Tall Tales Al Jaffee, 2015-01-06 An anthology of the innovative vertical comic strip by the legendary MAD Magazine contributor—with an introduction by Stephen Colbert. Tall Tales was a one-of-a-kind newspaper strip that could only have come from the mind of Al Jaffee. While other newspaper strips are square, single-panel or multiple-panel horizontal gag cartoons, Jaffee, known for the Fold-In in MAD Magazine, once again altered the format of his work to create a vertical strip—the first, and last, in newspaper history. The original comic strip was syndicated internationally by the New York Herald Tribune from 1957–1963. This anthology contains the best 120 wordless strips out of over 2,200, scanned from the original files. The book features a new preface by Jaffee

and an introduction by Stephen Colbert.

**Willie & Joe** Bill Mauldin,2011-08-03 Willie & Joe: Back Home brilliantly chronicles the struggles and disillusionments of these early post-WWII years and, in doing so, tells Bill Mauldin's own extraordinary story of his journey home to a wife he barely knew and a son he had only seen in pictures. The drawings capture the texture and feel, the warp and woof, of this confusing time: the ubiquitous hats and cigarettes, the domestic rubs, the rising fear of another war, and new conflicts over Civil Rights, civil liberties, and free speech. This second volume of Fantagraphics' series reprinting Mauldin's greatest work identifies and restores the dozens of cartoons censored by Mauldin's syndicate for their attacks on racial segregation and McCarthy-style "witch hunts." Mauldin pleaded with his syndicate to let him out of his contract so that he could return to the simple quiet life so desired by Willie & Joe. The syndicate refused, so Mauldin did battle, as always, through pen and ink.

Bassett-Lowke Derek Head,2006-07-25 The nostalgia for the great passenger ships of the first half of the 20th century is vividly recalled in this book on the world famous model-making firm of Bassett-Lowke, with their production of small scale waterline ship models manufactured between 1908

**Naval Camouflage 1914-1945** David L. Williams,2001 Although it is a subject of immense importance to warship enthusiasts, modelmakers, photograph collectors, and indeed academic naval historians, there has never been an authoritative history of camouflage. Apart from the huge scale of the subject, the reason for this lies largely in the fragmented nature of the surviving evidence, and the ad hoc nature of much wartime development. This book does not claim to be such a narrative history, but it does set out to provide a comprehensive study. Visual and illustrative in its approach, it is Anglo-American in emphasis, but the camouflage patterns of enemy navies (and selected neutrals) are covered as well.

**Miniature Merchant Ships** John Bowen,1997 This practical guide to waterline ship modelling in 1/1200 scale contains 30 sets of plans for the reader to construct their own models.

**More Miniature Merchant Ships** John Bowen,2003 John Bowen brings his knowledge and expertise of waterline ship modelling to a second volume of miniature merchant ships, including examples such as Haverford

(1901), Carpathia (1903), Oronsay (1925) and Braemar Castle (1952). The book opens with a section giving advice on initial preparations - finding and using plans, suitable materials and tools. This section also presents an alphabetical list of the principal fittings on a ship (those that would be included on this type of model) - hatches, winches, capstans, anchors, etc - with details and diagrams on how to make them. Section II comprises 30 sets of plans of ships built between 1900 and 1969. These are accompanied with at least one photograph of the ship, a full specification, brief history, and notes on essential constructional details, including colour scheme. Readers will recognise the authoritative yet approachable style John has brought to several ship modelling titles, which will appeal to both beginners and more experienced modellers. A companion volume to the highly successful *Miniature Merchant Ships*, *More Miniature Merchant Ships* includes 30 1/1200 scale plans of liners, cargo ships and passenger cargo ships, each supplied with comprehensive modelling notes. More than 60 photographs of the prototype ships underway supply detailed pictorial references. This book, like *Miniature Merchant Ships*, is an essential addition to the library of any ship modeller. John Bowen is the author of several acclaimed titles for Conway Maritime Press, including *Miniature Merchant Ships*, published in 1997. Building waterline models has always been his favourite form of modelling and this book is a culmination of his continuing achievements in this area of ship modelling. John was deputy editor of Conway's quarterly journal *Model Shipwright* when it was launched in 1972 and has been its editor since 1974. He contributes a plan and instructions for a miniature merchant ship to each issue. John is a member of the Royal Institution of Naval Architects.
