**Piano Stories** Felisberto Hernandez,2014-01-27 From the writer adored by the likes of García Marquez, Calvino, and Francine Prose comes a collection of Hernández's classic tales Piano Stories presents fifteen wonderful works by the great Uruguayan author Felisberto Hernández, “a writer like no other,” as Italo Calvino declares in his introduction: “like no European or Latin American. He is an ‘irregular,’ who eludes all classifications and labellings — yet he is unmistakable on any page to which one might randomly open one of his books.” Piano Stories contains classic tales such as “The Daisy Dolls,” “The Usher,” and “The Flooded House.”

The Bear and the Piano David Litchfield,2019-03-04 This best-selling tale of exploration and belonging, which won the Waterstones Childrens Book Prize 2016, Illustrated Book Category, is now available in board book.

**The Music of Life** Elizabeth Rusch,2017-04-18 Presents the life of the inventor of the piano, explaining why, how, and when he created the musical instrument.

The Bear, the Piano and Little Bear's Concert David Litchfield,2020-09 The final book in the award-winning, best-selling trilogy shows that while fame and fortune might be temporary, the best songs stay in your heart forever.

**The Piano Recital** Akiko Miyakoshi,2019-09-03 An enchanting new story from Akiko Miyakoshi. It's Momo's first piano recital. As she nervously waits to play, she tells herself, “I'll be okay ... I'll be okay ...” Then she hears a voice nearby saying, “I'll be okay ... I'll be okay ...” It's a mouseling, also nervous about her first performance! Momo follows her backstage, where she's amazed to discover a miniature mouse theater. Momo accompanies her new friend on piano, and the mouse audience is so appreciative. Except, suddenly, she discovers — it's not a mouse audience at all! Sometimes a bit of magic can make all the difference!

*A Natural History of the Piano* Stuart Isacoff,2011-11-15 A beautifully illustrated, totally engrossing celebration of the piano, and the composers and performers who have made it their own. With honed sensitivity and unquestioned expertise, Stuart Isacoff—pianist, critic, teacher, and author of *Temperament: How Music Became a Battleground for the Great Minds of Western Civilization*—unfolds the ongoing history and evolution of the piano and all its myriad wonders: how its very sound provides the basis for emotional expression and individual style, and why it has so powerfully entertained generation upon generation of listeners. He illuminates the groundbreaking music of Mozart, Beethoven, Liszt, Schumann, and Debussy. He analyzes the breathtaking techniques of Glenn Gould, Oscar Peterson, Vladimir Ashkenazy, Arthur Rubinstein, and Van Cliburn, and he gives musicians including Alfred Brendel, Murray Perahia, Menahem Pressler, and Vladimir Horowitz the opportunity to discuss their approaches. Isacoff delineates how classical music and jazz influenced each other as the uniquely American art form progressed from ragtime, novelty, stride, boogie, bebop, and beyond, through Scott Joplin, Fats Waller, Duke Ellington, Bill Evans, Thelonious Monk, Chick Corea, Herbie Hancock, Cecil Taylor, and Bill Charlap. *A Natural History of the Piano* distills a lifetime of research and passion into one brilliant narrative. We witness Mozart unveiling his monumental concertos in Vienna's coffeehouses, using a special piano with one keyboard for the hands and another for the feet; European virtuoso Henri Herz entertaining rowdy miners during the California gold rush; Beethoven at his piano, conjuring healing angels to console a grieving mother who had lost her child; Liszt fainting in the arms of a page turner to spark an entire hall into hysterics. Here is the instrument in all its complexity and beauty. We learn of the incredible craftsmanship of a modern Steinway, the peculiarity of specialty pianos built for the Victorian household, the continuing innovation in keyboards including electronic ones. And most of all, we hear the music of the masters, from centuries ago and in our own age, brilliantly evoked and as marvelous as its most recent performance. With this wide-ranging volume, Isacoff gives us a must-have for music lovers, pianists, and the armchair musician.

