur-genre-landscape tradition, a televisual industry and a multiplatform ecology. Offering fresh critical perspectives and extending previous scholarship, case studies range from The Lego Movie, Mad Max, and Australian stars in Hollywood, to transnational co-productions, YouTube channels, transmedia and nature-cam documentaries. New research on trends – such as the convergence of television and film, digital transformations of screen production and the shifting roles of women on and off-screen – highlight how established precedents have been influenced by new realities beyond both cinema and the national. Written in an accessible style that does not require knowledge of cinema studies or Australian studies Presents original research on Australian actors, such as Cate Blanchett and Chris Hemsworth, their training, branding, and path from Australia to Hollywood Explores the films and filmmakers of the Blak Wave and their challenge to Australian settler-colonial history and white identity Expands the critical definition of cinema to include YouTube channels, transmedia documentaries, multiplatform changescapes and cinematic remix Introduces readers to founding texts in Australian screen studies A Companion to Australian Cinema is an ideal introductory text for teachers and students in areas including film and media studies, cultural and gender studies, and Australian history and politics, as well as a valuable resource for educators and other professionals in the humanities and creative arts.

The Final Storm Mack Maloney,2013-06-18 Only ace pilot Hawk Hunter can bring a Russian-backed traitor to justice. From “the best high-action thriller writer out there today, bar none” (Jon Land, USA Today–bestselling author). The Soviet Union had nearly been defeated when the vice president of the United States revealed himself as a traitor. He deactivated the defense grid just long enough for the Russians to strike, reducing America to a battle-scarred wasteland. The United States would have remained in shambles, were it not for Hawk Hunter, the greatest fighter pilot the world has ever known. He rebuilt the country one dogfight at a time, with one goal firmly fixed in his mind: to bring America’s greatest traitor to justice. Backed by a team of commandos, Hunter storms the vice president’s compound in Bermuda, and returns with the traitor in chains. To convict him for his crimes, the war’s story must be told in full for the first time. And there is no one better to begin the telling than Hawk Hunter. He has risked his life on every front, and it’s his courage that will ensure America rises again. The Final Storm is the sixth book of the Wingman series, which also includes Wingman and The Circle War.

Southern Storm Samme Chittum,2018-04-03 The gripping true tale of a devastating plane crash, the investigation into its causes, and the race to prevent similar disasters in the future. On the afternoon of April 4, 1977, Georgia housewife Sadie Burkhalter Hurst looked out her front door to see a frantic stranger running toward her, his clothes ablaze, and behind him the mangled fuselage of a passenger plane that had just crashed in her yard. The plane, a Southern Airways DC-9-31, had been carrying eighty-one passengers and four crew members en route to Atlanta when it entered a massive thunderstorm cell that turned into a dangerous cocktail of rain, hail, and lightning. Forced down onto a highway, the plane cut a swath of devastation through the small town of New Hope, breaking apart and killing bystanders on the ground before coming to rest in Hurst's front yard. Ultimately, only twenty-two people would survive the crash of Flight 242, and urgent questions immediately arose. What caused the pilots to fly into the storm instead of away from it? Could the crash have been prevented? Southern Storm addresses these issues and many more, offering a fascinating insider's look at this dramatic disaster and the systemic overhauls that followed it.

Detroit, Lenacrave and Cleveland Brooke,2010-12-15 I was almost as hard headed as it gets while repeatedly insisting on missing and ignoring the entire point that Mom and a few others tried to get me to realize. GET YOUR EDUCATION!!! I still had some great times here and there every now and then, and I can only imagine how beautiful-my-life-would-have-been if I would have followed the The Golden Rules. Some wonderful things have happened to me even though I still feel that I truly did not deserve or even know how to sincerely enjoy thoroughly, but on the other hand, some not so wonderful things have happened to me that I basically brought on myself as a direct result of not following The Golden Rules. EDUCATION IS A MUST!!! I know my family was not the only family that has gone through a divorce, and I know there are millions of kids who went through divorce without a scratch. I am not blaming any of my failures as a man on the pitfalls of divorce, but I can clearly see now that my character flaws were a direct hit stemming from the casualties of my parents divorce. I did not ask to be me, and I certainly did not ask or expect to be stuck on stupid for almost three tenths of a century. It was what it was! If I would have known their divorce would eventually effect me which I believe set the wheels in motion that turned towards me turning out the way I have, I would have started Praying that night. But I had no idea it would, and neither did they. I can only imagine how beautiful my life would have been if their marriage was meant to be, but it was not about me. Brooke!

Paper Planes and Other Things We Lost Michele G. Miller,2016 On June 18, 1993, Flight 397 crashed off the coast of Long Island. But this story isn't about the crash. Not completely.This is a story about two high school seniors living very different lives, who share one connection: they both lost parents on that fateful flight.Slowly, letters bridge the gap between California and Pennsylvania as Ruby Kaminski and Brett Pratt find a way to remember the past while looking toward the future.This is a story about hope, paper planes, and the other things they lost.

Air-Sea Exchange of Heat and Moisture During Storms R.S. Bortkovskii,2013-11-11 Scientists investigating the interaction between the ocean and the atmosphere now believe that the drag coefficient, and the coefficients of heat transfer and moisture transfer at the sea surface, all increase with an intensification of the wind, reaching high values during a storm. This belief is based on the results of gradient and eddy correlation measurements in the air layer over the water, as well as on data concerning the effect of storms on the structure of the upper layer of the ocean and on the planetary atmospheric boundary layer. However, until recently it was impossible to explain just how the above coefficients depend on the wind velocity and to extrapolate this dependence into the region of hurricane velocities. Only by studying nonturbulent mechanisms of transfer, which play an important role dose to the surface of a stormy sea, and mechanisms of spray mediated transfer in particular, was it possible to proceed to a solution of this problem. This book presents the results of laboratory and field studies of the spray field in the air layer above the surface of a stormy sea. Since there is a dose correlation between the generation of spray and the breaking of wind waves, considerable attention is given to the analysis of data on the sea state during a storm. Su'ch data are of interest when solving a number of diverse theoretical and applied problems.
