**The Wyoming Blizzard of 1949** James C Fuller,2019-11-04 A Wyoming historian shares an in-depth look at the historic storm and its devastating aftermath through the stories of those who survived. The Blizzard of 1949 took Wyoming and neighboring states by surprise. In January of that year, snow, wind and frigid temperatures devastated the northern plains. The storm stranded hundreds of motorists on the highways and stalled nearly two dozen trains at depots throughout the state. For nearly two months, towns and ranches were marooned by enormous drifts, some reportedly eighty feet tall. Communities pulled together to assist not only their neighbors but also anyone unable to escape the snowstorm. Drawing on meticulous research and numerous in-person interviews, author and historian James Fuller recounts these harrowing stories of tenacity and fortitude.

Into Thin Air Jon Krakauer,1998-11-12 #1 NATIONAL BESTSELLER • The epic account of the storm on the summit of Mt. Everest that claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray. A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism. —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that suggested that a murderous storm was bearing down. He was wrong. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. I have no doubt that Boukreev's intentions were good on summit day, writes Krakauer in the postscript, dated August 1999. What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients. As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters—a prestigious prize intended to honor writers of exceptional accomplishment. According to the Academy's citation, Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind.

*Storm Lake* Art Cullen,2020-01-21 A reminder that even the smallest newspapers can hold the most powerful among us accountable.—The New York Times Book Review Watch the documentary *Storm Lake* on PBS. Iowa plays an outsize role in national politics. Iowa introduced Barack Obama and voted bigly for Donald Trump. But is it a bellwether for America, a harbinger of its future? Art Cullen's answer is complicated and honest. In truth, Iowa is losing ground. The Trump trade wars are hammering farmers and manufacturers. Health insurance premiums and drug prices are soaring. That's what Iowans are dealing with, and the problems they face are the problems of the heartland. In this candid and timely book, Art Cullen—the *Storm Lake* Times newspaperman who won a Pulitzer Prize for taking on big corporate agri-industry and its poisoning of local rivers—describes how the heartland has changed dramatically over his career. In a story where politics, agriculture, the environment, and immigration all converge, Cullen offers an unsentimental ode to rural America and to the resilient people of a vibrant community of fifteen thousand in Northwest Iowa, as much survivors as their town.

Drowned City Don Brown,2015 Marking the 10th anniversary of Hurricane Katrina, this companion to *The Great American Dust Bowl* combines lively drawings and authoritative memoir in graphic novel form to recount one of the most destructive and devastating natural disasters in our American history.

**The Boys in the Boat** Daniel James Brown,2013-06-04 Now a Major Motion Picture Directed by George Clooney The #1 New York Times–bestselling story about the American Olympic rowing triumph in Nazi Germany—from the author of *Facing the Mountain*. For readers of *Unbroken*, out of the depths of the Depression comes an irresistible story about beating the odds and finding hope in the most desperate of times—the improbable, intimate account of how nine working-class boys from the American West showed the world at the 1936 Olympics in Berlin what true grit really meant. It was an unlikely quest from the start. With a team composed of the sons of loggers, shipyard workers, and farmers, the University of Washington's eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys' own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an unforgettable portrait of an era, a celebration of a remarkable achievement, and a chronicle of one extraordinary young man's personal quest.

Aftershocks of Disaster Yarimar Bonilla,Marisol LeBrón,2019-09-03 Two years after Hurricane Maria hit, Puerto Ricans are still reeling from its effects and aftereffects. *Aftershocks* collects poems, essays and photos from survivors of Hurricane Maria detailing their determination to persevere. The concept of aftershocks is used in the context of earthquakes to describe the jolts felt after the initial quake, but no disaster is a singular event. *Aftershocks of Disaster* examines the lasting effects of hurricane Maria, not just the effects of the wind or the rain, but delving into what followed: state failure, social abandonment, capitalization on human misery, and the collective trauma produced by the botched response.

