The Paper Museum Kate S. Simpson,2022-11-01 In a world where paper is obsolete and magic is all but forgotten, Lydia has moved into the Paper Museum with her Uncle Lem following the disappearance of her parents. Convinced the key to finding them lies in the museum's book collection, Lydia spends her days digitally scanning her way through the museum's library. But when Uncle Lem is called away and her Uncle Renald is put in charge of the museum, Lydia's scanning project comes to an abrupt halt. Uncle Renald takes her aer reader—the personal device that everybody uses for reading, shopping, messaging, and more—but not before Lydia makes a desperate attempt at filing a missing persons report for her parents. The report activates a countdown, and now with nothing but a secret typewriter in her dogwood fort and a cryptic message, Lydia has thirty days to find her parents and stop the mayor from commandeering the museum. Otherwise, both her family home and the Paper Museum itself will be reassigned to someone else. With aer readers on the fritz and the town descending into chaos, Lydia needs to find her parents before the Paper Museum—and her parents—are lost for good. The Paper Museum is a story of family and friendship with a hint of magic.

*Slash* David Revere McFadden,2009-12 Eclectic, eccentric and tirelessly innovative, art crafted from cut paper has experienced an exciting renaissance in recent years. Published to accompany a traveling exhibit opening at the Museum of Arts and Design in New York, *Slash: Paper Under the Knife* examines the resurgence of traditional handcraft materials and techniques in contemporary art and design. Highlighting the work of forty-five international artists, among them Olafur Eliasson, Tom Friedman, William Kentridge, and Kara Walker, the book features not only cut but also burned, torn, laser-cut, shredded and sculpted paper art. In addition, the book includes cut paper animation, as well as cut paper incorporated in photography and fashion. Works range from small-scale intricate cuttings to large-scale architectural inventions and sculptures. With an essay by well-known decorative arts expert David Revere McFadden, this singular book reveals that, with ingenuity and craftsmanship, one of our most familiar implements can be transformed into unforgettable works of art.

Paper Promises Mazie M. Harris,2018-03-20 Scholarship on photography's earliest years has tended to focus on daguerreotypes on metal or on the European development of paper photographs made from glass or paper negatives. But Americans also experimented with negative-positive processes to produce photographic images on a variety of paper formats in the early decades of the medium. *Paper Promises: Early American Photography* presents this rarely studied topic within photographic history. The well-researched and richly detailed texts in this book delve into the complexities of early paper photography in the United States from the 1840s to 1860s, bringing to light a little-known era of American photographic appropriation and adaptation. Exploring the economic, political, intellectual, and social factors that impacted its unique evolution, both the essays and the carefully selected images illustrate the importance of photographic reproduction in shaping and circulating perceptions of America and its people during a critical period of political tension and territorial expansion. Due to the fragility of paper photography from this period, the works in this catalogue are rarely displayed, making the volume an essential tool for any scholar in the field and a very rare peek into the mid-nineteenth century.

**Photography, Natural History and the Nineteenth-Century Museum** Kathleen Davidson,2017-12-02 The Victorian era heralded an age of transformation in which momentous changes in the field of natural history coincided with the rise of new visual technologies. Concurrently, different parts of the British Empire began to more actively claim their right to being acknowledged as indispensable contributors to knowledge and the

progress of empire. This book addresses the complex relationship between natural history and photography from the 1850s to the 1880s in Britain and its colonies: Australia, New Zealand and, to a lesser extent, India. Coinciding with the rise of the modern museum, photography's arrival was timely, and it rapidly became an essential technology for recording and publicising rare objects and valuable collections. Also during this period, the medium assumed a more significant role in the professional practices and reputations of naturalists than has been previously recognized, and it figured increasingly within the expanding specialized networks that were central to the production and dissemination of new knowledge. In an interrogation that ranges from the first forays into museum photography and early attempts to document collecting expeditions to the importance of traditional and photographic portraiture for the recognition of scientific discoveries, this book not only recasts the parameters of what we actually identify as natural history photography in the Victorian era but also how we understand the very structure of empire in relation to this genre at that time.

**Paper Mice** Megan Wagner Lloyd, 2019-05-21 A Bank Street Best Book of the Year "Perfect for storytime, and with so much to explore on each page, a one-on-one read is also a must." —School Library Journal "A sweet depiction of companionship and creature comforts." —Publishers Weekly It's the middle of the night, and two paper mice find adventure—and each other—as they explore their new home in this beautifully written, stunningly illustrated story of friendship. With a snip and a clip, two paper mice are made. They are given names: Della and Ralph. Each alone, they explore their new house in the dark. Della dashes up the stairs; Ralph skitters through the dining room. There is so much to see and so much to discover! But a big, dark house can be scary for those so small, until they find...each other. Beautiful, cut-paper illustrations bring to life this lyrical story of adventure and friendship.

