The Roman Martyrs Michael Lapidge,2018 The Roman Martyrs contains translations of forty Latin *passiones* of saints who were martyred in Rome or its near environs, during the period before the peace of the Church (c. 312). Some of the Roman martyrs are universally known—SS. Agnes, Sebastian or Laurence, for example—but others are scarcely recognized outside the ecclesiastical landscape of Rome itself. Each of the translated *passiones* is accompanied by an individual introduction and commentary; the translations are preceded by an Introduction which describes the principal features of this little-known genre of Christian literature, and are followed by five Appendices which present translated texts which are essential for understanding the cult of Roman martyrs. This volume offers the first collection of the Roman *passiones martyrum* translated into a modern language. They were mostly composed during the period 425-675, by anonymous authors who were presumably clerics of the Roman churches or cemeteries which housed the martyrs' remains. It is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards, at a time when authentic records (protocols) of their trials and executions had long since vanished, and the authors of the *passiones* were obliged to imagine the circumstances in which martyrs were tried and executed. The *passiones* are works of fiction; and because they abound in ludicrous errors of chronology, they have been largely ignored by historians of the early Church. Although they cannot be used as evidence for the original martyrdoms, they nevertheless allow a fascinating glimpse of the concerns which animated Christians during the period in question: for example, the preservation of virginity, or the ever-present threat posed by pagan practices. As certain aspects of Roman life will have changed little between the second century and the fifth, the *passiones* shed valuable light on many aspects of Roman society, not least the nature of a trial before an urban prefect, and the horrendous tortures which were a central feature of such trials. The *passiones* are an indispensable resource for understanding the topography of late antique Rome and its environs, as they characteristically contain detailed reference to the places where the martyrs were tried, executed, and buried.

Fire Stephen J. Pyne,2019-08-12 Over vast expanses of time, fire and humanity have interacted to expand the domain of each, transforming the earth and what it means to be human. In this concise yet wide-ranging book, Stephen J. Pyne—named by Science magazine as “the world’s leading authority on the history of fire”—explores the surprising dynamics of fire before humans, fire and human origins, aboriginal economies of hunting and foraging, agricultural and pastoral uses of fire, fire ceremonies, fire as an idea and a technology, and industrial fire. In this revised and expanded edition, Pyne looks to the future of fire as a constant, defining presence on Earth. A new chapter explores the importance of fire in the twenty-first century, with special attention to its role in the Anthropocene, or what he posits might equally be called the Pyrocene.

The Politics of the Environment Neil Carter, 2018-08-31 Environmental problems are firmly on the political agenda. The stark threat to the planet from climate change, biodiversity loss and pollution can no longer be ignored by governments, political parties, businesses or individuals. Responding to the considerable developments of the last decade, Neil Carter has updated his popular textbook thoroughly, while retaining the existing structure of previous editions. The Politics of the Environment continues to analyse the relationship between 'green ideas' and other political doctrines, the development of green parties and public policymaking, and environmental issues at international, national and local levels. It provides students with a comprehensive comparative introduction to ideas, activism and policy. New to this edition are discussions on climate justice, climate legislation and recent environmental struggles, such as demonstrations against fracking. It employs a variety of global examples and includes pedagogical features such as boxes, a glossary and guides to further study.

Beta Jasinda Wilder, 2014-10-21 Roth and I are on an open-ended tour of the world. Roth being Roth, this means missionary in Morocco, reverse cowgirl in Calcutta, bent over the bow of a houseboat in Hanoi, slow and sleepy on St. John. Anywhere and everywhere, in every conceivable position, and some I didn't know were possible. Life was pretty incredible. Until I woke up in his chateau in France, alone. On the bed next to me was a note. There were only four words: He belongs to me.

LABOUR CAMP JASENOVAC Igor Vukić, 2019-10-15 The Ustasha camp in Jasenovac is a sensitive historical theme, which still provokes strong political conflicts more than 70 years after the closure of the camp. During the time of the second Yugoslavia, the camp was made into a myth and one of the main levers for disciplining the society of the time. The Communist Party imposed the number of 700,000 victims and an exaggerated view of the alleged crimes and methods of killing inmates. The aim was to present itself as sole guarantor of security, because in the case of its reigning-in, the fratricidal war would happen again, with Jasenovac as its main symbol. Before 1990, an attempt to point out the absurdity of the 700,000 alleged victims of Jasenovac entailed going to prison or compulsory psychiatric treatment. The documents referenced in this book indicate the need to continue with research of the Jasenovac camp and that in a democratic atmosphere, as far as possible, its realistic historical picture may be reached.

Braudel Revisited Gabriel Piterberg, Teofilo Ruiz, Geoffrey Symcox, 2015-10-06 Fernand Braudel (1912-1985), was a leading French historian and author of, among other books, the groundbreaking *The Mediterranean and the Mediterranean World in the Age of Philip II* (1949). One of the founders of the Annales School in France, Braudel insisted on treating the Mediterranean region as a whole, irrespective of religious and national divides. Braudel's new historiography rejected political history as the dominant discipline and espoused a 'total history' or a 'history from below' that would tell the story of the vast majority of humanity hitherto excluded from the grand narrative. At the time of the book's appearance, this premise was revolutionary. The contributors to *Braudel Revisited* assess the impact of Braudel's work on today's academic world, in light of subsequent methodological shifts. Engaging with Braudel's texts as well as with his ideas, the essays in this volume speak to the enduring legacy of his work on the ongoing exploration of early modern history.

The Sphinx Edgar Allan Poe, 2014-07-17 *The Sphinx* is a short story by American author Edgar Allan Poe. Edgar Allan Poe (born Edgar Poe; January 19, 1809 - October 7, 1849) was an American author, poet, editor, and literary critic, considered part of the American Romantic Movement. Best known for his tales of mystery and the macabre, Poe was one of the earliest American practitioners of the short story, and is generally considered the inventor of the detective fiction genre. He is further credited with contributing to the emerging genre of science fiction. He was the first well-known American writer to try to earn a living through writing alone, resulting in a financially difficult life and career. Born in Boston, he was the second child of two actors. His father abandoned the family in 1810, and his mother died the following year. Thus orphaned, the child was taken in by John and Frances Allan, of Richmond, Virginia. Although they never formally adopted him, Poe was with them well into young adulthood. Tension developed later as John Allan and Edgar repeatedly clashed over debts, including those incurred by gambling, and the cost of secondary education for the young man. Poe attended the University of Virginia for one semester but left due to lack of money. Poe quarreled with Allan over the funds for his education and enlisted in the Army in 1827 under an assumed name. It was at this time his publishing career began, albeit humbly, with an anonymous collection of poems, *Tamerlane and Other Poems* (1827), credited only to a Bostonian. With the death of Frances Allan in 1829, Poe and Allan reached a temporary rapprochement. Later failing as an officer's cadet at West Point and declaring a firm wish to be a poet and writer, Poe parted ways with John Allan. Poe switched his focus to prose and spent the next several years working for literary journals and periodicals, becoming known for his own style of literary criticism. His work forced him to move among several cities, including Baltimore, Philadelphia, and New York City. In Baltimore in 1835, he married Virginia Clemm, his 13-year-old cousin. In

January 1845 Poe published his poem, The Raven, to instant success. His wife died of tuberculosis two years after its publication. For years, he had been planning to produce his own journal, The Penn (later renamed The Stylus), though he died before it could be produced. On October 7, 1849, at age 40, Poe died in Baltimore; the cause of his death is unknown and has been variously attributed to alcohol, brain congestion, cholera, drugs, heart disease, rabies, suicide, tuberculosis, and other agents.