**The Piano** Susan Tomes,2021 A fascinating history of the piano explored through 100 pieces chosen by one of the UK's most renowned concert pianists Tomes . . . casts her net widely, taking in chamber music and concertos, knotty avant-garde masterworks and (most welcome) jazz.--Richard Fairman, *Financial Times*, Best Books of 2021: Classical Music [One of] the most beautiful books I got my hands on this year. . . . About the shaping of this maddening, glorious, unconquerable instrument.--Jenny Colgan, *Spectator*, Books of the Year An astonishingly versatile instrument, the piano allows just two hands to play music of great complexity and subtlety. For more than two hundred years, it has brought solo and collaborative music into homes and concert halls and has inspired composers in every musical genre--from classical to jazz and light music. Charting the development of the piano from the late eighteenth century to the present day, pianist and writer Susan Tomes takes the reader with her on a personal journey through 100 pieces including solo works, chamber music, concertos, and jazz. Her choices include composers such as Bach, Mozart, Beethoven, Robert Schumann, Tchaikovsky, Debussy, Gershwin, and Philip Glass. Looking at this history from a modern performer's perspective, she acknowledges neglected women composers and players including Fanny Mendelssohn, Maria Szymanowska, Clara Schumann, and Amy Beach.

The Piano Shop on the Left Bank Thad Carhart,2002-03-12 Walking his two young children to school every morning, Thad Carhart passes an unassuming little storefront in his Paris neighborhood. Intrigued by its simple sign—Desforges Pianos—he enters, only to have his way barred by the shop’s imperious owner. Unable to stifle his curiosity, he finally lands the proper introduction, and a world previously hidden is brought into view. Luc, the atelier’s master, proves an indispensable guide to the history and art of the piano. Intertwined with the story of a musical friendship are reflections on how pianos work, their glorious history, and stories of the people who care for them, from amateur pianists to the craftsmen who make the mechanism sing. The Piano Shop on the Left Bank is at once a beguiling portrait of a Paris not found on any map and a tender account of the awakening of a lost childhood passion. Praise for The Piano Shop on the Left Bank: “[Carhart’s] writing is fluid and lovely enough to lure the rustiest plunker back to the piano bench and the most jaded traveler back to Paris.” –San Francisco Chronicle “Captivating . . . [Carhart] joins the tiny company of foreigners who have written of the French as verbs. . . . What he tries to capture is not the sight of them, but what they see.” –The New York Times “Thoroughly engaging . . . In part it is a book about that most unpredictable and pleasurable of human experiences, serendipity. . . . The book is also about something more difficult to pin down, friendship and community.” –The Washington Post “Carhart writes with a sensuousness enhanced by patience and grounded by the humble acquisition of new insight into music, his childhood, and his relationship to the city of Paris.” –The New Yorker NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST BOOK WORLD

Pianoforte a Social History of the Piano Dieter Hildebrandt,1988 According to Dieter Hildebrandt, the piano is a revolutionary figure and its story a grand adventure. One by one, the memorable geniuses make their appearance: Beethoven, Schubert, Chopin, Schumann, and Liszt. Other highlights include the great piano duels (Bach v. Marchand, Mozart v. Clementi), the dawning era of the concert tour and the music critic, and the obsessions of the leading figures.

**Piano** James Barron,2007-04-01 An alluring exploration of the people and the legendary craftsmanship behind a single Steinway piano Like no other instrument, a grand piano melds engineering feats with the magical sounds of great music: the thunder of a full-throated bass, the bright, delicate trill of the upper treble. Alone among the big piano companies, Steinway still crafts all of its pianos largely by hand, imbuing each one with the promise and burden of its brand. In this captivating narrative, James Barron of The New York Times tells the story of one Steinway piano, from raw lumber to finished instrument. Barron follows that brand-new piano-known by its number, K0862-on its eleven-month journey through the Steinway factory, where time-honored manufacturing methods vie with modern-day industrial efficiency. He looks over the shoulders of men and women-some second- and third-generation employees, some recently arrived immigrants-who transform wood and steel into a concert grand. Together, they carry on the traditions begun more than 150 years ago by the immigrants who founded Steinway & Sons-a family that soared to prominence in the music world and, for a while, in New York City's political and economic life. Barron also explores the art and science of developing a piano's timbre and character before its first performance, when the essential question will be answered: Does K0862 live up to the Steinway legend? From start to finish, Piano will charm and enlighten music lovers.

**Mysterious Story** Willard A. Palmer,2005-05-03 The left hand plays a mysterious melody that alternates between C minor and C major in this late elementary piano solo. The right hand accompanies in 3/4 meter with two-note chords on the second and third beats. Varied dynamic markings create a suspenseful mood. The piece ends with an adagio section and a final pianissimo C major triad. Correlated to Alfred Level 2.
