before millions of viewers—and often did. It spotlights (often in personal interviews) the risk-taking Space Patrol cast and crew who laid vital groundwork for television today. Included are episode logs for both television and radio shows as well as a complete guide to Space Patrol memorabilia.

Frome at War 1939–45 David Lassman,2020-03-20 Frome at War 1939-1945 is a comprehensive account of this Somerset market town's experience of the conflict, covering in detail life on the Home Front set against the background of the wider theatres of war. The narrative of that global struggle is given with a focus on the ordeals endured by the people of Frome, as they cheered their men and women fighters off to war, welcomed hundreds of evacuated men, women and children to the town, and contributed their part to the fight

against Hitler and the Nazi threat. Rare insights into the life of the town are included, along with seldom told stories from the footnotes of history; from Frome's part within the secret underground resistance movement and the national fight for women's equality, to the gradual influx of American GIs and Field-Marshal Montgomery's stay in the aftermath of Dunkirk. The book incorporates memoirs and memories, along with in depth research from official records and newspaper accounts, which allow the reader to see the war not only from ordinary people's perspective, but the military experiences of Frome's heroic men and women - and in many cases their tragic sacrifices - as well. More controversial aspects are also touched on, including injustice, espionage, racism and politics, to give a full and fascinating picture of a town facing profound trials of endurance and courage, but at the same time revealing the characteristics that have sustained Frome throughout its illustrious and turbulent history.

Warlord Chris Ryan, 2017-08-10 'The action comes bullet-fast and Ryan's experience of covert operations flash through the high-speed story like tracer rounds.' The Sun The fifth book in the Danny Black series. On the border of the United States and Mexico, a war is raging that can never be won by conventional means. The drug cartels are rampant. Their victims number in the tens of thousands. Men, women and children are butchered in the most obscene ways imaginable. Of all the cartels, the most violent is Los Zetas. Originally made up of former Mexican special forces turned

bad, they are perhaps the most ruthless and highly trained criminals in the world. Which is why only the most ruthless and highly trained operatives can ever hope to be a match for them. Enter the Regiment. When the CIA reaches out to the British military for help, SAS legend Danny Black and his team are despatched to give the Zetas a taste of their own medicine. Working deniably and under the radar, their mission is to sow death and mayhem among the cartel, and to coax out from hiding their elusive leader, the iconic Z1. But as Danny is about to find out, the arm of the cartel is long, their sickening strategies underhand and brutal. And in the dog eat dog world of this clandestine, bloodthirsty war, nothing is ever quite as it seems. It will take all the SAS team's skill to break through to the heart of the cartel. And even that might not be enough...