*The Storm* Ivor van Heerden, Mike Bryan,2006-05-18 The ultimate inside story of the Katrina tragedy—from the cofounder of the LSU Hurricane Center After warning for years about the looming threat of catastrophic flooding in New Orleans, Ivor van Heerden was one of the highest-profile media experts during the Katrina disaster. Over the following eighteen months, he was even more prominent as he challenged the official version of those events and campaigned for an engineering plan that would protect all of southeastern Louisiana, once and for all. In *The Storm*, van Heerden lays out in full detail the stunning incompetence

among the bureaucrats, the politicians, and the Army Corps of Engineers that culminated in the catastrophe that crippled, perhaps forever, a great American city.

**The Magnetic Field of the Earth** Ronald T. Merrill, M. W. McElhinny, Phillip L. McFadden, 1998 Topics involved in studies of the Earth's magnetic field and its secular variation range from the intricate observations of geomagnetism, to worldwide studies of archeomagnetism and paleomagnetism, through to the complex mathematics of dynamo theory. Traditionally these different aspects of geomagnetism have in the main been studied and presented in isolation from each other. This text draws together these lines of inquiry into an integrated framework to highlight the interrelationships and thus to provide a more comprehensive understanding of the geomagnetic field.

**Headwaters: Poems** Ellen Bryant Voigt, 2013-10-21 This new collection of poems from the critically-acclaimed American poet highlights the polar opposites in life as well as animals with distinct and unique survival skills, including odes to cows, owls, groundhogs and foxes.

**A Storm of Witchcraft** Emerson W. Baker, 2015 Presents an historical analysis of the Salem witch trials, examining the factors that may have led to the mass hysteria, including a possible occurrence of ergot poisoning, a frontier war in Maine, and local political rivalries.

What Stands in a Storm Kim Cross, Kimberly Hisako Cross, 2015-03-10 Immersive reporting and dramatic storytelling from the middle of the horrific superstorm of April 2011, a weather event that killed 348 people-- Provided by publisher.

*What Stands in a Storm* Kim Cross, 2016-03 Enter the eye of the storm in this gripping real-life thriller—A Perfect Storm on land—that chronicles America’s biggest tornado outbreak since the beginning of recorded weather: a horrific three-day superstorm with 358 separate tornadoes touching down in twenty-one states and destroying entire towns. April 27, 2011 was the climax of a three-day superstorm that unleashed terror from Arkansas to New York. Entire communities were flattened, whole neighborhoods erased. Tornadoes left scars across the land so wide they could be seen from space. But from terrible destruction emerged everyday heroes—neighbors and strangers who rescued each other from hell on earth. “Armchair storm chasers will find much to savor in this grippingly detailed, real-time chronicle of nature gone awry” (Kirkus Reviews) set in Alabama, the heart of Dixie Alley where there are more tornado fatalities than anywhere else in the US. With powerful emotion and captivating detail, journalist Kim Cross expertly weaves together science and heartrending human stories. For some, it’s a story of survival; for others it’s the story of their last hours. Cross’s immersive reporting and dramatic storytelling catapult you to the center of the very worst hit areas, where thousands of ordinary people witnessed the sky falling around them. Yet from the disaster rises a redemptive message that’s just as real: in times of trouble, the things that tear our world apart reveal what holds us together.

This lyrical, rhythmic bedtime story takes the fear out of the unexpected and provides a reassuring antidote for children. A wonderful read-aloud that preschoolers will enjoy.

