Resilience and Ageing Goulding, Anna, Davenport, Bruce, 2018-12-19 Understanding how creative interventions can help develop social connectivity and resilience for older people is vital in developing a holistic cross-sector approach towards ageing well. Academics with a wide range of expertise critically reflect on how the built environment, community living, cultural participation, lifelong learning, and artist-led interventions encourage older people to thrive and overcome both challenging life events and the everyday changes associated with ageing. The book uses a range of approaches, including participatory research methods, to bring the voices of older people themselves to the foreground. It looks at how taking part in creative interventions develops different types of social relationships and fosters resilience.

Cinema as Weather Kristi McKim, 2013 How do cinematic portrayals of the weather reflect and affect our experience of the world? While weatherly predictability and surprise can impact our daily experience, the history of cinema attests to the stylistic and narrative significance of snow, rain, wind, sunshine, clouds, and skies. Through analysis of films ranging from *The Wizard of Oz* to *The Umbrellas of Cherbourg*, from *Citizen Kane* to *In the Mood for Love*, Kristi McKim calls our attention to the ways that we read our atmospheres both within and beyond the movies. Building upon meteorological definitions of weather's dynamism and volatility, this book shows how film weather can reveal character interiority, accelerate plot development, inspire stylistic innovation, comprise a momentary attraction, convey the passage of time, and idealize the world at its greatest meaning-making capacity (unlike our weather, film weather always happens on time, whether for tumultuous, romantic, violent, suspenseful, or melodramatic ends). Akin to cinema's structuring of ephemera, cinematic weather suggests aesthetic control over what is fleeting, contingent, wildly environmental, and beyond human capacity to tame. This first book-length study of such a meteorological and cinematic affinity casts film weather as a means of artfully and mechanically conquering contingency through contingency, of taming weather through a medium itself ephemeral and enduring. Using film theory, history, formalist/phenomenological analysis, and eco-criticism, this book casts cinema as weather, insofar as our skies and screens become readable through our interpretation of changing phenomena.

Snowflakes Fall Patricia MacLachlan, 2013-10-29 In *Snowflakes Fall*, Newbery Medalist Patricia MacLachlan and award-winning artist Steven Kellogg portray life's natural cycle: its beauty, its joy, and its sorrow. Together, the words and pictures offer the promise of renewal that can be found in our lives—snowflakes fall, and return again as raindrops so that flowers can grow. MacLachlan and Kellogg, who are longtime friends, were moved to collaborate on a message of hope for children and their families following the tragic events in Sandy Hook, Connecticut, on December 14, 2012. Kellogg lived in Sandy Hook for thirty-five years—he raised his family there and was an active member of the community. With *Snowflakes Fall*, they have created a truly inspiring picture book that is both a celebration of life and a tribute to the qualities that make each individual unique. In honor of the community of Sandy Hook and Newtown, Random House, the publisher of *Snowflakes Fall*, has made a donation to the Sandy Hook School Support Fund. Random House is also donating 25,000 new books to the national literacy organization First Book in the community's honor and in support of children everywhere.

Millions of Snowflakes Mary McKenna Siddals, 1998-09-21 One little snowflake falls on my nose. It makes me shiver from my head to my toes. A little girl plays outside on a cold winter day, counting each snowflake as it falls softly to the ground. Bundled in her warmest snowsuit, she savors the snow, tasting each flake as it falls on her tongue, and makes snow angels. Simple rhyming text captures the joy of a winter afternoon while teaching basic counting skills. Exuberant pastel illustrations invite young readers to join the fun.