*Pentagram Papers* Pentagram Design, 2006-12-28 Celebrated global design firm Pentagram has produced a series of signature annual documents, known as Pentagram Papers, exclusively for clients and colleagues since 1975. On the occasion of the firm's 35-year anniversary, these quirky and influential Papers are collected here together for the first time. Each Paper explores a unique and curious topic of interest to the Pentagram designers Mao buttons, the Savoy ballroom, rural Australian mailboxes, and the pop architecture of Wildwood, New Jersey, have all been featured subjects. Included here are not only in-depth reproductions and detailed discussion of the Papers' origins, but also an exclusive new Paper created especially for the book and set into a tray inside its back cover.

**Connecting Kids to History with Museum Exhibitions** D Lynn McRainey, John Russick, 2016-09-16 Kids have profound and important relationships to the past, but they don't experience history in the same way as adults. For museum professionals and everyone involved in informal history education and exhibition design, this book is the essential new guide to creating meaningful and memorable connections to the past for children. This vital museum audience possesses many of the same dynamic qualities as trained historian—curiosity, inquiry, empathy for the human experience—yet traditional history exhibitions tend to focus on passive looking in the galleries, giving priority to relaying information through words. D. Lynn McRainey and John Russick bring together top museum professionals to present state-of-the-art research and practice that respects and incorporates kids' developmental stages and learning preferences and the specific ways in which kids connect to history. They provide concrete tools for audience research and evaluation; exhibition development and design; and working with kids as creative consultants. The only book to focus comprehensively on history exhibits for kids, *Connecting Kids to History With Museum Exhibitions* shows how to enhance the experiences of a vitally

important but frequently the least understood museum audience.

*Museum Store Management* Mary Miley Theobald, 2000 Offering expert advice for every phase of museum store management, this volume is essential reading for anyone planning to open or manage a museum store. Theobald takes the guesswork out of planning and managing the museum store, informing the manager on all relevant topics such as sales tables, profits, licensing, training, product promotion, publications, inventory, merchandise, and trademarks, just to name a few. The Second Edition contains an additional chapter on merchandising, updated statistics, POS information, more illustrations and examples, additional advice on Related/Unrelated products ('Tax Status and the IRS'), and Internet information on vendors and other resources.

**The Mississippi Story** Patti Carr Black, Mississippi Museum of Art, 2007 The Mississippi Story invites readers to examine the connection between place and the visual arts of the state. Based on an exhibition from the permanent collection of the Mississippi Museum of Art, this book explores artwork produced within the state by artists who were native to or lived in Mississippi or by travelers who created work about the state. Patti Carr Black presents the overall theme of place in four sections: the influence of the land on the art, Mississippi's people as depicted in its art, life in Mississippi as observed by its artists, and the exporting of Mississippi culture through its artists. Numerous artists' biographies are included as well as more than one hundred full-color illustrations.

*Museum Making* Suzanne Macleod, Laura Hourston Hanks, Jonathan Hale, 2012-03-15 Over recent decades, many museums, galleries and historic sites around the world have enjoyed an unprecedented level of large-scale investment in their capital infrastructure, in building refurbishments and new gallery displays. This period has also seen the creation of countless new purpose-built museums and galleries, suggesting a fundamental re-evaluation of the processes of designing and shaping of museums. *Museum Making: Narratives, Architectures, Exhibitions* examines this re-making by exploring the inherently spatial character of narrative in the museum and its potential to connect on the deepest levels with human perception and imagination. Through this uniting theme, the chapters explore the power of narratives as structured experiences unfolding in space and time as well as the use of theatre, film and other technologies of storytelling by contemporary museum makers to generate meaningful and, it is argued here, highly effective and affective museum spaces. Contributions by an internationally diverse group of museum and heritage professionals, exhibition designers, architects and artists with academics from a range of disciplines including museum studies, theatre studies, architecture, design and history cut across traditional boundaries including the historical and the contemporary and together explore the various roles and functions of narrative as a mechanism for the creation of engaging and meaningful interpretive environments.

**Museum Bees** Trace Mayer, 2021-09 Introduction to Trace Mayer's *Museum Bees*: Including an overview of his work, the history, methodology, and variety of pieces created as well as interior design installations in clients homes.

Exhibits for the Small Museum Arminta Neal, 1976 This handbook is designed for museums starting exhibit programs with limited staff and resources.

**Museum Trip** Barbara Lehman, 2006-05-22 Museums: filled with mysterious, magical art and curiosities? Or secrets? And what might happen if a boy suddenly became part of one of the mind-bending exhibits? Join the fun in *Museum Trip*, by Barbara Lehman, the author-illustrator of the Caldecott Honor-winning *The Red Book*.

*Learning at the Museum Frontiers* Viv Golding, 2016-04-22 In *Learning at the Museum Frontiers*, Viv Golding argues that the museum has the potential to function as a frontier - a zone where learning is created, new identities are forged and new connections made between disparate groups

and their own histories. She draws on a range of theoretical perspectives including Gadamer's philosophical hermeneutics, Foucauldian discourse on space and power, and postcolonial and Black feminist theory, as well as her own professional experience in museum education over a ten-year period, applying these ideas to a wide range of museum contexts. The book offers an important theoretical and empirical contribution to the debate on the value of museums and what they can contribute to society. The author reveals the radical potential for museums to tackle injustice and social exclusion, challenge racism, enhance knowledge and promote truth.