*A Storm Too Soon* Michael J. Tougias, 2013-01-15 FROM MASTERFUL STORYTELLER MICHAEL J. TOUGIAS COMES A NEW, HEART-STOPPING TRUE-LIFE TALE OF MARITIME DISASTER, SURVIVAL, AND DARING RESCUE, HIS MOST THRILLING AND AMAZING STORY YET. Seventy-foot waves batter a torn life raft 250 miles out to sea in one of the world’s most dangerous places, the Gulf Stream. Hanging on to the raft are three men, a Canadian, a Brit, and their captain, JP de Lutz, a dual citizen of America and France. Their capsized forty-seven-foot sailboat has filled with water and disappeared below the tempestuous sea. The giant waves repeatedly toss the men out of their tiny vessel, and JP, with nine broken ribs, is hypothermic and on the verge of death. The captain, however, is a remarkably tough character, having survived a brutal boyhood, and now he must rely on the same inner strength to outlast the storm. Trying to reach these survivors before it’s too late are four brave Coast Guardsmen battling hurricane-force winds in their Jayhawk helicopter. They know the waves will be extreme, but when they arrive they are astounded to find that the monstrous seas have waves reaching eighty feet. Lowering the wind-whipped helicopter to drop a rescue swimmer into such chaos will be extremely dangerous. The pilots wonder if they have a realistic chance of saving the sailors clinging to the broken life raft, and if they will be able to even retrieve their own rescue swimmer from the towering seas. Once they commit to the rescue, they find themselves in almost as much trouble as the survivors, facing one life-and-death moment after the next. Also caught in the storm are three other boats, each one in a Mayday situation. Of the ten people on these boats, only six will ever see land again. Spellbinding, harrowing, and meticulously researched, *A Storm Too Soon* is a vivid account about the powerful collision between the forces of nature and the human will to survive. Author Michael J. Tougias, known for his fast-paced writing style and character-driven stories, tells this true saga in the present tense to give the reader a thrilling, edge-of-your-seat immediacy. *A Storm Too Soon* is Tougias at his masterful best and a heart-pounding narrative of survival, the power of the human spirit, and one of the most incredible rescues ever attempted.

The Dust Bowl Dayton Duncan, Ken Burns, 2012-10-12 This “riveting” companion to the PBS documentary “clarifies our understanding of the ‘worst manmade ecological disaster in American history’” (Booklist). In this riveting chronicle, Dayton Duncan and Ken Burns capture the profound drama of the American Dust Bowl of the 1930s. Terrifying photographs of mile-high dust storms, along with firsthand accounts by more than two dozen eyewitnesses, bring to life this heart-wrenching catastrophe, when a combination of drought, wind, and poor farming practices turned millions of acres of the Great Plains into a wasteland, killing crops and livestock, threatening the lives of small children, burying homesteaders’ hopes under huge dunes of dirt—and setting in motion a mass migration the likes of which the nation had never seen. Burns and Duncan collected

more than three hundred mesmerizing photographs, some never before published, scoured private letters, government reports, and newspaper articles, and conducted in-depth interviews to produce a document that may likely be the last recorded testimony of the generation who lived through this defining decade.

Galveston and the 1900 Storm Patricia Bellis Bixel,Elizabeth Hayes Turner,2013-02-08 Spur Award Nominee: How Galveston, Texas, reinvented itself after historic disaster: “A riveting narrative . . . Absorbing [and] well-illustrated.” —Library Journal The Galveston storm of 1900 reduced a cosmopolitan and economically vibrant city to a wreckage-strewn wasteland where survivors struggled without shelter, power, potable water, or even the means to summon help. At least 6,000 of the city's 38,000 residents died in the hurricane. Many observers predicted that Galveston would never recover and urged that the island be abandoned. Instead, the citizens of Galveston seized the opportunity, not just to rebuild, but to reinvent the city in a thoughtful, intentional way that reformed its government, gave women a larger role in its public life, and made it less vulnerable to future storms and flooding. This extensively illustrated history tells the full story of the 1900 Storm and its long-term effects. The authors draw on survivors’ accounts to vividly recreate the storm and its aftermath. They describe the work of local relief agencies, aided by Clara Barton and the American Red Cross, and show how their short-term efforts grew into lasting reforms. At the same time, the authors reveal that not all Galvestonians benefited from the city’s rebirth, as African Americans found themselves increasingly shut out from civic participation by Jim Crow segregation laws. As the centennial of the 1900 Storm prompts remembrance and reassessment, this complete account will be essential and fascinating reading for all who seek to understand Galveston’s destruction and rebirth. Runner-up, Spur Award for Best Western Nonfiction—Contemporary, Western Writers Of America
