*And Their Children After Them* Nicolas Mathieu, 2020-04-07 Named a Best Book of the Year by The Times (UK) and the Los Angeles Public Library Winner of the 2018 Goncourt Prize, this poignant coming-of-age tale captures the distinct feeling of summer in a region left behind by global progress. August 1992. One afternoon during a heatwave in a desolate valley somewhere in eastern France, with its dormant blast furnaces and its lake, fourteen-year-old Anthony and his cousin decide to steal a canoe to explore the famous nude beach across the water. The trip ultimately takes Anthony to his first love and a summer that will determine everything that happens afterward. Nicolas Mathieu conjures up a valley, an era, and the political journey of a young generation that has to forge its own path in a dying world. Four summers and four defining moments, from "Smells Like Teen Spirit" to the 1998 World Cup, encapsulate the hectic lives of the inhabitants of a France far removed from the centers of globalization, torn between decency and rage.

**The Philosophy of Henry Thoreau** Lester H.  
Hunt, 2019-10-17 Henry Thoreau is widely considered  
to be one of the greatest nature writers, among  
whose best-known works are *Walden* and *Walking*. In  
this book, Lester Hunt shows that his writings  
have a compelling philosophical dimension as well.  
Thoreau seldom argues for his ideas the way other  
philosophers do. Rather than setting up proofs  
designed to trap the reader into agreeing with  
him, he challenges the reader - by means of  
narratives, jokes, questions, and paradoxes -- to  
recognize possibilities previously unknown and  
unexplored. Thoreau's own explorations led him to  
several distinctively philosophical theories: an  
intuitionist metaethics, an ethics based on virtue  
and self-realization, a politics that is  
fundamentally individualist and anarchist, and a

secular religion in which nature is pre-eminent.

*A Carousel of Sorts* Grant Guimont, 2001-06 A *Carousel of Sorts* is a dizzying leap into the shallow end of the pool of life. The story embraces the enormity of the world and the underlying idiosyncrasies that connect us all in the end. And perhaps along the way, on the wings of the fabled Carik birds from the tale, some of those answers will appear somewhere amidst the infinite spectrum between Bob Dylan's song lyrics and the ingredients to Cocoa Puffs cereal. Sawyer Redwine, happens upon his own chance at redemption by stumbling into the life of Ashton James during a robbery. They hightail their lives across country in order to create a fresh start careening into Blaiku "Willy" Williams, the final piece in this triangle of fate. From the festive weirdness of a religious carnival located in Iowa to the eccentric values of a cosmetics mogul in Minneapolis, the triumvirate's journey unfolds under a tabloid, fashion reporter's eyes. Interwoven in the trio's new America are an angel who appears to be Ted Nugent, a Mafia hitman trying to become a rodeo clown, an elderly woman who speaks only through Hallmark cards, and an obsessive narrator with a bloated ego and a magically spiked six-pack of beer.

The Sea and the Hills Hussain Najadi, 2012-11-26 The *Sea and the Hills* Elegantly written and suffused with optimism... --Blueink Review, Colorado, USA The *Sea and the Hills: The Life of Hussain Najadi*, is more than just a memoir of a man with a talent for high finance. It is, as the cover notes, a story of oil, politics and justice, and it is the latter that makes the book a good and worthwhile read. -- Mark G. McLaughlin, Clarion Review, USA Ultimately vindicated, the author (Hussain Najadi) reflects upon the ways

that fate, determination and the support of loved ones influenced his life. He later defines success from a significantly altered perspective as he continues to pursue the original quest of building bridges among nations, cultures, and civilisations in order to create a more equitable world in which everyone is able to share the fruits of our global resources. --Kirkus Indie, Texas, USA As a friend for more than 30 years, from the day I met him in Kuala Lumpur, I'm extremely pleased that Hussain has told his story. It is fascinating in itself, but it is also worth reading for the lessons it contains. The most obvious is that intellectual curiosity, combined with an open mind and relentless drive, can go a long way towards compensating for the lack of formal education. Readers will find others as well. --Barry Wain, Singapore, Author, former Managing Editor, Wall Street Journal Asia. ...it's a fine piece of literature, a master piece I should say, true life experience of the up & down, the different culture across the many continents brought down generation after generation, the vision of the past live the present culture, oppression, colonialism, powerful sheikh, fair play, the power that be of the day say it all, it is a very motivational piece of literature to read. -- Albert Cheong ys - Malaysia A brilliant and inspirational story from a charismatic figure! A fascinating story not only from a historical point of view, the rise of the Arab and Asian world, but touching from a human perspective, the story of a man who is never defeated and goes ahead despite of the adversities of his personal and his countrys history...this autobiography is a masterpiece, its characters are beautifully portrayed, the story is superbly told ... --Elena of Italy (also shown on Amazons review page) Hussain Najadi is no stranger to hardships, and his autobiography, The Sea and the Hills,

