Parliament,1911 Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893, issued as vol. 26, no. 7, supplement.

Connecting centre and locality Chris R. Kyle,Jason

Peacey,2020-03-26 This collection explores the dynamics of local/national political culture in seventeenth-century Britain, with particular reference to political communication. It examines the degree to which connections were forged between politics in London, Whitehall and Westminster, politics in the localities and the patterns and processes that can be recovered. The goal is to create a dialogue between two prominent strands in recent historiography and between the work of social and political historians of the early modern period. Chapters by leading historians of Stuart England examine how the state worked to communicate with its people and how local communities, often far from the metropole, opened their own lines of communication with the centre.

The Pale Companion Philip Gooden, 2020-03-05 'Highly entertaining' Sunday Times Midsummer 1601. Nick Revill and his fellow actors in the Chamberlain's Men are journeying across the Wiltshire Downs for a country-house presentation of Shakespeare's *A Midsummer Night's Dream*. It should be a pleasant, well-paid jaunt to celebrate a noble marriage, but when the actors arrive at their destination, Insteade House, they enter a tense atmosphere. Lord Elcombe is pushing his older son into a marriage that the son seems set against, while in the nearby woods a wild man called Robin talks in riddles of long-hidden family secrets. In another quarter of the great estate lodges a travelling band of fire-and-brimstone morality players called the Paradise Brothers. The first death, when it occurs, looks like suicide, but Nick isn't so sure . . . Then a second murder happens right under his nose . . . and turns the Dream into a nightmare. The third Shakespearean murder mystery in the Nick Revill series, set during the reign of the formidable Elizabeth I. Praise for Philip Gooden: 'Another clever criminal plunge into history' Guardian 'The witty narrative, laced with puns and word play so popular in this period, makes this an enjoyable racy tale' Sunday Telegraph 'The book has much in common with the film Shakespeare in Love - full of colourful characters . . . but the book has an underlying darkness' Crime Time 'Historical mystery fans are in for a treat' Publishers Weekly

The Antient and Modern History of the Loyal Town of Rippon: ... Besides are Added, Travels Into Other Parts of Yorkshire ... Faithfully and Painfully Collected by Tho. Gent, ... Thomas Gent, 1733

The Ancient and Modern History of the Loyal Town of Rippon ..., 1733

Out of Sorts Joseph A. Dane, 2011-06-06 The new history of the book has constituted a vibrant academic field in recent years, and theories of print culture have moved to the center of much scholarly discourse. One might think typography would be a basic

element in the construction of these theories, yet if only we would pay careful attention to detail, Joseph A. Dane argues, we would find something else entirely: that a careful consideration of typography serves not as a material support to prevailing theories of print but, rather, as a recalcitrant counter-voice to them. In *Out of Sorts* Dane continues his examination of the ways in which the grand narratives of book history mask what we might actually learn by looking at books themselves. He considers the differences between internal and external evidence for the nature of the type used by Gutenberg and the curious disconnection between the two, and he explores how descriptions of typesetting devices from the seventeenth and eighteenth centuries have been projected back onto the fifteenth to make the earlier period not more accessible but less. In subsequent chapters, he considers topics that include the modern mythologies of so-called gothic typefaces, the presence of nontypographical elements in typographical form, and the assumptions that underlie the electronic editions of a medieval poem or the visual representation of typographical history in nineteenth-century studies of the subject. Is Dane one of the most original or most traditional of historians of print? In *Out of Sorts* he demonstrates that it may well be possible to be both things at once.

Newport a Fairy Tale of Sorts Timothy N. Thomas, 2007-12-30
This is a story about Newport Beach California, in all its glory and frailties. This is the real story of the O.C. All fiction is true. I am going to come right out and say it. It all happened sometime, someplace, somewhere. Non-fiction, that's where the quality B.S. comes from nowadays. 'A Million Little Pieces' - Need I say more? But fiction is all true and the worst offenders are these nasty little fairy tales. They're the truest of them all. In fact I think fairy tales were invented so that authors would not have to defend their positions on the issues they write of. 'Hey it's only a fairy tale get over it.' - That kind of brush off. Fairy tale writers are sneaky bastards, they always tell the truth. Theodore W. Wilson Professor

Philosophical Letters of David K. Lewis David K.

Lewis, 2020-10-29 David Kellogg Lewis (1941-2001) was one of the most influential philosophers of the twentieth century. He made significant contributions to almost every area of analytic philosophy including metaphysics, philosophy of language, philosophy of mind, and philosophy of science, and set the agenda for various debates in these areas which carry on to this day. In several respects he remains a contemporary figure, yet enough time has now passed for historians of philosophy to begin to study his place in twentieth century thought. His philosophy was constructed and refined not just through his published writing, but also crucially through his life-long correspondence with fellow philosophers, including leading figures such as D.M. Armstrong, Saul Kripke, W.V. Quine, J.J.C. Smart, and Peter van Inwagen. His letters formed the undercurrent of his published work and became the medium through which he proposed many of his well-known theories and discussed a range of philosophical topics in depth. A selection of his vast correspondence over a 40-year period is presented here across two volumes. As metaphysics is arguably where Lewis made his greatest contribution, this forms the focus of Volume 1. Arranged under the broad areas of Causation, Modality, and Ontology, the letters offer an organic story of the origins, development, breadth, and depth of his metaphysics in its historical context, as well as a glimpse into the influence of his many interlocutors. This volume will be an indispensable resource for contemporary metaphysics and for those interested in the Lewisian perspective.

Philosophical Letters of David K. Lewis Helen Beebe, A.

R. J. Fisher, 2020-11-05 The life-long correspondence of David K. Lewis, one of the most influential philosophers of the twentieth century, reveals the development, breadth, and depth of his philosophy in its historical context. The first of this two volume collection of letters focuses on his contributions to metaphysics,

arguably where he made his greatest impact.

Mothering by Degrees Jillian M. Duquaine-Watson, 2017-05-31

In *Mothering by Degrees*, I show how single mothers who pursue college degrees in early 21st century America must navigate a difficult course as they attempt to reconcile their identities as single mothers, college students, and, in many cases, employees. As they combine these multiple and often competing roles and responsibilities, they must also negotiate a balance between cultural ideals of motherhood and their own definitions of what it means to be a good mother, particularly as those ideals and definitions are shaped within context of post-welfare reform America and the post-secondary institutions they attend. By comparing the experiences of nearly 100 single mother college students attending three postsecondary education institutions in the United States, I illustrate how these women navigate the various obstacles they encounter, especially obstacles related to financial concerns, child care, time constraints, and the chilly climate of higher education. In addition, I demonstrate that the women regard postsecondary education not only as a means of escaping poverty but also as an extension of their mothering work, something they do to help ensure the long-term health and well-being of their children. Thus, this project provides a situated,

comparative account of the experiences of single mothers who are college students in order to foster a better understanding of the complex ideologies and social structures that influence the life choices and education experiences of members of this important but understudied student population. Finally, the project discusses policies and programs that can help provide better support to single mother and may diminish the challenges they face as they endeavor to complete their education--