showcases his extraordinary life. From being ejected from his home country Bahrain for plotting against British colonial rule, to his golden triangle- Western technology, management, and know-how, Asian natural resources, and Arab capital- he has had successes and triumphs at every turn. The book tells the story of his rapid rise to success and his reign as the leader in wholesale and corporate banking in Southeast Asia. Matthew Bryant, Bohlson Group, Indiana, USA

One Year to an Organized Life Regina Leeds, 2022-12-06 A comprehensive, week-by-week bible to completely streamline all aspects of your life-now revised & updated for a global pandemic world of working from home and learning to de-stress while you de-clutter. Who would you be if you felt at peace and had more time and money? An organized life enables you to have more freedom, less aggravation, better health, and to get more done. Regina Leeds has helped even the messiest turn their lives around. One Year to an Organized Life is a unique week-by-week approach that you can begin at any time of year. Regina helps you break down tasks and build routines over time so that life becomes simple, not overwhelming. Whether you're living in chaos or just looking for new ways to simplify, this essential book will help you get the whole household organized-and stay that way. Covid has shaken humanity to the core and forced us to slow down and reimagine the way we use our living spaces. In a flash, the space we knew simply as home was suddenly a classroom, our office and the gym. And, at a time when stress and anxiety is at an all-time high, it no longer seems odd to meditate. It feels life-saving. If life is to be re-imagined, shouldn't we also do that with our living spaces? In this revised and updated edition of One Year to an Organized Life, Regina Leeds reveals how to optimize your space-for work, family and daily

calmness (with plenty of new affirmations and reward systems built into her organizing tips).

How to Catholic Family Tommy Tighe, Karen Tighe, 2018-02-18 This book is a practical, encouraging guide for “the rest of us”: Catholic parents that want to impart the faith to their children but aren’t quite sure where to start. Topics include leading by example, having conversations about faith, reading the Bible as a family, learning about the Saints, praying together, learning what the Mass means, celebrating special/feast days and liturgical seasons (Advent, Lent), and finding community with other Catholic families. Tommy and Karen emphasize that this a doable task and, with humor, let the reader know that there will be plenty of “fails” along the way but not to give up trying to develop a faith-filled family life.

*Actual Consciousness* Ted Honderich, 2014-07-10 What is it for you to be conscious? There is no agreement whatever in philosophy or science: it has remained a hard problem, a mystery. Is this partly or mainly owed to the existing theories not even having the same subject, not answering the same question? In *Actual Consciousness*, Ted Honderich sets out to supersede dualisms, objective physicalisms, abstract functionalism, externalisms, and other positions in the debate. He argues that the theory of Actualism, right or wrong, is unprecedented, in nine ways. (1) It begins from gathered data and proceeds to an adequate initial clarification of consciousness in the primary ordinary sense. This consciousness is summed up as something's being actual. (2) Like basic science, Actualism proceeds from this metaphorical or figurative beginning to what is wholly literal and explicit—constructed answers to the questions of what is actual and what it is for

it to be actual. (3) In so doing, the theory respects the differences of consciousness within perception, consciousness that is thinking in a generic sense, and consciousness that is generic wanting. (4) What is actual with your perceptual consciousness is a subjective physical world out there, very likely a room, differently real from the objective physical world, that other division of the physical world. (5) What it is for the myriad subjective physical worlds to be actual is for them to be subjectively physical, which is exhaustively characterized. (6) What is actual with cognitive and affective consciousness is affirmed or valued representations. The representations being actual, which is essential to their nature, is their being differently subjectively physical from the subjective physical worlds. (7) Actualism, naturally enough when you think of it, but unlike any other existing general theory of consciousness, is thus externalist with perceptual consciousness but internalist with respect to cognitive and affective consciousness. (8) It satisfies rigorous criteria got from examination of the failures of the existing theories. In particular, it explains the role of subjectivity in thinking about consciousness, including a special subjectivity that is individuality. (9) Philosophers and scientists have regularly said that thinking about consciousness requires just giving up the old stuff and starting again. Actualism does this. Science is served by this main line philosophy, which is concentration on the logic of ordinary intelligence—clarity, consistency and validity, completeness, generality.
